

EXHIBIT A

Memorandum of Understanding (MOU)
Between:
The Township of West Orange and
The Alcohol & Drug Abuse Prevention Team (ADAPT)

The Township of West Orange ("Township") and the Alcohol & Drug Abuse Prevention Team ("ADAPT"), agree to the following, effective on the date of signing:

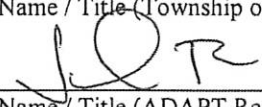

The Township agrees to the following:

- The Township will maintain a prescription drug drop box ("Box") in a secure location, within its Police Department's headquarters, enabling community members and the public to dispose of unused medications at any time throughout the year. Community members cannot dispose of liquid medication or syringes in the Box.
- Prior to installing the Box, the Township, must contact the U.S. Drug Enforcement Agency, New Jersey Division ("DEA") to:
 - o Obtain a waiver enabling the Township to accept prescription CDS for disposal.
 - o Notify them about the plan to install a new Box; and,
 - o Follow any other rules/regulations as given by the DEA
- While in custody of the Township, the Box must be located indoors, in a secure area within a law enforcement facility. The Box must be attached firmly to the floor or wall, or both, within view of law enforcement personnel. The area must be one to which members of the public may be granted access, in order to deposit unused medications into the Box.
- The Township will allow members of the public to deposit unused and/or expired medications into the Box, in accordance with the Township's proper procedures for safety and security.
- To the extent possible, the Township will give members of the public the opportunity to deposit medications in the Box anonymously, 24 hours a day, seven days a week. If that is not possible given the Township's logistical concerns, the public will have access to the Box seven days a week for the reasonable number of hours each day at times most useful to the public that the Township can accommodate.

- When possible, the Township will provide ADAPT- sponsored surveys located near the Box.
- The Township will ensure the box is checked and emptied on a regular basis, no less than once every two weeks. Deposited drugs will be removed, handled, processed, disposed of, and destroyed in compliance with all appropriate laws and regulations, and in compliance with the Township's procedures and protocols.
- The Township will weigh the medications deposited into the Box, and on a quarterly basis will report to ADAPT the total weight of deposited medications.
- The Township will provide completed surveys to ADAPT on a regular basis, for at least the first year.

ADAPT agrees that it will publicly identify the Township's Police Department headquarters as the location of a Box. Through public events, press materials, and ADAPT's website, ADAPT will promote the Box's use to consumers for the disposal of unused and/or expired medications.

Signed and Agreed:
