

SUSTAINABILITY CHECKLIST FORM

SUSTAINABLE BUILDING AND DESIGN STANDARDS	APPLICANT – PRINT OR TYPE – ALL SECTIONS TO BE COMPLETED:	TOWNSHIP OK (Date)
Name of LEED Accredited Professional working on project:	Joshua Lilley, LEEP AP BD + C (however project will not be LEED certified)	
List of Energy Star and WaterSense appliances, fixtures and construction techniques:	All light fixtures interior and exterior to be LED. Light fixtures in private rooms and storage will be on occupancy sensors with timers. Restroom fixtures are water sense labeled products. There are two small appliances: microwave and under-counter refrigerator.	
List of green and recycled building materials in new construction, renovation, and maintenance:	N/A	
Waste Management Plan for recycling and/or reuse of 60 percent of all construction and demolition of waste generated in projects larger than \$25,000:	Provided by General Contractor	
Use of any water efficient landscaping:	Please refer to the Landscape Plan (Sheet 8 of 20) and the Landscape Notes and Details (Sheet 9 of 20) of the Preliminary and Final Site Plan. The Landscape Plan proposes native, hardy species which are common for this proposed use and location.	
Use of any on-site renewable energy systems such as: (i) Solar (ii) Wind (iii) Geothermal	N/A	
Details of roofing materials designed to reduce the urban heat island effect such as: (i) Construction of roof top gardens to reduce solar gain in summer and insulate in winter (ii) Use of roofing materials that are no darker than a light gray or demonstrate how alternate roofing materials reduce the urban heat island effect	Roof membrane will be TPO with a min. SRI value of 0.78	
Details of any sustainable stormwater systems employed such as: (i) Bioswales/ raingardens (ii) Permeable surfaces (iii) Grey water systems (iv) Retention and detention facilities (v) Continuous trenching	Not applicable. This project does not result in greater than 1 acre of disturbance or create 1/4 acre or more of new regulated impervious or motor vehicle surface, and therefore, the project is not subject to the stormwater management quantity, quality and recharge requirements set forth at NJAC 7:8.	
A list of native and well adapted species used in landscaping to eliminate the need for fertilization and pesticides:	Please refer to the Landscape Planting Schedule located in the Landscape Plan (Sheet 8 of 20) the Preliminary and Final Site Plan. The following plants have been proposed on site: Shade Trees, Ornamental Trees, Evergreen Trees, Evergreen Shrubs, Deciduous Shrubs and Ground Cover.	

Note: Please indicate for each of the sustainable building/design items listed, the extent to which the measure is being incorporated in the project or, alternatively, indicate the reason(s) why it is not being incorporated in the project.

As of April 2, 2015
