Re: County Conservation Company agreement with Nature's Choice NJ, LLC

To Whom it May Concern:

This letter is to confirm that County Conservation Company and Nature's Choice NJ, LLC have an operating agreement pursuant to the operations of our compost site. In addition, our facility accepts waste from Nature's Choice NJ, LLC. Please advise if further information is required.

Very Truly Yours,

John Petrongolo

RECYCLING CENTER GENERAL APPROVAL – MULTI CLASS

Under the provisions of N.J.S.A. 13:1E-1 et seq. and N.J.S.A. 13:1E-99.11 et seq., known as the Solid Waste Management Act and New Jersey Statewide Mandatory Source Separation and Recycling Act, respectively, and pursuant to N.J.A.C. 7:26A-1 et seq., known as the Recycling Regulations, this approval is hereby issued to:

County Conservation Company, LLC

Facility Type:	Recycling Center
Lot & Block Nos.:	Block 7, Lots 5, 6, 6.01, 6.02, 6.04
Municipality:	Washington Township
County:	Gloucester County
Facility ID No.:	132201
Permit No.:	REC210002

This General Approval is subject to compliance with all conditions specified herein and all regulations promulgated by the Department of Environmental Protection (Department).

This General Approval shall not prejudice any claim the State may have to riparian land nor does it allow the registrant to fill or alter, or allow to be filled or altered, in any way, lands that are deemed to be riparian, wetlands, stream encroachment or flood plains, or within the Coastal Area Facility Review Act (CAFRA) zone or are subject to the Pinelands Protection Act of 1979, nor shall it allow the discharge of pollutants to waters of this State without prior acquisition of the necessary grants, permits, or approvals from the Department.

October 27, 2021
Issuance Date

October 27, 2026
Expiration Date

Karen Kloof, Chief
Bureau of Recycling &
Hazardous Waste Management

Scope of Approval

This General Approval (approval), along with the referenced application documents herein specified, shall constitute the sole General Approval for the operation of a Class B and C Recycling Center by County Conservation Company, LLC located in Washington Township, Gloucester County, New Jersey. Any registration, approval or permit previously issued by the Division of Solid and Hazardous Waste, or its predecessor agencies is hereby superseded.

This general approval does not convey any property rights of any sort, or any exclusive privilege. Failure to comply with all of the conditions specified herein may result in revocation of this approval and/or may result in such other regulatory or legal actions that the Department is authorized by law to institute, including but not limited to, civil and administrative penalty assessments.

Regulated Activities at the Facility

Conditions 1 to 40 of this approval contain the General Requirements applicable to all recycling centers. Conditions 41 to 56 of this approval contain the Class B and Class C Recycling Operations, General Requirements for the receipt, storage, processing and transferring of Class B and Class C recyclable materials. Conditions 57 to 69 of this approval contain the Class B Recyclable Materials, Specific Requirements. Conditions 70 to 75 of this approval contain the Class C Recyclable Materials, Specific Requirements. Conditions 76 to 84 of this approval contain the Yard Trimmings General Requirements and Conditions 85 to 116 contain the Yard Trimmings Composting Requirements.

Facility Description

The recycling center is privately operated by the County Conservation Company, LLC as a regional site. The recycling center is located at 212 Blackwood-Barnsboro Road on Block 7, Lots 5, 6, 6.01, 6.02, and 6.04, in Washington Township, Gloucester County. This regional recycling center receives leaves, grass, wood chips, brush, trees, tree parts, tree stumps, and unpainted and non-chemically treated wood from various municipalities within Gloucester and Camden Counties. In addition, the facility accepts asphalt shingles from roofers and potable water treatment residuals from water treatment facilities. Prior to the acceptance of potable water treatment residuals, the facility shall have received analytical results along with a signed certification from the generator certifying the material meets the Department's residential soil cleanup criteria. The potable water treatment residuals will be used for blending with soils stored on site. The recycling center is authorized to accept and process recyclable materials 7:00 a.m. to 6:00 p.m., Monday through Friday and 7:00 a.m. to 5:00 p.m. on Saturdays.

Class B recyclable material delivered to the recycling center is staged in unprocessed material stockpiles to await processing. The recycling center markets mulch and wood chips from the site, a portion of which are dyed. In addition, the recycling center will store, process and/or transfer asphalt shingles and potable water treatment residuals.

Class C recyclable material delivered to the recycling center is composted until it has reached a stable form. The stabilized compost is then screened to remove any non-compostable material. Finished compost is stored on-site prior to being sold to various end-markets.

Approved General Approval Application and Associated Documents

The registrant shall construct and operate the facility in accordance with N.J.A.C. 7:26A-1 *et seq.*, the conditions of this Approval, and the following documents:

- (1) The following drawings are for the facility's Class B & C recycling center, prepared by Cummings and Smith, Inc., signed and sealed by Gary L. Smith, P.E., NJ License No. GE28113. The Washington Township Fire Chief, John Hoffman signed cover sheet 1 of 11 on June 6, 2016:

Sheet 1 of 11 titled "Location Plan, List of Drawings & Notes", last revised on May 24, 2016.

Sheet 2 of 11, titled "General Site Plan", last revised on May 24, 2016.

Sheet 3 of 11, titled "Site Plan and Notes", last revised on August 10, 2016.

Sheet 6 of 11, titled "Class B/C Wood, Brush, Leaves, Grass Receiving Areas and Volumes, last revised on May 24, 2016.

Sheet 7 of 11, titled "Class B Finished Product Areas and Volumes, last revised on May 24, 2016.

Sheet 8 of 11, titled Unprocessed Potable Water Residuals Storage Areas & Volumes, last revised on August 10, 2016.

Sheet 9 of 11 titled "Unprocessed & Processed Asphalt Shingle Storage Areas and Volumes, last revised on May 24, 2016.

Sheet 10 of 11 titled "Class C Material Windrows Areas and Volumes" last revised on May 24, 2016.

Sheet 11 of 11 titled "Compost Curing and Class C Finished Product Areas and Volumes" last revised on May 24, 2016.

- (2) Application for Class B & C Recycling Center General Approval Renewal dated July 9, 2021, submitted by John R. Purves, Attorney at Law on behalf of County Conservation, LLC.
- (3) Modification Application submitted by John R. Purves, Attorney at Law, dated, November 3, 2015.
- (4) Modification Application submitted by John R. Purves, Attorney at Law, dated, February 4,

2016 for (PWR modification application).

- (4) Response letter from County Conservation Company (PWR application) dated April 19, 2016 to the Department's Notice of Deficiency dated March 24, 2016.
- (5) Response letter from County Conservation Company dated June 6, 2016, to the Department's Notice of Deficiency dated April 20, 2016.
- (6) Response letter from John R. Purves, Attorney at Law dated August 17, 2016, to the Department's 2nd Notice of Deficiency dated August 3, 2016
- (7) Response letter from John R. Purves, Attorney at Law dated October 25, 2016, to the Department's 2nd Notice of Deficiency dated October 4, 2016.
- (8) Response letter from John R. Purves, Attorney at Law dated December 15, 2016, to the Department's 3rd Notice of Deficiency dated November 23, 2016.
- (9) Compost Application for the County Conservation Company dated July 10, 1997.
- (10) Amendment to the Gloucester County Solid Waste Management Plan Inclusion for the acceptance of potable water residue at the County Conservation Company Class B and Class C Recycling Facility approved by the Bureau of Recycling & Planning through the Administrative Action letter dated May 10, 2010.
- (11) Amendment to the Gloucester County Solid Waste Management Plan Inclusion of recycling of asphalt shingles at the County Conservation Company Class B and Class C Recycling Facility approved by the Bureau of Recycling & Planning through the Administrative Action letter dated December 2, 2009.
- (12) Amendment to the Gloucester County Solid Waste Management Plan Inclusion of additional parcel of land (Block 7, Lot 6) for recycling operations at the County Conservation Company Class B and Class C Recycling Facility approved by the Bureau of Recycling & Planning through the Administrative Action letter dated December 10, 2008.
- (13) Amendment to the Gloucester County Solid Waste Management Plan Inclusion of additional parcel of land (Block 7, Lot 5) to be used as buffer for recycling operations at the County Conservation Company Class B and Class C Recycling Facility approved by the Bureau of Recycling & Planning through the Administrative Action letter dated October 18, 2002.
- (14) Gloucester County Solid Waste Management Plan inclusion of County Conservation LLC as a vegetative waste facility authorized to accept leaves, grass, brush, stumps, and logs, certified by the Commissioner of the Department of Environmental Protection on March 19, 1993.

In case of conflict, the provisions of N.J.A.C. 7:26A-1 *et seq.* shall have precedence over the conditions of this Approval, and the conditions of this Approval shall have precedence over plans and specifications listed above.

COUNTY CONSERVATION LLC
132201 REC210002 Recycling Center - Multiple Classes -Renewal
Requirements Report

Subject Item: PI 132201 -

1. All persons issued a general approval to operate a recycling center for Class B, Class C and/or Class D recyclable material pursuant to N.J.A.C. 7:26A-1 et seq. shall comply with all conditions of the approval. [N.J.A.C. 7:26A-3.1(a)]
2. The holder of this general approval shall prominently post and maintain a legible sign, at or near the entrance to the recycling center, indicating that the recycling center is an approved New Jersey Department of Environmental Protection recycling center. The sign shall also indicate the following: Hours of operation of the recycling center; Listing of the source separated materials to be received; The size, weight, or other restrictions regarding materials to be received; The maximum amount of contaminants allowed in each load; Warning that loads will be inspected and will be barred from offloading if the contaminant level is exceeded; and Notice that the person offloading shall certify the amount of material per load, municipality of origin of the material and any other information contained on the Recyclable Material Receipt Form. [N.J.A.C. 7:26A-3.5(f)]
3. Application for renewal of this general approval shall be submitted at least three months prior to expiration of the current approval and shall comply with all requirements for renewal set forth in N.J.A.C. 7:26A-3.6 et seq. One copy of the application for renewal of the general approval shall be submitted by the applicant to the municipal clerk of the municipality in which the recycling center is located, and to the solid waste or recycling coordinator of the county in which the recycling center is located. [N.J.A.C. 7:26A-3.6(a)]
4. The applicant for renewal of this general approval shall certify in writing to the Department that there have been no changes in the operations of the recycling center since the issuance of the general approval in order to renew the approval in its existing form. In the event that there have been changes in the operations of the recycling center or where changes are planned, the application for renewal of a general approval shall be accompanied by a written request to modify the general approval in accordance with N.J.A.C. 7:26A-3.10. [N.J.A.C. 7:26A-3.6(b)]
5. In a case where the holder of this general approval does not comply with N.J.A.C. 7:26A-3.6(a) and (b) and continues to operate without renewal of the general approval, the Department may take enforcement action including the assessment of penalties under N.J.S.A. 13:1E-9; require the holder of this general approval to file an application as a new applicant for a general approval in accordance with N.J.A.C. 7:26A-3.2 and pay the application fee as per N.J.A.C. 7:26A-2; and/or take any other appropriate actions. [N.J.A.C. 7:26A-3.6(c)]
6. All persons granted a renewal pursuant to N.J.A.C. 7:26A-3.6(d) shall continue to pay the annual fee as specified in N.J.A.C. 7:26A-2. [N.J.A.C. 7:26A-3.6(h)]
7. The holder of this general approval shall obtain prior approval from the Department for any modification of the general approval. [N.J.A.C. 7:26A-3.10(a)]
8. Any change affecting the conditions of this general approval requires the prior approval of the Department. [N.J.A.C. 7:26A-3.10(b)1]
9. Any change to the information submitted pursuant to N.J.A.C. 7:26A-3.2(a), 3.4, 3.8, 3.18, 3.19 or 3.20 requires the prior approval of the Department, except that changes in end-market information submitted pursuant to N.J.A.C. 7:26A-3.2(a) 7 shall not require the prior approval of the Department but shall be handled in accordance with N.J.A.C. 7:26A-3.10(f). [N.J.A.C. 7:26A-3.10(b)2]

10. The holder of this general approval shall notify the Department in writing of the intended modification and shall update the information submitted pursuant to N.J.A.C. 7:26A-3.2(a), 3.4, 3.8, 3.18, 3.19 or 3.20. The holder of this general approval shall also provide written notice to the solid waste or recycling coordinator of the applicable county of any request to modify a general approval. [N.J.A.C. 7:26A-3.10(c)]
11. The holder of this general approval shall not institute the modification until it receives written approval from the Department. [N.J.A.C. 7:26A-3.10(e)]
12. Within one week of any change to the end-market information submitted to the Department pursuant to N.J.A.C. 7:26A-3.2(a)7, the holder of this general approval shall submit to the Department a written notification which details any change in the use of the recyclable material transferred from the recycling center to an end-market or in the end-market location to which the recyclable material is transferred. The written notification shall be sent to: New Jersey Department of Environmental Protection, Division of Solid and Hazardous Waste, Bureau of Recycling & Hazardous Waste Management, Mail Code: 401-02C, P.O. Box 420, Trenton, New Jersey 08625-0420. [N.J.A.C. 7:26A-3.10(f)]
13. The Department may revoke this general approval upon a determination that the holder of the general approval has violated any provision of N.J.S.A. 13:1E-1 et seq., the New Jersey Statewide Mandatory Source Separation and Recycling Act, or any rule, regulation or administrative order promulgated pursuant to N.J.S.A. 13:1E-1 et seq. and the New Jersey Statewide Mandatory Source Separation and Recycling Act. [N.J.A.C. 7:26A-3.13(a)1]
14. The Department may revoke this general approval upon a determination that the holder of the general approval has violated any solid waste utility law at N.J.S.A. 48:2-1 et seq. or 48:13A-1 et seq., or any rule, regulation or administrative order promulgated pursuant to N.J.S.A. 48:2-1 et seq. or 48:13A-1 et seq. [N.J.A.C. 7:26A-3.13(a)2]
15. The Department may revoke this general approval upon a determination that the holder of the general approval has violated any provision of any laws related to pollution of the waters, air or land surfaces of the State or of any other State or Federal environmental laws including criminal laws related to environmental protection. [N.J.A.C. 7:26A-3.13(a)3]
16. The Department may revoke this general approval upon a determination that the holder of the general approval has refused or failed to comply with any lawful order of the Department. [N.J.A.C. 7:26A-3.13(a)4]
17. The Department may revoke this general approval upon a determination that the holder of the general approval has failed to comply with any of the conditions of this general approval issued by the Department. [N.J.A.C. 7:26A-3.13(a)5]
18. The Department may revoke this general approval upon a determination that the holder of the general approval has transferred a general approval to a new owner or operator pursuant to N.J.A.C. 7:26A-3.15 without the prior approval of the Department. [N.J.A.C. 7:26A-3.13(a)6]
19. The Department may revoke this general approval upon a determination that the holder of the general approval has failed to obtain any required permit or approval from the Department or other State or Federal agency. [N.J.A.C. 7:26A-3.13(a)7]

20. The Department may revoke this general approval upon a determination that the holder of the general approval has committed any of the acts which are criteria for denial of a general approval set forth in N.J.A.C. 7:26A-3.12. [N.J.A.C. 7:26A-3.13(a)8]
21. This general approval shall not be transferred to a new owner or operator without the Department's prior approval. [N.J.A.C. 7:26A-3.15(a)]
22. A written request for permission to allow a transfer of this general approval must be received by the Department at least 60 days in advance of the proposed transfer of ownership or operational control of the recycling center. The request for approval shall include the following: the name, address and social security number of all prospective new owners or operators; a written certification by the proposed transferee that the terms and conditions contained in the general approval will be met by the proposed transferee; and a written agreement between the current owner or operator of the recycling center and the proposed new owner or operator containing a specific future date for transfer of ownership or operational control. [N.J.A.C. 7:26A-3.15(a)1]
23. A new owner or operator may commence operations at the recycling center only after the existing approval has been revoked and a new approval is issued to the new owner or operator pursuant to N.J.A.C. 7:26A-3.5. [N.J.A.C. 7:26A-3.15(a)2]
24. The holder of this general approval remains liable for ensuring compliance with all conditions of the approval unless and until the existing approval is revoked and a new approval is issued to the new owner or operator pursuant to N.J.A.C. 7:26A-3.5. [N.J.A.C. 7:26A-3.15(a)3]
25. Compliance with the transfer requirements set forth at N.J.A.C. 7:26A-3.15 shall not relieve the holder of this general approval from the separate responsibility of providing notice of such transfer pursuant to the requirements of any other statutory or regulatory provision. [N.J.A.C. 7:26A-3.15(a)4]
26. The transfer of a controlling interest in the stock or assets of the recycling center that is the subject of this general approval shall constitute a transfer of this general approval. [N.J.A.C. 7:26A-3.15(b)]
27. The holder of this general approval shall maintain a daily record of the amounts of each recyclable material by type and municipality of origin which are received, stored, processed or transferred each day, expressed in tons, cubic yards, cubic feet or gallons. Those operators specifying this information in cubic yards shall also indicate the conversion ratio of the materials from cubic yards to tons. [N.J.A.C. 7:26A-3.17(a)1]
28. The holder of this general approval shall maintain a daily record of the name, address and telephone number of the end-markets for all recyclable materials transported from the recycling center, including the amounts, in tons, cubic yards, cubic feet or gallons, transported to each end-market. Those persons specifying this information in cubic yards shall also indicate the conversion ratio of the materials from cubic yards to tons. [N.J.A.C. 7:26A-3.17(a)2]
29. The holder of this general approval shall maintain a daily record of the amount of residue disposed of, expressed in tons, cubic yards, cubic feet or gallons, including the name and New Jersey Department of Environmental Protection solid waste registration number of the solid waste collector/hauler contracted to provide the haulage/disposal service. Those persons specifying the amount of residue in cubic yards shall also indicate the conversion ratio of the residue from cubic yards to tons. [N.J.A.C. 7:26A-3.17(a)3]

30. The holder of this general approval shall retain all Recyclable Material Receipt Forms required pursuant to N.J.A.C. 7:26A-3.2(a)16iii for three calendar years following the calendar year for which an annual report is required pursuant to N.J.A.C. 7:26A-3.17(c). [N.J.A.C. 7:26A-3.17(b)]
31. The holder of this general approval shall submit an annual report containing monthly summary statements of the information required pursuant to N.J.A.C. 7:26A-3.17(a) to the New Jersey Department of Environmental Protection, Division of Solid and Hazardous Waste, Bureau of Recycling & Hazardous Waste Management on or before March 1 of each year, for the previous calendar year. The summaries shall include the following: monthly totals of the amount of recyclable material received from each customer by municipality of origin; monthly totals of the amount of recyclable product transferred to each end-market; and the amount of residue disposed of during each month. [N.J.A.C. 7:26A-3.17(c)]
32. The holder of this general approval shall certify in writing to the Department that all residue generated at the recycling center has been disposed of in accordance with the solid waste management rules at N.J.A.C. 7:26. The certification shall be submitted annually as part of the annual report. [N.J.A.C. 7:26A-3.17(e)]
33. All information submitted to the Department pursuant N.J.A.C. 7:26A shall be handled in accordance with the requirements of the Public Records law, N.J.S.A. 47:1-1 et seq. The Department will hold confidential all end-market information, as well as information pertaining to the municipality of origin of recyclable material, submitted pursuant to N.J.A.C. 7:26A-3.2, 3.7, and 3.17 through 3.20 for a period of two years from the date on which the information is submitted to the Department, where specified as confidential by the applicant and where there are no health, safety or environmental concerns which require the release of the information, as determined by the Department. [N.J.A.C. 7:26A-3.17(f)]
34. The holder of this general approval shall provide a recycling tonnage report by March 1 of each year to all municipalities from which recyclable material is received in the previous calendar year. The report shall detail the amount of each source separated recyclable material, expressed in tons or cubic yards, brought to the recycling center, as well as the date on which the recyclable materials were delivered to the recycling center. Those persons specifying this information in cubic yards shall also indicate the conversion ratio of the materials from cubic yards to tons. [N.J.A.C. 7:26A-4.4(a)]
35. The recycling center shall not commence operations unless and until it is included in the applicable district solid waste management plan. [N.J.A.C. 7:26A-4.2]
36. The construction of the recycling center that is the subject of this general approval shall be in conformance with the New Jersey Uniform Construction Code, N.J.S.A. 52:27D-119 et seq., and the rules promulgated pursuant thereto. [N.J.A.C. 7:26A-4.1(b)]
37. The New Jersey Department of Environmental Protection or an authorized representative acting pursuant to the County Environmental Health Act, N.J.S.A. 26:3A2-1 et seq. shall have the right to enter and inspect any building or other portion of the recycling center at any time in order to determine compliance with the provisions of all applicable laws or rules and regulations adopted pursuant thereto. This right to inspect includes, but is not limited to: sampling any materials on site; photographing any portion of the recycling center; investigating an actual or suspected source of pollution of the environment; and, ascertaining compliance or non-compliance with the statutes, rules or regulations of the Department, including conditions of the recycling center approval issued by the Department. 47. Material deliveries to the recycling center shall be scheduled in such a manner as to minimize truck queuing on the recycling center property. Under no circumstances shall delivery trucks be allowed to back-up or queue onto public roads. [N.J.A.C. 7:26A-3.5(e)]
48. Metal pipe or metal rods or the equivalent as approved by the Department shall be used to establish these control points. [N.J.A.C. 7:26A- 3.5(e)]
49. Ingress and egress of the facility shall be restricted to Blackwood - Barnsboro Road (County Route 603) only. [N.J.A.C. 7:26A-3.5(e)]
50. Methods of effectively controlling dust shall be implemented at the facility in order to prevent offsite migration. [N.J.A.C. 7:26A-3.5(e)]
51. Fire fighting and emergency procedures shall be posted, and shall include the telephone numbers of local fire, police, ambulance, and hospital facilities. If a fire occurs on-site, the facility shall immediately notify the local fire official and the N.J.D.E.P. Environmental Action Hotline at 1-877-927-6337. [N.J.A.C. 7:26A-3.5(e)]
52. Any suspected or prohibited hazardous waste, as defined at N.J.A.C. 7:26G-5, found in a load accepted at the recycling center shall not be returned to the generator. Such materials shall be segregated and stored in a secure manner and shall be immediately reported to the N.J.D.E.P. Environmental Action Hotline at 1-877-927-6337. The owner/operator of the recycling center shall secure the name of the collector/hauler suspected of delivering such waste to the facility and related information surrounding the incident, if available, and shall make this information known to N.J.D.E.P. enforcement personnel. [N.J.A.C. 7:26A-3.5(e)]
53. Pursuant to N.J.A.C. 7:26A-3.11(a), the holder of this general approval shall obtain prior approval from the Department for any increase in the design capacity of the facility. The facility shall submit a request to the Department, in writing, for the proposed increase and shall submit updated information pursuant to the requirements of N.J.A.C. 7:26A-3.2(a), 3.4, or 3.8, as applicable. The facility shall also provide written notice of the request to the solid waste or recycling coordinator of the applicable district. [N.J.A.C. 7:26A-3.5(e)]
54. The holder of the General Approval shall grade and maintain the facility to minimize the accumulation of ponded water in a manner that protects human health, safety, and the environment, and prevents detrimental conditions including, but not limited to, odors, mosquito colonization, or causes site materials to be tracked off-site. [N.J.A.C. 7:26A- 3.5(e)]
55. Initial soil modification and grading performed shall be in accordance with the approved Site Plan. Once original grading is complete, the composting area, Class B operational areas, related material staging/mixing areas and access road(s) shall be maintained for the life of the recycling center in a manner that prevents the accumulation or ponding of surface water. [N.J.A.C. 7:26A- 3.5(e)]

COUNTY CONSERVATION LLC

Requirements Report

Subject Item: RCBG174764 - Class B and C Recycling Operations, General Requirements

56. The following equipment or equivalent for grinding, screening, turning and coloring shall be available for site operations and shall be maintained in operable condition:

Volvo L-110, L-120 and L180 Wheel Loaders
Peterson 5710 Horizontal Grinder
McClusky R230 Shake Screen
Edge Conveyor
HYPAC Steam Roller
John Deere 850 Dozer
Hitachi 120 Excavator
Cat D400D Off Road Dump
DZ4000 Horizontal Grinder
Mobark 6600 Horizontal Grinder
McClusky 628 Colorizer
McClusky Stacker
1300 Boss Mobark Grinder
Doppstadt Screener
Wildcat 750 Compost Turner

All equipment must be operational at all times. In the event of breakdown, should there be a need to replace any equipment listed above, the replacement equipment's performance shall be equivalent or better than the equipment being replaced.

The holder of the Approval must notify the Bureau in writing of any replaced equipment along with the manufacturer specifications for the replacement equipment within two weeks of such replacement. Where applicable, the holder of the Approval must also submit any air permit(s) or air permit application(s) required for the replacement equipment. The above information shall also be submitted via email to recyclingfacilities@dep.nj.gov. [N.J.A.C. 7:26A-3 .5(e)]

Subject Item: RCBG915005 - Class B Recyclable Materials, Specific Requirements

57. The following source separated Class B recyclable materials, which have been separated at the point of generation from other waste materials or separated at a permitted solid waste facility authorized to separate recyclable materials, may be received, stored, processed or transferred at this recycling center: potable water treatment residuals, asphalt shingles, brush, trees, tree parts, tree stumps, and unpainted and non-chemically treated wood. [N.J.A.C. 7:26A-3.5(e)]
58. At no time shall the receipt, storage, processing, or transferring of non-source separated construction and demolition material be allowed at this recycling center. The prohibition of this material shall be strictly enforced and any incident shall be considered a serious violation to the conditions of this Approval. [N.J.A.C. 7:26A-3.5(e)]

COUNTY CONSERVATION LLC
132201 REC210002 Recycling Center - Multiple Classes -Renewal
Requirements Report

Subject Item: RCBG915005 - Class B Recyclable Materials, Specific Requirements

59. The recycling center may receive, store, process, or transfer source separated brush, trees, tree parts, tree stumps, and wood (unpainted and non-chemically treated) separately or in a commingled manner. In addition, the recycling center may receive, store, process, or transfer source separated asphalt shingles and potable water treatment residuals separately. The commingling of any other materials not described above is prohibited.
- Prior to the acceptance of potable water treatment residuals, the facility shall have received analytical results along with a signed certification from the generator certifying the material meets the Department's residential soil cleanup criteria. [N.J.A.C. 7:26A-3.5(e)]
60. The recycling center may receive no more than 260 tons per day of any one approved Class B recyclable material. However, the combination of all Class B materials accepted on a daily basis shall not exceed 500 tons per day. [N.J.A.C. 7:26A-3.5(e)]
61. Incidental amounts of rebar, metal, soil, and other by-products which adhere to the Class B recyclable materials, as specified in this Approval, and which are returned to the economic mainstream as raw material or products, may be received, stored, processed, or transferred at this recycling center. The receipt of such incidental amounts of these materials need not be separately accounted for, but the storage and end-markets for these materials shall be subject to specific conditions of this Approval. [N.J.A.C. 7:26A-3.5(e)]
62. The maximum amount of contaminants, as defined in N.J.A.C. 7:26A-1.3, allowed in each incoming load of Class B recyclable material shall be limited to 1% by volume. Incidental by-product materials shall not be considered to be contaminants. [N.J.A.C. 7:26A- 3.5(e)]
63. All processed material shall be stored separately from residues. [N.J.A.C. 7:26A- 3.5(e)]
64. By-products shall be stored in the container(s) or area(s) as depicted on the approved site plan and shall be removed off-site to the end markets as referenced in the approved documents. [N.J.A.C. 7:26A- 3.5(e)]
65. The total amount of unprocessed trees, tree parts, stumps, brush and wood material (specifically non-chemically treated and unpainted) stored on-site shall not exceed 273,500 cubic yards (cy). This unprocessed materials stored on-site shall be stored only in those areas designated for that purpose as depicted on the approved site plan drawing. If at any time, the amount of unprocessed trees, tree parts, stumps, brush and wood material (specifically non-chemically treated and unpainted) stored on-site exceeds 273,500 cy, the facility shall immediately cease receiving this unprocessed material until the amount of the unprocessed material stored on-site falls below 273,500 cy.

The total amount of unprocessed asphalt shingles (AS) stored on-site shall not exceed 30,000 cy. Unprocessed AS stored on-site shall be stored only in the area designated for that purpose as depicted on the approved site plan drawing. If at any time, the amount of unprocessed AS stored on-site exceeds 30,000 cy, the facility shall immediately cease receiving this unprocessed material until the amount of this material stored on-site falls below 30,000 cy.

The total amount of unprocessed potable water residuals (PWR) stored on-site shall not exceed 50,000 cy. The unprocessed PWR stored on-site shall be stored only in the area designated for that purpose as depicted on the approved site plan drawing. If at any time, the amount of PWR stored on-site exceeds 50,000 cy, the facility shall immediately cease receiving this unprocessed material until the amount of this material stored on site falls below 50,000 cy. [N.J.A.C. 7:26A- 3.5(e)]

COUNTY CONSERVATION LLC
132201 REC210002 Recycling Center - Multiple Classes -Renewal
Requirements Report

Subject Item: RCBG915005 - Class B Recyclable Materials, Specific Requirements

66. The total amount of unprocessed Class B recyclable material stored on-site shall not exceed 353,500 cy.

If at any time, the amount of unprocessed Class B material stored on-site exceeds 353,500 cubic yards, the recycling center shall immediately cease receiving any unprocessed material until the amount of unprocessed Class B material stored on-site falls below 353,500 cubic yards.

A fire lane of 25 feet shall be maintained between each unprocessed stockpile as indicated on the approved site plan drawings. [N.J.A.C. 7:26A- 3.5(e)]

67. Unprocessed recyclable material shall not remain on-site, in its unprocessed form, for more than one (1) year. [N.J.A.C. 7:26A-3.9(b)]

68. The total amount of processed trees, tree parts, stumps, brush and wood material (specifically non-chemically treated and unpainted) stored on-site shall not exceed 400,000 cubic yards (cy). If at any time, the amount of processed trees, tree parts, stumps, brush and wood material (specifically non-chemically treated and unpainted) stored on-site exceeds 400,000 cy, the facility shall immediately cease receiving this material until the amount of processed material falls below 400,000 cy.

The total amount of processed asphalt shingles stored on-site shall not exceed 30,000 cy. If at any time, the amount of processed asphalt shingles stored on-site exceeds 30,000 cy, the facility shall immediately cease receiving this material until the amount of processed material falls below 30,000 cy.

The unprocessed and processed Class B materials shall be stored separately from one another. Processed materials stored on-site shall be stored only in those areas designated for that purpose as indicated on the approved site plan drawings. [N.J.A.C. 7:26A- 3.5(e)]

69. The total amount of processed Class B recyclable material stored on-site shall not exceed 430,000 cubic yards. Processed materials stored on-site shall be stored only in those areas designated for that purpose as indicated on the approved site plan drawing.

If at any time, the amount of processed material stored on-site exceeds 430,000 cubic yards, the recycling center shall immediately cease processing activities until the amount of processed Class B material falls below 430,000 cubic yards.

A fire lane of 25 feet shall be maintained between each processed stockpile as indicated on the approved site plan drawings. [N.J.A.C. 7:26A- 3.5(e)]

Subject Item: RCCG190747 - Class C Recyclable Materials, Specific Requirements

70. The following organic materials may be received and processed in the compost areas designated on the approved site plans at this recycling center as authorized in this general approval: Leaves, Grass and Wood Chips. [N.J.A.C. 7:26A-3.5(e)1]
71. The listed recyclable materials may be received in a commingled manner. Leaves may also be received commingled with brush, tree parts and/or tree stumps. [N.J.A.C. 7:26A-3.5(e)3]

COUNTY CONSERVATION LLC
132201 REC210002 Recycling Center - Multiple Classes -Renewal
Requirements Report

Subject Item: RCCG190747 - Class C Recyclable Materials, Specific Requirements

72. The recycling center may only receive a combined total of 120 trucks per day of Class C recyclable materials. [N.J.A.C. 7:26A-3.5(e)3]
73. Residue, being the material that evolves from the processing of source separated recyclable material and is subsequently subject to disposal, inclusive of contaminants, shall not exceed 1% by volume of the total volume of recyclable material accepted during the year the material containing that residue was received. [N.J.A.C. 7:26A- 3.5(e)3]
74. The maximum amount of contaminants allowed in each load of recyclable materials shall be limited to 1% by volume. The term contaminants in this document shall mean any material that is not specifically approved for receipt and processing. [N.J.A.C. 7:26A- 3.5(e)3]
75. Materials staging, inspection and processing shall be conducted only in areas designated for such staging, inspection and processing shown on the approved site plans. Each load shall be inspected in accordance with the inspection plan provided in the compost applicaiton for the recycling center. All contaminants shall be removed and placed in roll-off containers at the recycling center for eventual removal off site for disposal. After the materials that are delivered to the facility are inspected and weighed in at the scale, windrow formation and grass processing operation must adhere to the following:

Within three calendar days of receipt, loads of leaves and/or wood chips shall be directed to the windrow areas as designated on the approved site plans. Leaves and wood chips shall be placed into windrows.

Loads of grass clippings shall be directed to the portion of the windrow areas designated for grass processing. Grass shall be incorporated within the windrows at a ratio of one part grass clippings to not less than three parts of partially decomposed leaves within the working day of receipt.

Loads of leaves commingled with brush, tree parts and/or tree stumps shall be directed to the windrow area and shall be processed by the appropriate equipment prior to being incorporated into the windrow. [N.J.A.C. 7:26A- 4.5(a)7, 14vi]

Subject Item: RCCG190748 - Yard Trimmings General Requirements

76. Operation of the recycling center shall be under the supervision and control of a properly trained individual during all hours of operation, and access to the recycling center shall be prohibited when the recycling center is closed. [N.J.A.C. 7:26A-4.5(a)3]
77. Class C recyclable materials shall be received only during times when the recycling center operator or owner is present. [N.J.A.C. 7:26A-4.5(a)4]
78. All Class C recyclable materials delivered to the recycling center for processing shall be removed from bags, boxes or similar containers prior to any processing steps except that Class C recyclable materials in paper or biodegradable bags need not be removed from such bags if the processing equipment provides for a shredding or cutting action. All discarded bags, boxes and similar containers shall be placed in a suitable refuse receptacle in the staging area of the recycling center for removal to an off-site disposal facility in accordance with N.J.A.C. 7:26-6. [N.J.A.C. 7:26A-4.5(a)5]

COUNTY CONSERVATION LLC
132201 REC210002 Recycling Center - Multiple Classes -Renewal
Requirements Report

Subject Item: RCCG190748 - Yard Trimmings General Requirements

79. If the incoming material contains grass, the material shall be accepted only in areas of the site that are at least 750 feet from any areas of human use or occupancy. Processing of such material shall begin on the same day of receipt. [N.J.A.C. 7:26A- 4.5(a)6,7]
80. An update to the final closure plan as needed shall be submitted to the Department in writing at least 180 days prior to the proposed closure date for the recycling center. [N.J.A.C. 7:26A-4.5(a)13]
81. The recycling center shall notify the Department in writing at least 60 days prior to the proposed closure date for the recycling center. [N.J.A.C. 7:26A-4.5(a)9]
82. The recycling center shall publish a notice of closure in a newspaper of general circulation in the district where the recycling center is located and in districts or communities sending at least 25 percent of their yard trimmings to the recycling center. Such notice shall be published at least 30 days prior to closure. [N.J.A.C. 7:26A-4.5(a)10]
83. Within 30 days of ceasing operation, all residuals, unprocessed Class C recyclable material and recyclables shall be removed from the site and recycled or disposed as appropriate and the recycling center shall arrange for a final cleaning of any containers, equipment, machines, floors and recycling center surfaces in which Class C recyclable materials or residue was processed or stored. [N.J.A.C. 7:26A-4.5(a)11]
84. The Department shall determine that a recycling center is considered closed when all the requirements of the closure plan have been met. [N.J.A.C. 7:26A-4.5(a)12]

Subject Item: RCCG190749 - Yard Trimmings Composting

85. The recycling center operator shall attend a composting course sponsored by the Rutgers Cooperative Extension, the appropriate county agricultural or resource management agents or any other similar course recognized by the Department. Any operator hired subsequently shall attend a course within one year of being hired. [N.J.A.C. 7:26A-4.5(a)14i]
86. Prior to windrow formation, dry yard trimmings shall be moistened to saturation without producing excessive runoff. [N.J.A.C. 7:26A-4.5(a)14iii]
87. To facilitate drainage and to reduce surface water ponding, each windrow shall be constructed and positioned in such a manner that it is perpendicular to the contours of the ground surface. [N.J.A.C. 7:26A-4.5(a)14iv]
88. A windsock shall be installed at the recycling center in order to indicate wind direction so that the recycling center operator may determine appropriate times for windrow turning operations. [N.J.A.C. 7:26A-4.5(a)14v]
89. The recycling center shall follow the approved method of windrow composting defined in this general approval. [N.J.A.C. 7:26A-4.5(a)7, 14vi]
90. Finished compost shall be tested once each year, at a minimum, in accordance with the monitoring and sampling plan established in this general approval. Results of all laboratory analysis for each parameter specified shall be recorded and maintained at the recycling center. [N.J.A.C. 7:26A-4.5(a)14viii]

COUNTY CONSERVATION LLC
132201 REC210002 Recycling Center - Multiple Classes -Renewal
Requirements Report

Subject Item: RCCG190749 - Yard Trimmings Composting

91. Samples of the compost produced at the recycling center shall be analyzed each year for stability or maturity and pH, and once every five years for the following heavy metals on a dry weight basis: arsenic, cadmium, chromium, copper, lead, mercury, molybdenum, nickel and selenium. The five year cycle shall commence with the first samples being analyzed following issuance of this approval then every fifth year thereafter. [N.J.A.C. 7:26A- 4.5(a)14viii]
92. The laboratory used to perform the analysis of the finished compost product shall be certified in accordance with N.J.A.C. 7:18 for the equipment and testing procedures required. [N.J.A.C. 7:26A-4.5(a)14ix]
93. In addition to the record-keeping requirements of N.J.A.C. 7:26A-3.17, the holder of this general approval shall maintain a recycling center daily operations journal and shall include at a minimum the following:
- i. Date of journal entry;
 - ii. Name of the recycling center;
 - iii. Name of operator;
 - iv. Name and title of the person responsible for journal entry;
 - v. Prevailing wind direction for the day;
 - vi. Description of any regrading activities conducted that day;
 - vii. Sketch of site including all windrows and identification of any piles including staging piles, curing piles and finished compost product piles;
 - viii. Identification of windrows tested for temperature and/or oxygen that day and results of the tests;
 - ix. Identification of windrows into which grass clippings mixed that day;
 - x. Identification of any new windrows;
 - xi. Identification of windrows that have been turned that day;
 - xii. Recording of the beginning and ending hours of windrow turning equipment as indicated on turning equipment hour meter for that day of usage. If the equipment hour meter is not working the information shall be noted in the daily journal. A letter or e-mail shall be sent immediately to the Department's Bureau of Solid Waste Compliance and Enforcement informing about the break down of the equipment hour meter and time frame to fix it;
 - xiii. The quantity and sources of Class C recyclable materials received expressed as cubic yards;
 - xiv. The quantity of disposed residue and sites to where the residue was shipped;
 - xv. Quantity of finished product shipped off-site; and
 - xvi. Results of compost analysis and name of certified laboratory that conducted analysis if received that day along with the compost test report laboratory reference number.
- The journals shall be maintained on-site for a period of 5 years and made available on-site to the Department's personnel and forwarded upon request. [N.J.A.C. 7:26A- 4.5(a)14xii]
94. Compost given away or offered for sale by the recycling center must contain a label describing the recommended safe uses and application rates, and restrictions, if any, on use of the product. If compost is offered for bulk sale, signs or printed literature containing the above information shall be available on the bill of lading to the purchaser or persons receiving the compost. [N.J.A.C. 7:26A-4.5(b)1]
95. Compost given away or offered for sale shall satisfy the requirements established at 40 C.F.R. 503.13(b)(3). [N.J.A.C. 7:26A-4.5(b)2]

COUNTY CONSERVATION LLC
132201 REC210002 Recycling Center - Multiple Classes -Renewal
Requirements Report

Subject Item: RCCG190749 - Yard Trimmings Composting

96. Windrow construction and reconstruction shall be conducted within the confines of the designated areas identified on the approved site plans. Expansion of such activities beyond the designated areas shall require the approval of the Department. The total length of all windrows at any given time shall not exceed 5,665 linear feet (approx.14,220 cubic yards) in area E, 3,710 linear feet (9,312 cubic yards) in area G and 3,550 linear feet (8,910 cubic yards) in area J. [N.J.A.C. 7:26A- 3.5(e)3]
97. All windrows shall be constructed (and reconstructed if necessary after turning) to a maximum height of six (6) feet in height with a corresponding base not to exceed a maximum of seventeen (17) feet in width. [N.J.A.C. 7:26A-4.5(a)14vi]
98. All windrows shall be turned with the Wildcat 750 Compost Turner. [N.J.A.C. 7:26A- 4.5(a)14]
99. Ample working space shall be maintained between windrows for turning purposes. A minimum separation of ten (10) feet working distance measured from the pile base to the next adjacent pile's base shall be provided to permit movement of turning equipment. [N.J.A.C. 7:26A-4.5(a)14vi]
100. After initial formation windrows shall be turned and reconstructed a minimum of once a week for the first month. During the remainder of the 12-month composting cycle, temperature and oxygen concentrations within the windrows shall be monitored, and further turnings shall be scheduled to prevent temperatures from exceeding 140 degrees F and to prevent oxygen levels from dropping below five percent for prolonged periods.

The holder shall measure core temperature and oxygen levels at approximately 250 feet intervals along each windrow every week and record the temperature and oxygen levels in the daily operations journal. Temperature and oxygen readings shall be collected from approximately the same locations. No temperature or oxygen level measurements shall be taken within 20 feet from the ends of the windrow pile.

If grass clippings are mixed into a windrow, for the first 30 days after grass clippings are mixed into the windrow the holder shall measure core temperature and oxygen levels at approximately 250 feet intervals along the windrow every other day and record the temperature and oxygen level in the daily operations journal. Temperature and oxygen readings shall be collected from approximately the same locations. No temperature or oxygen measurements shall be taken within 20 feet from the ends of the windrow pile. At the end of the 30-day schedule further turning shall be based on weekly monitoring only temperature not exceeding 140 degrees F.

If a temperature reading exceeds 140 degrees F or oxygen readings drops below 5%, the windrow(s) shall be turned by the end of the next business day. [N.J.A.C. 7:26A- 4.5(a)14vi]

101. Grass clippings shall be mixed with partially decomposed leaves and/or wood chips within the working day of receipt. Mixing shall occur at a ratio of one (1) part of grass clippings to not less than three (3) parts of partially decomposed leaves and/or wood chip material. The mixture shall be formed into windrows (hereinafter called Mixed Windrows). [N.J.A.C. 7:26A-4.5(a)7, 14vi]
102. Mixed Windrows may be used a maximum of two (2) times for mixing with grass clippings. The second mixing or application of grass clippings with semi-decomposed leaves shall occur no sooner than one month after the initial mixing. [N.J.A.C. 7:26A-4.5(a)14]

COUNTY CONSERVATION LLC
132201 REC210002 Recycling Center - Multiple Classes -Renewal
Requirements Report

Subject Item: RCCG190749 - Yard Trimmings Composting

103. Operation of the recycling center shall be under the supervision and control of a properly trained individual during all hours of operation, and access to the recycling center shall be prohibited when the recycling center is closed. [N.J.A.C. 7:26A- 4.5(a)3]
104. When the holder of this general approval determines that material in windrows has reached steady state conditions based on results of temperature and oxygen monitoring, the material from the windrows may be screened. [N.J.A.C. 7:26A- 4.5(a)14]
105. For screening of the stabilized compost, a Trommel Screener, as listed in this approval shall be available at the site. Over-sized material from screening operations shall be stockpiled at the end of the day of screening only in those areas designated for such storage as shown on the approved site plan (area C1, windrow areas). The material shall be formed into "overs" storage windrows with a maximum height of twelve (12) feet and a maximum width of twenty-four (24) feet. A minimum separation of ten (10) feet working distance measured from the pile base to the next adjacent pile's base shall be provided to permit movement of turning equipment. The material contained in these "overs" piles can remain there for a period up to six (6) months and may be screened a second time during this period. No new material can be added to existing piles. After the second screening or at the end of six (6) months whichever comes first, remaining residue shall be placed in roll-off containers for disposal off site. [N.J.A.C. 7:26A-3.5(e)3]
106. Finished compost may be stockpiled only in those locations identified on the approved site plan. The height of the finished compost storage piles shall not exceed twenty five (25) feet. [N.J.A.C. 7:26A-3.5(e)3]
107. A minimum of one sample of compost product of sufficient size and of equal proportion shall be collected for every 1,000 cubic yards of compost product generated. [N.J.A.C. 7:26A-4.5(a)14viii]
108. A maximum of 10 samples of compost product may be composited into a representative sample. [N.J.A.C. 7:26A-4.5(a)14viii]
109. Each composite sample shall be placed in a non-metallic container and thoroughly mixed. [N.J.A.C. 7:26A-4.5(a)14viii]
110. A minimum of two subsamples of sufficient size and of equal proportion shall be extracted from each composite sample and placed in clean plastic containers. The containers shall then be sealed. One subsample shall be sent to a laboratory for analyses. The second subsample shall be retained at the site so that the Department may conduct follow-up analyses when necessary. The subsample retained shall be clearly marked for identification and stored at the site using proper preservation techniques for a period of 180 days from the date the composite sample is transferred to the laboratory for analyses. [N.J.A.C. 7:26A-4.5(a)14viii]
111. A copy of the analytical results shall be submitted to the following address within ten (10) days of receipt by the holder of the laboratory results: New Jersey Department of Environmental Protection, Division of Solid and Hazardous Waste, Bureau of Recycling & Hazardous Waste Management, Mail Code 401-02C, P.O. Box 420, Trenton, New Jersey 08625-0420. [N.J.A.C. 7:26A-4.5(a)14viii]
112. Compost stockpiles shall remain on site until the associated analytical results are received by the recycling center and a determination is made whether the finished product meets the required criteria set forth at 40 C.F.R. 503.13(b)(3). [N.J.A.C. 7:26A-3.5(e)]

Subject Item: RCCG190749 - Yard Trimmings Composting

- 113. Material sampling methods, sample preservation requirements, sample handling times and decontamination procedures for field equipment shall conform to applicable industry methods as specified in the NJDEP Field Sampling Procedures Manual. [N.J.A.C. 7:26A-4.5(a)7]
- 114. The holder of this general approval shall inspect the site weekly for ponded water and rut formation and record the findings in the recycling center operations journal. [N.J.A.C. 7:26A-3.5(e)3]
- 115. The holder of this general approval shall inspect the site periphery weekly for discharge of leachate and record the findings in the recycling center operations journal. [N.J.A.C. 7:26A-3.5(e)3]
- 116. The holder of this general approval shall inspect the surrounding area daily (Monday through Saturday) in the vicinity of the recycling center, to detect odors emanating from the operation and record the findings in the recycling center operations journal. The Department may revert to daily inspections (Monday through Saturday), provided odor complaints have been registered with State, county, or local health/environmental agencies and provided that no official notification has been made to the holder of this general approval. [N.J.A.C. 7:26A- 3.5(e)3]

Marketing Services

The markets for compost and mulch are many and include: florist, garden supply stores, golf courses, governmental agencies, greenhouse growers, landscapers, soil vendors, nurseries, private and public parks, highway maintenance contractors, the general public, civic groups, etc. The Company has a customer base of over 500 end-users of the product.

Aggressive marketing techniques, educational programs, and legislative initiative are insuring demand for the product produced and will facilitate a successful operation. The uses for the product include the following: fertilizer supplement, soil aeration, top dressing, new athletic fields, growing medium, moisture retention, erosion repair, decorative cover, slope stabilization and land reclamation.

The greatest demand for the product is in growing suburban areas. The product is sold in the marketplace as a soil amendment for outdoor applications. The compost is presently sold in bags and bulk form.

Educating the public about the benefits of using yard waste compost and mulch is a key task to increasing the demand for the product. While the benefits of adding fertilizers to soil is believed to be widely understood by the general public, soil amendments, such as yard waste compost, are not recognized as being as beneficial. Thus, an education program, designed to increase demand for yard waste compost has been designed that clearly states the importance of adding organic material to soils, in addition to nutrients.

Overall, the product improves the physical, chemical, and biological properties of soils. It serves primarily as an organic amendment and a soil conditioner.

SCOPE OF WORK

All work to be performed shall be in accordance to N.J.A.C. 7:26A-1.4 - Exempt Class B and C Facilities. Any material that is over the amount indicated therein as allowed will be transferred to one of the Reliable Wood Product or an affiliate facility listed in this Proposal. Specific operations will be performed as indicated and are subject to acceptance by Township of West Orange authorized personnel.

FIRE CONTROL PLAN

A. Location:

West Orange Recycling Center is a NJDEP Class A, B and C exempt recycling facility located at 590 Mount Pleasant Avenue, West Orange NJ 07052

B. Response Time:

- Emergency Calls are handled through the West Orange Police Dispatch Phone#911 which is manned 24 hours a day.
- West Orange Police response time is about 10 minutes from Police Headquarters or faster if there is a patrol car in the area.
- The facility is served by the following firehouse: 280 Pleasant Valley Way, West Orange, NJ the response time is 10 Minutes to the facility. Phone #911

C. Fire Prevention:

- The facility gate will be secured to limit unauthorized entry to the storage areas. Authorized Bridgewater personnel will have 24/7 access to the facility
- The equipment will be maintained and operated in a safe and careful manner.
- The facility personnel will participate in safety instruction and exercises. Safety training will occur on a bi-annual basis and when new employees are hired.
- Smoking will be prohibited. No smoking signs will be maintained on site.
- Vehicle traffic will be limited in the wood storage areas.
- No flammable or combustible materials will be stored near the wood storage area.
- Fire extinguishers will be maintained and available in the proximity to the wood and other combustible materials area. Each piece of equipment on site will have a minimum of a 20lb ABC type fire extinguisher and two of the same type extinguishers will be kept 1 each in the maintenance trailer and the office. The facility shall have spare extinguishers on site at all times of the same type and quantity for the equipment and facility.
- If a fire should occur, contact one of the emergency phone numbers listed below and equipment operators will be dispatched.

D. Emergency Contacts:

- Mike Mitchell cell 201-731-1131
- Eddie Depaz cell 201-268-9421
- Alex Badamo cell 201-568-3256

Section 6: BID Bond

Consent of Surety

Insurance Certificate

Bond No. 873944

Bid Bond

KNOW ALL MEN BY THESE PRESENTS that we Nature's Choice NJ, LLC the Principal, and, Evergreen National Indemnity Company, 6150 Oak Tree Boulevard, Suite 440, Independence, OH 44131, the Surety, are hereby bound unto Township of West Orange, 66 Main St., West Orange, NJ 07052, the Obligee, in the penal sum of Ten Percent of the Total Price Bid; Not to Exceed Twenty Thousand and 00/100 Dollars (10% TPB; NTE \$20,000.00) the payment of which we bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, by these presents.

WHEREAS, the Principal is herewith submitting a bid or proposal for Operation of the Township of West Orange Recycling Center, 590 Mt Pleasant Ave, West Orange, NJ for Class B, Exempt Woods Class C, Exempt Compost Operation and the Recycling Convenience Center for Electronics, Scrap Metal, Tires and Class A Recyclable Materials.

NOW, THEREFORE, the condition of this obligation is that if the Principal shall be awarded the contract and the Obligee shall so notify the Surety, and if within the period specified in the contract, or if no period be specified, within twenty (20) days after the Principal's receipt of notice of award, the Principal enters into a contract and gives bond for the faithful performance of the contract, then this obligation shall be null and void; otherwise, the same shall remain in full force and effect; it being expressly understood and agreed that the liability of the Surety for any and all claims hereunder shall, in no event, exceed the penal amount of this obligation as herein stated.

If the Obligee makes no award within (90) days of the execution date hereof, then this bond shall be null and void unless extended by written consent of Surety.

No liability of the Surety shall arise hereunder unless and until the Obligee delivers written notice of a claim to the Surety. Said notification must be sent within fifteen (15) days after the alleged breach giving rise to such claim; and no suit under this bond by or for the benefit of the Obligee may be instituted sooner than thirty (30) days or later than ninety (90) days after the Surety receives such notice. Failure to act in accordance with this paragraph shall nullify and void this bond and Surety's obligations hereunder.

Signed, sealed and executed this 7th day of February, 2024.

EVERGREEN NATIONAL INDEMNITY COMPANY

Independence, Ohio

POWER OF ATTORNEY

Bond No. 873944

KNOW ALL MEN BY THESE PRESENTS: That the Evergreen National Indemnity Company, a corporation in the State of Ohio does hereby nominate, constitute and appoint:

Julie K Bowers, Denise M Borowy, Hilarie Frankenberry, Karen M Loconti-Diaz, Lillian Pezzano, Kathleen P Price, Patricia A Temple

its true and lawful Attorney(s)-In-Fact to make, execute, attest, seal and deliver for and on its behalf, as Surety, and as its act and deed, where required, any and all bonds, undertakings, recognizances and written obligations in the nature thereof.

This Power of Attorney is granted and is signed by facsimile pursuant to the following Resolution adopted by its Board of Directors on the 23rd day of July, 2004:

"RESOLVED, That any two officers of the Company have the authority to make, execute and deliver a Power of Attorney constituting as Attorney(s)-in-fact such persons, firms, or corporations as may be selected from time to time.

FURTHER RESOLVED, that the signatures of such officers and the Seal of the Company may be affixed to any such Power of Attorney or any certificate relating thereto by facsimile; and any such Power of Attorney or certificate bearing such facsimile signatures or facsimile seal shall be valid and binding upon the Company; and any such powers so executed and certified by facsimile signatures and facsimile seal shall be valid and binding upon the Company in the future with respect to any bond or undertaking to which it is attached."

IN WITNESS WHEREOF, the Evergreen National Indemnity Company has caused its corporate seal to be affixed hereunto, and these presents to be signed by its duly authorized officers this 1st day of April, 2022.

EVERGREEN NATIONAL INDEMNITY COMPANY

David A. Canzone, Treasurer

Article 3.10

Consent of Surety #873944
To Accompany Proposal

Evergreen National
Indemnity Company _____ (hereinafter called Surety), organized and existing under the laws of
The State of Ohio _____ and duly authorized and qualified to transact business in the State
of New Jersey, in consideration of the sum of One Dollar (\$1.00), lawful money of the United
States of America, to it in hand paid, receipt whereof is hereby acknowledged, and in
consideration, hereby certified and agrees that if the contract for which that attached Proposal is
made be awarded to Nature's Choice NJ, LLC (hereafter called Contractor) for the performance
of certain work or supplying of certain materials, or both, as more particularly set forth in said
Proposal and described for purposes of this instrument as a Proposal for
Operation of Township Recycling Center to the **TOWNSHIP OF WEST ORANGE** and if
Contractor shall enter into the contract with a bond in the full amount of the contract price.

Evergreen National Indemnity Company

EVERGREEN NATIONAL INDEMNITY COMPANY

Independence, Ohio

POWER OF ATTORNEY

Bond No. 873944

KNOW ALL MEN BY THESE PRESENTS: That the Evergreen National Indemnity Company, a corporation in the State of Ohio does hereby nominate, constitute and appoint:

Julie K Bowers, Denise M Borowy, Hilarie Frankenberry, Karen M Loconti-Diaz, Lillian Pezzano, Kathleen P Price, Patricia A Temple

its true and lawful Attorney(s)-In-Fact to make, execute, attest, seal and deliver for and on its behalf, as Surety, and as its act and deed, where required, any and all bonds, undertakings, recognizances and written obligations in the nature thereof.

This Power of Attorney is granted and is signed by facsimile pursuant to the following Resolution adopted by its Board of Directors on the 23rd day of July, 2004:

"RESOLVED, That any two officers of the Company have the authority to make, execute and deliver a Power of Attorney constituting as Attorney(s)-in-fact such persons, firms, or corporations as may be selected from time to time.

FURTHER RESOLVED, that the signatures of such officers and the Seal of the Company may be affixed to any such Power of Attorney or any certificate relating thereto by facsimile; and any such Power of Attorney or certificate bearing such facsimile signatures or facsimile seal shall be valid and binding upon the Company; and any such powers so executed and certified by facsimile signatures and facsimile seal shall be valid and binding upon the Company in the future with respect to any bond or undertaking to which it is attached."

IN WITNESS WHEREOF, the Evergreen National Indemnity Company has caused its corporate seal to be affixed hereunto, and these presents to be signed by its duly authorized officers this 1st day of April, 2022.

Section 7: Site Improvement Description

Proposed Site Plan Improvement and Layout

Odor Control System

Odor Control Neutralizing Agent

Site Improvement Description

- Re- Landscape entrance to the facility improving screening from the public.
- Mill and re-pave approximately 10,000 square feet of the entrance and road entering the facility.
- Reconstruct and enhance Class A, B, and C residential drop-off area.
- Improve and create better signage at the Class A convenience center.
- Re-grade Class B facility for better vehicle access.
- RE- Grade and clean up berm on east side of the facility and plant ornamental grass or approved other on the berm to screen facility from sensitive receptors.
- Re- Grade Berm at the center of the facility improve planting at the apex for better screening of the facility.
- Improve and grade transfer areas of B & C materials for a more efficient transfer of overflow materials to one of Nature's Choice NJDEP permitted facilities.
- Improvement to Drainage control features to realize Best Management Practices for storm water. Grade Class C area to improve drainage. Update Drainage outlets replacing Stone and Compost socks maintain and clean out Drainage swales.
- Nature's Choice has a bagging facility at its Sparta location. We will bag West Orange Mulch and make it available to sell at the facility for a price of \$3.00/bag. The Township of West Orange will keep 100% of the revenue produced from the bag sales (please see enclosed draft bag design). Nature's Choice will supply 10,000 bags.
- Install New Fire Hydrant at the replacing existing Hydrant

Nature's Choice will provide 10,000 bags to the Township of West Orange indicating that the material was recycled from West Orange vegetative waste and recycling facility. Bags have a retail value of \$3.00 per bag. West Orange can distribute the bags as the Administrator sees fit (i.e. giveaways or sold to public and private entities).

- Non-Toxic
- Non-Irritating
- Laboratory Validated
- Scientifically Developed
- Patented Green Technology
- No Hazardous Air Pollutants
- No Volatile Organic Compounds

CupriDyne[®] CLEAN

Proven Odor Control

Bringing scientifically developed odor eliminators to the waste industry in formulations that are easily integrated into your current odor management infrastructure.

Visit CupriDyne.com for a RISK FREE Trial

CupriDyne® Clean is THE lowest cost, most effective odor eliminator. It is not a masking agent. We use our patented eco-friendly technology to safely, gently and effectively oxidize odorous compounds.

CupriDyne Clean is available in powders and fragrance or fragrance-free liquids.

"A single application with a water truck at the working face on wastewater sludge was all it took to prove how effective the product is."

- FL Landfill Operation

"A 30-day trial through a transfer station misting system eliminated odors from food waste at 10 feet."

- CA, Transfer Station

"Successfully eliminated complaints from the neighbors at a wastewater treatment plant through perimeter misting."

- CA, Wastewater Plant

"A single application from a water truck mitigated excessive odors for FIVE days at a windrow composting facility."

- NY Compost Facility

CupriDyne Clean's line of powders are especially effective for large, open-air sites like landfills and large composting facilities. It's more cost-effective and efficient for hitting specific, targeted sources of odor on large properties. The powders can be added to existing water trucks, allowing very large areas of the facility to be treated rapidly and easily while requiring no large capital expenditures.

Sites with more confined target areas, such as wastewater treatment plants, MRFs and transfer stations, can use our concentrated liquids through misting systems. These facilities often have misting systems already installed, so our product is easily integrated into the current system, and highly cost-effective for these applications.

Section 2: Hazards Identification

Potential Acute Health Effects: Dilute

Non-hazardous in case of skin contact, of eye contact,
of ingestion, of inhalation.

Potential Chronic Health Effects: Dilute

Non-hazardous in case of skin contact, of eye contact, of ingestion, of
inhalation. CARCINOGENIC EFFECTS: Not available. MUTAGENIC EFFECTS: Not available. TERATOGENIC EFFECTS:

Not available. DEVELOPMENTAL TOXICITY: Not Available

Section 3: Composition and Information on Ingredients

Composition:

Name	CAS #	% by Weight
Iodine	7553-56-2	0.002
Cuprous Iodide	7681-65-4	0.001
Sulfamic Acid	5329-14-6	< 1
Potassium Bicarbonate	298-14-6	< 1
Water	7732-18-5	>98

Toxicological Data on Ingredients: Iodine: ORAL (LD50): Acute: 14000 mg/kg [Rat]

Section 7: Handling and Storage

Precautions:

Do not breathe excess gas/fumes/ vapour/spray. Avoid contact with skin. Wear suitable protective clothing. If you feel unwell, seek medical attention and show the label when possible.

Storage:

No specific storage is required. Use shelves or cabinets sturdy enough to bear the weight of the chemicals. Be sure that it is not necessary to strain to reach materials, and that shelves are not overloaded.

Section 8: Exposure Controls/Personal Protection

Engineering Controls:

Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective threshold limit value.

Personal Protection: Safety glasses. Lab coat. Gloves.

Personal Protection in Case of a Large Spill:

Splash goggles. Full suit. Boots. Gloves. Suggested protective clothing might not be sufficient; consult a specialist BEFORE handling this product.

Exposure Limits:

Iodine CEIL: 0.1 (ppm) from ACGIH (TLV) CEIL: 1 (mg/m³) from OSHA Consult local authorities for acceptable exposure limits.

Section 9: Physical and Chemical Properties

Physical state and appearance: Liquid.

Odor: Not available.

Taste: Not available.

Molecular Weight: Not applicable.

Color: Clear/Slight yellow tint

pH (1% soln/water): 5.5-6.5

Boiling Point: The lowest known value is 100°C (212°F) (Water).

Melting Point: Not available.

Critical Temperature: Not available.

Specific Gravity: Weighted average: 1.01 (Water = 1)

Vapor Pressure: The highest known value is 17.535 mm of Hg (@ 20°C) (Water).

Vapor Density: The highest known value is 0.62 (Air = 1) (Water).

Volatility: Not available.

Odor Threshold: Not available.

Water/Oil Dist. Coeff.: Not available.

Ionicity (in Water): Not available.

Dispersion Properties: See solubility in water, methanol, diethyl ether, acetone.

Solubility:

Easily soluble in cold water, hot water. Soluble in diethyl ether. Partially soluble in methanol, acetone.

Section 14: Transport Information

DOT Classification: Not a DOT controlled material (United States).

Identification: Not applicable.

Special Provisions for Transport: Not applicable.

Section 15: Other Regulatory Information

Federal and State Regulations:

Pennsylvania RTK: Iodine;

Massachusetts RTK: Iodine, TSCA 8(b) inventory: Iodine; Water

Other Regulations: OSHA: Hazardous by definition of Hazard Communication Standard (29 CFR 1910.1200).
