Subject: RE: Notice to 40 Eagle Ridge Way

I will attend the 3pm meeting Friday. Please let me know where it will be held. I'll be happy to inform regarding what the HEPSCD can and cannot regulate.

It would be most helpful to have a copy of any plans showing the stormwater system in the ROW of Eagle Ridge Way – what area is contributing water from upstream, where it enters 40 Eagle Ridge, any easements, etc. We know it currently daylight on 40 Eagle Ridge via a concrete elliptical pipe, into riprap, before flowing downhill. I'd like more information on the upstream end.

The new infiltration system on 40 Eagle Ridge has an engineered outlet (emergency overflow) that is not the same as the elliptical pipe. HEPSCD has **not** observed overflow from the infiltration system during our inspections.

-
HEP is experiencing non-delivery of U.S. Postal Service **certified** mail due to the signature requirement.

We suggest another form of delivery including our outside drop box, USPS regular mail, or private carrier with tracking.
