RE: Informational Review Letter – 15 Edgewood Ave. North, Block #45.06, Lot #3 – Application for a C Variance – ZB-24-10

Dear Ms. Chandler-Zimmermann

This Informational Letter is in response to a letter that I received on 10/20/24 in which the application for Celeste R. Jenkins was reviewed by the Nishuane Group, LLC. My responses and clarifications to the Review Letter by the Nishuane Group, LLC are as follows:

Project Overview

The emergency escape window is not part of this application and will be installed by others at a future date. In my discussion with Ms. Geniece Gary-Adams, Director of Planning & Development/Zoning Official on May 1, 2024 in her office, we agreed that although not stated explicitly in the Zoning Ordinance, the emergency escape window would be treated in the same vain as a fire escape (25-8.2.d) by which it would be permitted in a side yard because it is a life safety installation due to the configuration of the Lower Level basement area where a person would have a second means of egress from the proposed bedroom on that level. (See floor plan A-1) The West Orange Zoning Department would not have any objections, and the homeowner would be able to apply for a building permit.

A. Roof Overhang

The new addition located on the southeast corner of the house (17'-0" x 11'-0") will encompass extra storage room as an extension of the garage for landscaping equipment, tools and a snowblower on the lower level and additional space for the Master Bedroom on the Upper Level of the residence for additional Wardrobe Storage. The new roof and it's 3foot overhang is proposed to be consistent with the remainder of the residence, however the roof overhang on the south-east corner extends into the required setback by 2.6ft. I am allowed a 2ft.extension into the required 15-ft. side yard setback on the southern end of the house, thus a Variance is required. The roof overhang based on my interpretation of the Zoning Ordinance and in my discussion with Ms. Geniece Gary-Adams (3/25/24 email message) is part of the house and is a design feature. It is easier in my opinion to conceptualize and visualize the intent of the proposed work based on this interpretation of the zoning ordinance.

B. Yard Encroachment – Heat Pump

The proposed heat pump is not part of this application but will be designed and installed by others at a future date. It is also acknowledged that the specific wording stating a heat pump is not noted in the ordinance, however, in the spirit of the ordinance, the heat pump, which is not attached to the house would extend into the required setback by 2'-6". However, the size of the heat pump is shown on drawing A-2 for location review purposes on the northern side of the house. Further relief would be required on the northern end due to an existing side yard dimension to the property line of 8.33 feet which is non-conforming to the Ordinance where it requires that I have a 10ft. setback. Thus, a hardship variance is

being requested. (See drawing SP-1). I reference 25-8.2c where it states: **Doorways, windows, sills, lintels, wall ornaments or leaders projecting not more than two feet. A variance shall be required for any feature that projects more than two feet into a required yard.**

Planning Comments – Bulk “C” Variances

There are two hardship variances being sought due to the existing conditions of the property and the house and they are as follows:

- (1) The lot #3 located in Block #158 in the R-4 zone requires a lot size of **15,000 square ft.** This existing lot has **14,982 square feet.**
- (2) The northern side yard requires a **10ft.** setback and the current side yard is **8.33 ft.**

The other two variances that are being requested which if the variances are granted would outweigh any detriments are:

- (1) The partial extension of the overhang of the roof of the new addition 2.6 ft. into the required 15 ft setback located on the southeast corner of the residence would be consistent with the existing house design. The zoning ordinance allows for a 2ft. extension into a required setback.
- (2) The future installation of a heat pump on the northern side of the house would allow the Owner to provide an eco-friendly quiet means to heat and cool her home in battling climate change, lowering energy costs and reducing risks to the power grid and the carbon impact of the home which benefits the Owner and the West Orange community.

By granting the four requested variances for this application as noted, there are no negative criteria applicable to this application. The proposed scope of work enhances the existing residence by providing a level of comfort to the Owner's quality of life, provides a seamless addition to the existing residence in terms of life safety, energy efficiency and material use (brick and asphalt shingles to match existing). This project is not a detriment to the public good because the residence will continue to co-exist with the neighboring properties nor will the proposed work impair the intent and the purpose of the zone plan and zoning ordinance.

Respectfully Submitted,
