Standard of Care - Services performed by CME under this Agreement will be conducted in a manner consistent with that level of care and skill ordinarily exercised by members of the profession currently practicing under similar conditions. NO OTHER WARRANTY, EXPRESSED OR IMPLIED, IS MADE.

Contaminated Material - It is understood that CME is not, and has no responsibility as a handler, generator, operator, treater or storer, transporter or disposer of hazardous or toxic substances found or identified at any site. Client shall undertake or arrange for, either directly or indirectly through other contractors, the handling, removal, treatment, storage, transportation and disposal of hazardous substances or constituents found or identified at any site.

Utilities - In the execution of the work, CME will take all reasonable precautions to avoid damage or injury to subterranean structures or utilities. The Client agrees to hold CME harmless for any damages to subterranean structures which are not called to CME's attention and/or not correctly shown on the plans furnished.

Right of Entry/Worksite - Client will provide for right of entry for CME personnel and equipment necessary to complete the work. While CME will take all reasonable precautions to minimize any damage to the property it is understood by Client that in the normal course of some damage may occur, the correction of which is not part of this agreement.

Client shall furnish or cause to be furnished to CME all documents and information known to Client that relate to the identity, location, quantity, nature or characteristics of any hazardous or toxic substances at, on or under the site. In addition, Client will furnish or cause to be furnished such other information on surface and subsurface site conditions required by CME for proper performance of its services. CME shall be entitled to rely on Client provided documents and information in performing the services required under this Agreement; however, CME assumes no responsibility or liability for their accuracy or completeness.

CME will not direct, supervise or control the work of contractors or their subcontractors. CME services will not include a review or evaluation of the contractor's (or subcontractor's) safety measures.

CME shall be responsible only for its activities and that of its employees on any site. Neither the professional activities nor the presence of CME or its employees or subcontractors on a site shall imply that CME controls the operations of others, nor shall this be construed to be an acceptance by CME of any responsibility for jobsite safety.

Indemnification - To the full extent permitted by law, Client shall indemnify, defend and hold harmless CME and its subcontractors, consultants, agents, officers, directors and employees (herein collectively referred to as Engineer) from and against all claims, damages, losses and expenses, whether direct, indirect or consequential, including but not limited to fees and charges of attorneys and court and arbitration costs, arising out of or resulting from the services of work of Engineer or any claims against Engineer arising from the acts, omissions of work of others, unless it is proven in a court of competent jurisdiction that the Engineer is guilty of negligence or willful misconduct in connection with the services and such negligence or willful misconduct was the sole cause of the damages, claims and liabilities.

Client agrees to indemnify and hold harmless Engineer from and against all claims, damages, losses and expenses, direct or indirect, and consequential damages, including but not limited to fees and charges of attorneys and court and arbitration costs, brought by any person or entity, or claims against Engineer which arise out of, are related to, or are based upon, the actual or threatened dispersal, discharge, escape, release or saturation or smoke, vapors, soot, fumes, acids, alkalis, toxic chemical, radioactive materials, liquids, gases or any other material, upon, in or into the surface or subsurface soil; water or watercourse; objects; or any tangible or intangible matter.

To the fullest extent permitted by law, such indemnification shall apply regardless of the fault, negligence, breach of warranty or contract or strict liability of Engineer. This indemnification shall not apply to claims, damages, losses or expenses which are determined by a court of competent jurisdiction to be the sole result of negligence or willful misconduct by the Engineer of obligations under this Agreement.

Limitations of Liability - CME's total liability to Client for any and all injuries, claims, losses, expenses or damages whatsoever arising out of, or in any way related to, this Agreement from any cause or causes, including but not limited to CME's negligence, errors, omissions, strict liability, breach of contract or breach of warranty, shall not exceed the total contract amount for the services provided by CME or \$50,000, whichever is less.

In no event shall CME be liable for consequential damages, including, without limitation, loss of use or loss of profits, incurred by Client or their subsidiaries or successors, regardless of whether such claim is based upon alleged breach of contract, willful misconduct, or negligent act or omission.

Professional services rendered for a Client shall be provided for that Client. The Client is responsible for the proper operation and use of the subject facilities and/or report and nothing herein shall provide any rights to any third party. The Client, in authorizing CME to proceed, acknowledges that the professional responsibility is limited.

Termination - This Agreement may be terminated by either party upon fourteen (14) days written notice in the event of substantial failure by the other party to perform in accordance with the terms hereof. Such termination shall not be effective if that substantial failure has been remedied before expiration of the period specified in the written notice. In the event of termination, CME shall be paid for services performed to the termination notice date plus reasonable termination expenses.

In the event of termination, or suspension for more than three (3) months, prior to completion of all work contemplated by this Agreement, CME may complete such analyses and records as are necessary to complete its files and may also complete a report on the services performed to the date of notice of termination or suspension. The expenses of termination or suspension shall include all direct costs of CME in completing such analyses, records and reports.

Assigns - The Client may not delegate, assign, sublet or transfer his duties or interests in this Agreement without the written consent of CME.

This agreement shall not create any rights or benefits to parties other than the Client and CME, except such other rights as may be specifically called for herein.

**Proposal for Professional Engineering Services Township of West Orange
Standby Power Generators for Three Township Facilities**

Mott MacDonald (MM) wishes to thank you again for the opportunity to provide this proposal to **Provide Engineering Design and Contract Documents for Three Emergency Power Generators** for three separate facilities in the Township of West Orange. It is our understanding that the Township is in the process of securing HGMP funding for this project and that the cost for procurement and installation of the new generators as well as professional engineering services are eligible for reimbursement by FEMA. Accordingly, Mott MacDonald (MM) is pleased to provide you this professional design, bid and construction engineering phase services proposal so that the project can be designed, bid and constructed.

Understanding of Proposed Work

Given the foregoing, the Township desires the following:

West Orange Municipal Building, 66 Main Street

During the funding process, Mott MacDonald and the Township preliminarily sized the generator at 175 KW based upon the available information at that time. This sizing can be confirmed once we have confirmed electrical demand from utility billing. Due to the power requirements of the facility, it is recommended that a natural gas system be installed. The existing gas service for the building will be utilized or upgraded as needed.

In addition to the foregoing, the building electrical service would require modifications to allow for backup power. Installation of a new automatic transfer switch (ATS) is necessary ahead of the main power distribution panel for the building. The existing power distribution panel appears adequate to locate the new transfer switch and install the new conduit connection between the ATS and the existing power panel.

The new generator will be located on the South side of the building on a new reinforced concrete pad foundation, similar to the concept prepared for HMGP. The generator would be a "non-Walk-In" style enclosure, sound attenuated to meet

Township Ordinances for noise and would have a series of access doors as provided by the generator manufacturer. As discussed, unless applicable codes dictate otherwise, an access platform is not proposed to be included for this site.

In addition to the above, the only other site improvements will be trench restoration of disturbed pavement or lawn areas, installation of bollards and pavement markings immediately adjacent to the generator.

Fire House #2 (84 Washington Street) Proposed Improvements

Also during the funding process, the Township requested funding for a generator for the Fire House #2. The generator was sized at 75 KW.

MM's recommendation is to install the transfer switch inside the building in an electric room where the utility main service entrance will be located. This can be determined firm once we have received updated architectural and engineering plans for the building. Similar to the Municipal Building and due to the power requirements of the facility, it is recommended that a natural gas fueled system be installed.

The current concept plan shows that the new generator could be located South of the building in a grass area adjacent to the vehicle driveway for the Fire Station.

This generator would also be placed on a new reinforced concrete pad foundation. The generator would be a "non-Walk-In" style enclosure, sound attenuated to meet Township Ordinances for noise and would have a series of access doors as provided by the generator manufacturer. An access platform is not proposed to be included for this site.

In addition to the above, the only other site improvements will be trench restoration of disturbed pavement or lawn areas, installation of bollards and pavement markings immediately adjacent to the generator.

Fire House #3 (92 Ridgeway Avenue) Proposed Improvements

Also during the funding process, the Township requested funding for a generator for the Fire House #2. The generator was sized at 25 KW.

MM's recommendation is to install the transfer switch inside the building in the electric room where the utility main service entrance is located. This can be confirmed once we have surveyed and prepared plans for the building. Similar to the Municipal Building and due to the power requirements of the facility, it is recommended that a natural gas fueled system be installed.

The current concept plan shows that the new generator could be located West of the building in a grass area adjacent to the vehicle driveway for the Fire Station.

This generator would also be placed on a new reinforced concrete pad foundation. The generator would be a "non-Walk-In" style enclosure, sound attenuated to meet Township Ordinances for noise and would have a series of access doors as provided by the generator manufacturer. An access platform is not proposed to be included for this site.

In addition to the above, the only other site improvements will be trench restoration of disturbed pavement or lawn areas, installation of bollards and pavement markings immediately adjacent to the generator.

Engineering Services Proposal

In order to proceed with the foregoing, MM proposes the following professional engineering services.

Design and Bid Phase Services

- MM will coordinate with the NJOEM HMGP program to help administer and manage the Grant funds and the application of the funds to the project.
- MM will coordinate with the utility power company and Township to review and document the existing electrical service (s) to the facility. This documentation will formally support the sizing and configuration of the new generators
- Preparation of an update to the existing location survey at each building. Existing site features and a limited amount of topographic data will be selected. Property surveys or title deed searches are not included.
- Confirm sizing and location of generator and related equipment.
- Preparation of site plan, construction details and electrical plans for each site. Construction Notes necessary for bidding the project as a part of a public bid will also be prepared as will a construction sequence.
- Preparation of technical specifications to identify the features and standards of the proposed equipment for procurement. Technical specifications for site, concrete and electrical work will also be prepared.
- Preparation of bid documents that will incorporate Mott MacDonald standard front end specifications.
- A final construction cost estimate will also be prepared.
- Soil Borings are excluded. It is assumed existing Boring data is not required. If Soil Borings are needed, MM can provide a separate proposal for a boring subcontractor to perform the work.
- Coordinate for Ground Penetrating Radar Scan of each site by MM subcontracting firm. **The fees for this service are \$3,000. Our subcontractor has indicated that this fee is based on getting access to all three sites on one day.**

Bid Phase

During the project bid phase, MM will assist the Township in response to questions from bidders. MM will include the preparation of 1 addendum if necessary to respond to bidder questions.

MM will review the apparent low bidders experience and provide a bid award recommendations letter.

Design and Bid Phase Cost

We would propose the design and bid phase engineering services based upon a lump sum fee of \$51,000. We would prepare monthly invoices based upon a percent complete basis.

Construction Phase Services

Upon the Township successful bidding and awarding the project, MM would propose to proceed with Construction Phase Engineering Services based upon a time and materials basis for services actually required. Services would be provided based upon a rate schedule in place with the Township for the current year. Our services include the following:

- Conduct and coordinate project initiation services including project management, preparation of sealed plans for submission to the local code official are also included. Review of bonds and insurances is not included. Coordinate and attend a preconstruction meeting at Township Offices with Contractor and Township staff. MM would also prepare a notice to proceed letter to the Contractor after the meeting is held along with minutes from the meeting. ***We have budgeted 40 hours for this item.***
- Review contractor's initial submittals and shop drawings for site and installation work. Shop Drawing review of the contractor's shop drawings for the generator equipment as well as for equipment testing, O&M manuals and service agreement for conformance with the contract. Only one round of submittal review and comments are included. Value Engineering review or additional reviews are not included in the proposal. ***We have budgeted 40 hours of time for this item.***
- MM will perform primarily part-time inspection services, however during trenching and other excavations, limited full-time inspection is proposed. Perform inspection services during the preparation and installation of the concrete pad, conduit installation, site and restoration work. Electrical inspection services will be performed prior to startup and testing. One punchlist will be developed if necessary. ***We have budgeted 40 hours for this task.***
- Office Coordination and Office time shall also be performed. ***We have budgeted 40 hours for this task.***
- Attend 1 day of generator testing and startup per site with generator manufacturer's representative and contractor. 1 punchlist will be developed if necessary. ***We have budgeted 24 hours for this task.***
- Review applications for payment by the contractor for recommendation of payment by Township upon delivery of the equipment in accordance with the contract. MM anticipates the need to process three (3) payment applications for the procurement contractor. ***We have budgeted 18 hours for this task.***
- Preparation of an as-built plan depicting final site features constructed under this contract. Plans will be prepared in an electronic cad file. ***We have budgeted 16 hours for this task***
- Prepare a certification that the completed project is in compliance with NFIP regulations and a certification regarding a critical facility in a special Flood Hazard Area if applicable. ***We have Budgeted 18 hours (\$2,500.00) for this work.***

- Prepare and file of air quality permits for the new generators. Per our discussions the Township will pay the fees directly. We have Budgeted 24 hours (\$4,800.00) for this work.

Our not-to exceed reimbursable fee for the above construction phase services is \$37,800.

Project Costs Summary

Design Engineering	\$51,000
Construction Engineering	\$37,800
Total	\$88,800

Re: **Proposal for Engineering Design and Contract Documents
For Three Emergency Power Generators**
NJ Office of Emergency Management
Disaster No. 4086
NJ ID 1817
HMGP-DR-4086-NJ-436R

Dear Mr. Lepore:

Paulus Sokolowski and Sartor, LLC (PS&S) is pleased to submit this proposal to provide professional engineering services to the Township of West Orange for the design, permitting, bid review, and construction management services for the installation of three new outdoor natural gas emergency power generators at Municipal Building (66 Main Street), Fire Station No. 2 (84 Washington Street), and Fire Station No. 3 (93 Ridgeway Ave) within the Township of West Orange, NJ.

1.0 SCOPE OF SERVICES

As part of this project, PS&S proposes to provide the following professional engineering services:

Design, plans, specifications, and bid documents for the three emergency power generators at Municipal Building, Fire Station No. 2, and Fire Station No. 3:

- A. Review of the NJDEM Application
- B. Review of the NJ OEM Grant requirements
- C. Review and verification of emergency power generation sizes including power, voltage, and phases requirements for each building.
- D. Design and specification for each generator including a partial site plan at each location.

- E. Verification that the location of each emergency power generator has no conflicts with underground utilities or any underground storage tanks; this will include a sweep of all locations for emergency power generators with ground penetrating radar (GPR)
- F. Contacting Public Service Electric and Gas Company on behalf of the Township to request a natural gas service for each location.
 - a. PS&S has verified that each facility is currently served by natural gas in the preproposal site walkthrough on 04/19/2018.
- G. Providing the design of new main electrical service panel boxes with breakers for the Municipal Building and Fire Station No. 3.
- H. Preparation of Bid Documents. The three emergency power generators will be included in on bid document.
 - a. PS&S to provide twelve (12) sets of bid documents.
- I. Attend the Bid Opening, review all bid submittals for compliance with bid documents and New Jersey Local Public Contracts Laws and prepare a contract ward recommendation.
- J. Provide contract administration, management, and construction observation including review and approval of design submittals and shop drawings, attendance of kick off and monthly progress meetings as needed, schedule of payment submissions, verification that all warranty and maintenance documents are submitted to the Township and project closeout.
- K. Grant administration and Management as required by the Grant Agreement and Grant requirements including reimbursement request as stated in the RFP.
- L. Preparation of any NJDEP permit requirements including air quality permits.
 - a. Obtaining an NJDEP air permit for the new 175 kW natural gas-fired Emergency Generator (EG) at the West Orange Municipal Building;
 - b. Obtaining an NJDEP air permit for the new 100 kW natural gas-fired EG at the West Orange Fire Station No. 2; and
 - c. Per the RFP close-out documentation requirements, obtaining an NJDEP Letter of Confirmation stating that an NJDEP air permit is not required for the planned 25 kW EG at the West Orange Fire Station No. 3. (As specified in N.J.A.C. 7:27-8.2(c)1, air permits are required for EGs with a maximum rated heat input of 1,000,000 BTU/hour or greater, and based on the RFP specifications for the 25 kW EG, the calculated max rated heat input of the 25 kW EG is well below the NJDEP air permit applicability requirement threshold).

The design of three natural generators (175 kW, 100 kW, and 25 kW), electrical power distribution from generators to the respective building existing main electrical power distribution panel through a new automatic transfer switch, a new concrete pad, and a new or upgraded natural gas service. The generators will be designed to be on a concrete pad and be able to withstand wind loads as required by Township of West Orange codes and standards. In addition, generators enclosures will sound attenuated if necessary. Municipal Building and Fire Station No. 3 main distribution power panels will be replaced

with new panels. The existing building main electrical power service will be disconnected from the main distribution power panel and reconnected to the new automatic transfer switch. The existing electrical conduits and wires will be evaluated in design phase and replaced with new conduits and wires as necessary per code and Township requirements. The gas service will be designed appropriately for an emergency service by either having an uninterruptable supply or an alternate supply hookup per code and Township requirements.

PS&S will provide the addendum preparation and bid review services including the responses to bidder's questions and assisting Township with preparation of addendum documents including conformed Drawings to the successful bidder.

During construction period, PS&S will provide engineering services including the review of shop drawings, providing responses to Contractor's requests for information, construction progress site visit and weekly review meetings (limited to one bi-weekly meeting for estimated three months construction period and each meeting shall be no more than 4 hours), and a punch list at the completion of the construction.

2.0 ASSUMPTIONS AND EXCLUSIONS

We assume the following in our proposal:

1. Modifications to the building structural to accommodate the new emergency generator electrical connections or meet all-hazard shelter requirements are not included.
2. The design specifications will be on the drawings and that book specifications are not required.
3. Front End and General Conditions specifications will be by others.
4. PS&S will provide Engineer's option of construction cost estimate as required by Township of West Orange.
5. All Application and Permit fees will be paid by Township of West Orange.
6. Site engineer during construction period is not required and not included in the proposal. Daily site visit to project sites during construction period is required.

3.0 SCHEDULE

PS&S will commence work within ten (10) days of authorization to proceed and estimates up to ninety (90) days to complete the design, specifications, and bid documents with review by Township of West Orange DPW of draft construction plans assumed as a one (1) week duration after Week #5).

4.0 FEE, TERMS, AND CONDITIONS

PS&S proposes to provide the aforementioned Scope of Services for a **LUMP SUM** fee of **Forty-Seven Thousand Five Hundred Dollars (\$47,500.00)** inclusive of expenses. These fees exclude any permit application or license fees, which will be paid directly by the Township of West Orange. These services would be performed in accordance with the terms and conditions of the attached PS&S Schedule of Charges and General Conditions.

GENERAL CONDITIONS OF SERVICE

Page 1 of 2

These General Conditions of Service and the PS&S Rate Schedule are attachments to this PS&S Proposal. Together they comprise the agreed terms under which PS&S will provide its Services (hereinafter referred to as the "Agreement") for the project described in the Proposal (the "Project"). Any Services requested or required that are not described in the Proposal are considered to be Additional Services. Additional Services will require a written amendment to this Agreement before being performed.

1. CHARGES FOR SERVICES

When PS&S is to be paid on the basis of time expended and expenses incurred on the Project, compensation shall be determined using the hourly rates on the attached Schedule of Charges & Hourly Rates. These rates are effective for six months from July 1, 2017. PS&S reserves the right to increase its rates every six (6) months. However, in no event shall the rates be increased by more than ten percent (10%). If PS&S is to be paid on a fixed-fee or lump-sum basis, compensation shall be paid either on a percentage-of-completion basis, or in accordance with the milestone achievement schedule included in the Proposal.

If the Client requests PS&S to provide other Services in addition to those described in the attached Proposal, PS&S requires a written additional service authorization amending this Agreement, before PS&S will proceed with that work.

2. CHARGES FOR OTHER DIRECT PROJECT EXPENSES

All other expenses incurred for a Project will be separately billed at actual cost plus fifteen percent (15%). Such expenses include, but are not limited to, costs for: subcontractor(s)/consultant(s); laboratory; reproduction [printing, binding, etc.]; special equipment required for Project execution; Project-required travel; special insurance coverage in excess of or different from PS&S's standard insurance coverage; and, any other costs particular to Project engagement. Mileage costs will be billed at the rate authorized by the Internal Revenue Service. If rental vehicles are used (at the option of PS&S), the actual rental charges plus fifteen percent (15%) will be billed instead of using the IRS mileage reimbursement rate.

3. TIME FOR PERFORMANCE

Delays created by scheduling of government meetings, or by Client not responding timely to requests for input, information, or decisions may extend the Project schedule and require an increase in PS&S's compensation. If PS&S's Services have not been completed by the date established in the Proposal for the completion of Services, through no fault of PS&S, all PS&S Services provided thereafter shall be compensated on an hourly-rate basis using the rates attached, notwithstanding any other compensation amount set forth in the Proposal.

Neither party shall be liable to the other for any delay or failure in performance of any of the obligations under this Agreement to the extent such delay or failure is caused by fire, flood, earthquake, civil, governmental or military authority, acts of God, war, terrorist acts, or other similar causes beyond a party's reasonable control and without the fault or negligence of the delayed or non-performing party.

4. PAYMENT

Invoices for all Services: will be issued on a monthly basis; are considered due upon receipt; and, must be paid within 30 days of the invoice date. Interest at one percent (1%) per month (but not exceeding any maximum rate allowed by law) will be charged on any invoice amount not paid within 30 days of the invoice date. All reasonable attorney's fees and costs incurred by PS&S to collect any delinquent amounts shall be added to the amount to be paid by the Client.

PS&S shall not be obligated to deliver any documents for governmental review, deliver any documents or Services for the next Project milestone,

sign and seal documents (or any final Construction Documents), nor shall PS&S be obligated to commence providing any Services during the Construction Phase of a Project while any invoice for properly performed Services (or previously delivered document) is due and remains unpaid more than 30 days after invoice date. If any undisputed invoiced amounts are not paid within 60 days of invoice date, PS&S may suspend its Services or terminate this Agreement whether on this project or another PS&S engagement. Once Services are suspended for nonpayment, they will be resumed at the discretion of PS&S but only when all unpaid amounts, including accrued interest, are paid in full on all other engagements. If PS&S terminates this Agreement for non-payment, the Client shall also be obligated to pay the reasonable costs associated with termination. A suspension of Services shall not preclude PS&S from later electing to terminate this Agreement for continued non-payment of its invoices. Any failure by PS&S to terminate or suspend Services shall not constitute a waiver of, nor be considered a limitation of, these or any other rights and remedies available at law or equity.

If the Client requests PS&S to suspend Project Services for more than 60 days, the Client shall pay PS&S a charge of not more than ten percent (10%) of the amount due for the remaining unperformed Services, as a condition for PS&S to resume the performance of its Services, according to a mutually acceptable revised Project Schedule.

5. TAXES

If applicable, the Client shall pay the cost of any sales, use, excise, value-added or other tax, which is or may become applicable to the Services, in addition to the amount of compensation due to PS&S under this Agreement.

6. PS&S'S RESPONSIBILITIES

PS&S shall perform its Services in a manner consistent with that level of skill and care ordinarily exercised by other professional consultants providing the same or similar Services, under similar circumstances and location that exist at the time of providing the Services. PS&S represents that it is duly qualified to provide the Services that are covered by this Agreement and that it is authorized to enter into and execute this Agreement. No other representation, express or implied, and no warranty or any guarantee is made as part of this Agreement, or in any report, document or other communication provided as part of the Services.

If changes are made by the Client or others to aspects of the project, such as location, that affect the design documentation or Services provided by PS&S, all PS&S liability for such changes and their consequences shall be waived by the Client and Client shall have sole responsibility and liability for such changes and their consequences, unless PS&S was previously advised in writing of such changes, and allowed the proper time in accordance with applicable professional standards, to evaluate such changes. Client shall compensate PS&S for the time required to provide any evaluation required due to such changes.

PS&S's Services are provided to meet the requirements of applicable standards of care, applicable laws, building codes and regulations to obtain needed approvals and permits of governmental authorities with jurisdiction over the project. These requirements may be interpreted differently by government inspectors and building officials, requiring changes to the design documents and the project construction even after permits and approvals have been issued. While this may increase the construction costs of the Project, it does not mean that the design documents were not prepared to meet applicable requirements or professional standards. The additional costs that result, if any, will be deemed to be value-added items, as if required in the original design documentation, and shall not be the basis for any claim for damages against PS&S.

Effective Date: July 1, 2017

7. CLIENT'S RESPONSIBILITIES

The Client will provide to PS&S all available information pertinent to or required for the performance of PS&S's Services as described in this Agreement. PS&S will be permitted to rely on the accuracy and completeness of the Client-supplied information unless doing so would be a breach of the standard of care set forth in Section 6 above. The Client will provide PS&S access to all public and private property as necessary for PS&S to perform its Services, and give prompt written notice to PS&S whenever the Client becomes aware of anything that could affect the Services.

8. PURCHASE/WORK/TASK ORDERS

If the Client issues a purchase/work/task order or other document related to PS&S's Services, it is agreed that such document is issued for Client's internal accounting purposes only and shall not amend, supplement, modify, or delete any terms or conditions of this Agreement regardless of the language on that purchase/work/task order. If there is any conflict between the terms and conditions of such purchase/work/task order and this Agreement, the terms and conditions of this Agreement shall govern.

9. MUTUAL WAIVER OF CONSEQUENTIAL DAMAGES

PS&S and the Client each waive the right to make any claims against the other for consequential damages arising out of or related to this Agreement.

10. LIMITATION OF LIABILITY

To the fullest extent permitted by law, PS&S's total liability to the Client for any and all injuries, claims, losses, costs, damages, or claim expenses arising out of or related to this Agreement, however caused, shall not exceed the total amount of \$50,000 or the amount of PS&S's fee (whichever is greater).

11. PROJECT CONSTRUCTION AND SITE SAFETY

PS&S shall not be responsible for the means, methods, techniques, procedures or sequence of construction, nor shall PS&S be held responsible for the safety precautions and programs of the Client's contractor(s) working at the Project Site, or any failure of those contractor(s) to comply with applicable laws, rules, or regulations. To the fullest extent permitted by law, neither PS&S nor any of its employees, consultants, authorized agents or representatives performing Services at the Project Site or elsewhere shall be liable for any injury occurring as part of the construction of the Project or any site work, due to a failure, breach or disregard of construction safety standards, procedures, Site-specific programs, transportation regulations, or industry practices at the construction Project (or Site) by the Client's contractors or others for whom PS&S is not responsible under this Agreement. PS&S shall only be responsible for the adherence and compliance of all PS&S employees, consultants, authorized agents and representatives with the Project-site safety programs and procedures, and the laws and regulations applicable to those for whom PS&S is responsible under this Agreement.

12. HAZARDOUS OR TOXIC MATERIALS

Unless specifically agreed to in the Proposal, which is part of this Agreement, PS&S shall not be responsible to search for, detect, test, investigate or determine the presence of, monitor, remediate, clean up, remove, contain, treat, detoxify or neutralize hazardous, toxic or radioactive materials, mold, or any other pollutant or toxin within or adjacent to the Project or Site, which is the subject of this Agreement.

13. DOCUMENTATION AND ELECTRONIC MEDIA LIMITATIONS

- A. All drawings, specifications and/or other documents created by PS&S ("Documents") are instruments of service prepared for the Project. PS&S, as the author, retains the intellectual property rights in the Documents, subject to the licenses and rights to use granted in this Agreement.
- B. PS&S grants to the Client an unlimited license to make and retain copies of Documents but solely in connection with its use on the Project. The Documents are not intended or represented to be suitable for use by Client or others to prepare shop drawings, for extensions of the Project

at or on land adjacent to the Project Site or at any location other than the Project Site. Client shall not add to, modify or alter nor allow others to add to, modify, or alter the Documents including any printed copies of the Documents, unless Client shall have removed all references to "Paulus, Sokolowski and Sartor," "PS&S" and any other references, marks, and the like [including metadata or other electronic tags] that relate in any way to, or can be used to identify PS&S as the author of the Documents.

- C. Client shall indemnify, defend, save and hold PS&S, its subconsultants and each of their partners, officers, shareholders, directors and employees harmless from and against any and all claims, judgments, suits, liabilities, damages, costs or expenses (including reasonable attorneys' fees) arising as the result of: i) Client's failure to comply with any of the requirements of this Section 13; or ii) any use, addition to, modification, alteration, change to or misinterpretation of the Documents by Client, or any party that receives the Documents from the Client (the "User(s)").
- D. Files provided in electronic media format [text, data, graphics, or other types of information] are furnished only for the convenience of Client and/or its authorized users. Because data stored in electronic media format can deteriorate or be modified inadvertently or otherwise without authorization of the data's creator, the Users shall perform acceptance tests or procedures within 10 days of receipt of the files, after which the Users shall be deemed to have accepted the data transferred. PS&S shall not be responsible to maintain Documents stored in electronic media format after acceptance by the Client or its Users.
- E. When transferring documents in electronic media format, PS&S makes no representations as to long-term compatibility, usability, or readability of Documents resulting from the use of software application packages, operating systems, or computer hardware differing from those used by PS&S. Copies of Documents that may be relied upon by the Client, or its User(s) are limited to the printed versions (also known as hard copies) that are signed and sealed by PS&S.
- F. Client accepts that the conversion of the printed versions of Documents into electronic media format or conversion of Documents from the format supplied by PS&S to another format may introduce errors or other inaccuracies. Client and its Users shall confirm the accuracy of the Documents before using them. Client accepts all responsibility for any errors or inaccuracies arising from the conversion of the Documents to another client-selected format, and releases PS&S and its subconsultants from any liability, costs, losses, or damages or expenses arising as the result of conversion errors or inaccuracies.
- G. Client waives any and all claims and liability against PS&S and its subconsultants resulting in any way from the use of the Documents transmitted pursuant to this Section 13.

14. OTHER TERMS

This Agreement shall be construed in accordance with, and governed by, the laws of the State of New Jersey excluding any choice-of-law principles, including those of the law of the state where the Project is located that would require the application of the laws of a jurisdiction other than New Jersey.

Each party to this Agreement for itself, its successors and in respect of its property, irrevocably consents and agrees that: i) any legal action or proceeding with respect to this Agreement will be brought in a state or federal court in the State of New Jersey, which shall be the exclusive jurisdiction for all legal matters and any appeals; and ii) irrevocably waives any objection that it may have now or later to the laying of venue of any of the aforesaid actions or proceedings in a location in the State of New Jersey.

If any term of this Agreement or its application to any person or circumstance shall be determined to be invalid or unenforceable, the remaining provisions of this Agreement and/or the application of terms or provisions other than those that are found to be invalid or unenforceable, shall not be affected, and this Agreement shall be valid, binding, and enforceable to the fullest extent permitted by law.

2. LICENSED SITE REMEDIATION PROFESSIONAL (LSRP) CONDITIONS

When work performed by PS&S includes the services of an Licensed Site Remediation Professional ("LSRP"), the LSRP will use his or her professional judgment to make recommendations as to actions required based upon the LSRP's review of the applicable statutes, regulations and guidance documents. The Client acknowledges that the LSRP's recommendations or issuance of any Response Action Outcome ("RAO") shall not constitute: (i) any acceptance of liability on behalf of PS&S or any LSRP employed by PS&S; (ii) any form of guarantee, indemnity or insurance for any legal liability or obligation of the Client. Further, the Client acknowledges that when PS&S's services hereunder entail the use of professional judgment, PS&S is not providing any guarantee that any other professional reviewing PS&S's work hereunder will not offer different recommendations or reach different conclusions based on that professional's use of his or her judgment. The Client acknowledges that PS&S is not responsible to the Client or any third-party for costs resulting from a different recommendation or different conclusion rendered by another party.

Under the Site Remediation Reform Act, N.J.S.A. 58:10C-1 et seq. ("SRRA"), the New Jersey Department of Environmental Protection (NJDEP) can audit and review an RAO and the Site Remediation Professional Board can review work performed by an LSRP. Further, an RAO can be invalidated if NJDEP determines that the RAO is not protective of human health and the environment. Neither PS&S nor the LSRP shall be held responsible for the invalidation of the RAO, and any services which might be required due to any such invalidation shall be considered an Additional Service.

The State has established mandatory and regulatory time frames to complete certain remediation requirements. If these time frames are not met, fines and potential NJDEP direct oversight could be imposed upon the Client. To the extent provided for in the scope of work, PS&S will advise the Client of deadlines and actions necessary to fulfill the requirements of such time frames. The Client acknowledges that PS&S's provision of such advice will not and does not shift responsibility for compliance with such time frames to PS&S. Further, if the Client delays in approving and proceeding with the recommendations of PS&S's LSRP in meeting these time frames or the Client delays in payment of services rendered by PS&S, which results in a delay to the progress of the project, the Client agrees that PS&S will not be held responsible or liable for any fees, fines, or financial impacts incurred as a result of NJDEP's direct oversight, fines, and fees.

Furthermore, the Client acknowledges that in the context of supporting any conclusions or recommendations made to any third-party or governmental entity, PS&S may be required to release or otherwise publish: data from tests performed on samples taken from the project location; physical observations of the project location; or other technical information obtained by PS&S regarding the physical conditions of the project location, including but not limited to, submissions made by PS&S's LSRP in connection with a project. Client expressly acknowledges that under SRRA, if the LSRP identifies a condition at the Site that, in the professional judgment of the LSRP, is an Immediate Environmental Concern ("IEC") (as defined in the SRRA), the LSRP is obligated to so advise the Client and to call the NJDEP's telephone hotline to advise the NJDEP of such IEC.

Mayor Parisi, Council President, McCartney and Council Members:

At the Township Council Meeting of January 9, 2018, the Council approved Resolution No. 26-18 for a professional services contract with T&M Associates of Middletown, NJ for environmental and licensed site remediation professional services. These services were associated with the removal of two underground storage tanks at Fire House No. 4 at 280 Pleasant Valley Way and ongoing site remediation associated with other leaking underground storage tanks at that site that were removed. The licensed site remediation professional for this site is Manal Baba, LSRP, and the amount of the contract with T&M Associates was \$66,500.00.

After this contract award was made, I discovered that T&M Associates did not respond to the Township's Request for Qualifications for 2018 issued in Fall 2017. Consequently, T&M Associates cannot perform this work for the Township. I will request by Resolution you rescind Resolution No. 26-18 as well as directing the Finance Department and Purchasing Agent, Anne DeSantis, to cancel Purchase Order No. 159293 dated January 11, 2018 and issued to T&M Associates in the amount of \$66,500.00. No work was performed by T&M Associates under this contract award and Purchase Order. A Resolution rescinding the award and cancelling the Purchase Order is attached.

Effective May 7, 2018, Manal Baba, LSRP will be employed by the Professional Engineering, Land Surveying, Planning and Environmental Firm of CME Associates, 3759 Highway 1 South, Suite 100, Monmouth Junction, New Jersey 08862. Behram Turan, P.E. of CME submitted a proposal to provide professional engineering and environmental services for the removal of underground storage tanks and continuing site remediation at Fire House No. 4 at 280 Pleasant Valley Way. Attached is a copy of their proposal dated April 18, 2018. CME with Manal Baba as the LSRP will perform the same six tasks for the same fee as previously awarded to T&M Associates. The six tasks and fees associated with each are as follows:

Re: Proposal for Professional Services - Groundwater Monitoring, USTs Closure and Excavation
Fire House No. 4, 280 Pleasant Valley Way
Township of West Orange, Essex County, New Jersey
NJDEP Case # 93-6-29-1721-47 – PI # 014430
T&M Project No. TWOROH-17002

Dear Mr. Lepore:

T&M Associates (T&M) is pleased to provide this proposal for Professional Environmental and Licensed Site Remediation Services to provide environmental consulting services for groundwater monitoring, USTs closure and excavation of impacted soil at the Fire House No. 4, located at 280 Pleasant Valley Way (Site). The proposed scope of work is prepared to satisfy the New Jersey Department of Environmental Protection (NJDEP) requirements stated in the Administrative Requirements for Remediation of Contaminated Sites (ARRCS Rule, N.J.A.C. 26:C) and the Technical Requirements for Site Remediation (Tech Rule, N.J.A.C. 7:26E), in accordance with New Jersey's Site Remediation Reform Act (SRRRA).

SCOPE OF SERVICES

Several remediation work activities have been undertaken since the remediation was initiated at the Site. Based on the review of existing remediation documents, T&M has prepared the following scope of work to comply with the NJDEP Technical Requirements for Site Remediation at the Site and provide the consultation and project management necessary to continue to advance the project towards closure.

Task 1: Licensed Site Remediation Professional (LSRP) Project Management/Notice of Intent to Close Regulated Underground Storage Tanks

A T&M employed LSRP will manage the two USTs closure/removal operation and associated sampling and reporting. The LSRP will prepare and submit required NJDEP forms at the completion of the two USTs closure operations, if no additional work is required. In order to facilitate the work, the LSRP will provide project management services during the process, provide technical support and consult regulatory authorities, if necessary, to the degree feasible.

It is our understanding that West Orange Township (Client) desires to close/remove one (1) double-wall, 2,500-gallon capacity diesel fuel UST and one (1) Fiberglass-reinforced plastic, 1,000-gallon capacity unleaded gasoline UST installed 3/1/1994. T&M will prepare and submit the two required Closure of a UST System Forms (14-day Notice of Intent) to the NJDEP for approval. A copy of the closure approvals will be provided to the NJDEP-certified UST contractor to obtain local construction permits.

The existing USTs are currently registered with the NJDEP. As such, it is assumed that registration of the existing USTs will not be required. Accordingly, T&M has not included any costs to prepare and submit an

initial USTs Facility Questionnaires to the NJDEP or any past-due USTs registration fees for the existing USTs. If these items are required, the scope of work presented herein will require revision, and a proposal will be submitted to the Client for approval prior to addressing such items.

Task 2: USTs Removal/Closure Supervision and Soil Sampling

It is our understanding that the Client will be independently selecting a NJDEP-certified UST contractor to perform the two USTs closure, and site restoration services. T&M will provide oversight during the removal of the two USTs by the NJDEP-certified UST contractor retained by the Client directly.

T&M will provide a Sub-Surface Evaluator to provide on Site supervision inspection during the course of the two USTs removal/closure and backfilling operations to verify that these operations are performed in accordance with the NJDEP regulations, recommended industry procedure and permitting requirements.

For the purpose of this proposal and budgeting purposes, T&M anticipates two (2) days of field activity and management to oversee the closure of the two USTs, collection of post-closure/excavation soil sampling and backfilling activities. The on-Site services will include:

- Visual observation of the two UST systems and piping during and subsequent to closure to verify the integrity of these structures in order to evaluate the potential that previous leaks and/or uncontrolled product discharges may have occurred.
- Implement field screening methods in accordance with the protocols detailed in the NJDEP Field Sampling Procedures Manual (August 2005).
- In the absence of obvious petroleum product impacted areas, T&M will initiate the post-closure soil sampling and analysis protocols specified in the NJDEP Technical Requirements for Site Remediation (N.J.A.C. 7:26E-3) for the two USTs and piping (one [1] sample required per 15 linear feet of product piping) and conform to NJDEP closure obligations and LSRP direction.

Soil Sampling at 2,500-gallon capacity diesel fuel UST:

Nine (9) soil samples will be collected based on field observation and field screening to document UST/piping closure. Soil samples will be analyzed for Extractable Petroleum Hydrocarbons (EPH) with a contingency for 2- methylnaphthalene and naphthalene for 25% of all soil samples that exhibit EPH impact greater than 1,000 parts per million. Per NJDEP QA/QC requirements, one (1) field blank and one (1) trip blank will also be submitted for laboratory analysis.

Soil Sampling at 1,000-gallon capacity unleaded gasoline UST:

Eight (8) soil samples will be collected based on field observation and field screening to document UST/piping closure. The soil samples will be analyzed for EPA Target Compound List volatile organic compounds (TCL VO+15) with a library search of the fifteen (15) highest Tentatively Identified Compounds (TICs) and tertiary butyl alcohol (TBA).

All soil samples will be submitted to a NJDEP-certified analytical laboratory for analysis to evaluate the potential that discharges from the subject UST systems have impacted the Site. Upon the closure of the two USTs, T&M will prepare and submit two revised UST Facility Certification Questionnaires documenting the closure and requesting the delisting of the two USTs on the NJDEP database.

Task 3: Monitoring Wells Abandonment of (MW-1, MW-4 & MW-11) and Installation of MW-4R and MW-1R

In order to comply with NJDEP regulations, T&M will retain a NJDEP licensed well driller to properly abandon monitoring wells MW-1, MW-4 and MW-11, as these wells are located in the vicinity of the excavation area. The wells will be sealed in accordance with the requirements of N.J.A.C. 7:9D with cement-bentonite grout.

After completing the excavation work, T&M will retain a New Jersey licensed driller to install replacement for monitoring wells MW-1R and MW-4R. The monitoring wells will be constructed in accordance with the NJDEP Monitoring Well Requirements for Unconsolidated Aquifers.

The monitoring wells will be developed by pumping groundwater into 55-gallon drums until clear and sediment-free water is obtained from the well. The wells cuttings will be containerized in 55-gallon drums on Site for future off-Site disposal at an approved disposal facility. A total of 10 drums will be disposed of and the cost is included in this proposal. A New Jersey licensed land surveyor will survey the newly installed monitoring wells and the NJDEP required certifications (Form A and B) will be prepared and submitted to the NJDEP in accordance with the NJDEP requirements.

Task 4: Scope of Work and Supervision for Impacted Soil Excavation & Post-Excavation Soil Sampling

T&M proposes excavating and removal of impacted soil that acts as a source of groundwater contamination at a limited area located between MW-11 and MW-4 in front of the garage doors. The suspected impacted soil area is mainly located closer to MW-4. The Attached Figure presents the approximate extent of suspected impacted soil and proposed excavation.

T&M will prepare the scope of work and informal excavation specifications for the Township of West Orange to provide it to the selected contractor. The Township of West Orange will hire the contractor to excavate, remove, dispose and backfill with certified clean fill material. Approximately, 150 tons of potential contaminated soil located under the existing asphalt surface. The proposed excavation area is approximately 300 square feet and up to a maximum depth of 15 feet below ground surface.

Field screening techniques will be performed in accordance with the NJDEP Technical Requirements for Site Remediation (N.J.A.C. 7:26E) to determine the potential presence of impacted materials. The field screening will include evaluating the extracted materials for the potential presence of volatile organic compounds using a photoionization detector (PID).

If visual observations and/or field screening measurements indicate the presence of contamination, the observed contamination will be removed from the excavation as part of the 150-ton total. The LSRP representative will collect post-excavation soil samples upon removal of the observed contamination in accordance with the NJDEP Technical Requirements for Site Remediation (N.J.A.C. 7:26E).

Post-excavation sample locations will be selected in accordance with the Technical Requirements for Site Remediation (N.J.A.C. 7:26E). Sample locations and frequency will be at a minimum, sufficient to satisfy the requirements of the applicable Technical Requirements for Site Remediation (N.J.A.C. 7:26E). The soil samples will be analyzed for EPA Target Compound List volatile organic compounds (TCL VO+15) with a library search of the 15 highest Tentatively Identified Compounds (TICs) and tertiary butyl alcohol (TBA).

The contractor will have appropriate equipment (e.g., vacuum truck) to remove, store and dispose of any free-phase product and contaminated groundwater encountered in the excavation. The excavated soil will be temporarily stockpiled at the Site, and will be sampled for waste classification, loaded and transported to an approved off-Site facility for disposal.

The excavated soil will be sampled by T&M for classification (hazardous/non-hazardous) according to RCRA regulations. For the purpose of this proposal and budgeting purposes, T&M anticipates collecting and analyzing one soil sample for classification (hazardous/non-hazardous) according to RCRA regulations. The excavated soil will be disposed of at a licensed facility and the excavation will be backfilled with certified structural clean fill by the Township's selected contractor and supervised by T&M personnel.

For the purpose of this proposal and budgeting purposes, T&M anticipates three (3) days of field activity to oversee the excavation of impacted soil, supervision of soil disposal, collection of post-excavation soil sampling and backfilling activities.

It should be noted that the volume of proposed excavation should be sufficient to address the impacted soil in that limited area close to MW-4. However, if additional excavation is needed during the actual field activity and impacted soil will be left in situ; then a Deed Notice and associated Soil Remedial Action Permit will be applied to the Site.

Task 5: Monitoring Well Gauging & Sampling (Semi-annual - Two Rounds – 1 Year)

Perform two semi-annual groundwater sampling events at the Site (March and September 2018). Collect samples from the existing monitoring wells (MW-1R through MW-11). Groundwater samples will be obtained using "low flow" procedures in accordance with the NJDEP Field Sampling Procedures Manual (August 2005). Groundwater samples will be analyzed for TCL VO+15, TBA, ABN+20 and lead. A QA/QC plan consisting of field and trip blank samples will be incorporated into the sampling program. Purged groundwater will be containerized in drums and disposed off-site at an approved disposal facility.

All sampling and monitoring will be performed according to the methodology specified in the most current edition of the Department's Field Sampling Procedures Manual. All samples will be analyzed by a New Jersey Certified Laboratory except those field-determined parameters specified in the monitoring program established pursuant to the oversight document.

Task 6: Reporting and Management

The scope of services presented herein will be performed under the LSRP program. T&M's LSRP will act as a regulatory liaison between the Township and the NJDEP throughout the entire project duration and provide consultation and project management to continue to advance the project towards closure. Two Separate Reports will be prepared for the identified scope of work as follows:

Site Investigation Report/Remedial Action Report (SIR/RAR) for UST Closure

The results of the two USTs closure operations will be presented in the form of a Site Investigation Report/Remedial Action Report (SIR/RAR) assuming no discharges are confirmed during the closure operations. The SIR/RAR will detail the activities conducted to achieve compliance with the NJDEP Technical Requirements for Site Remediation (NJAC 7:26E-3.3), and the Administrative Requirements for the Remediation of Contaminated Sites ("the ARRCs Rule").

The report will present a narrative containing the results of our investigation and will present tabulated laboratory test results, quality assurance data, and other pertinent items as specified in the SIR/RAR submission requirements of the NJDEP Technical Requirements for SIR (NJAC 7:26E-3.13). All sampling results will be submitted to the NJDEP with a Reduced Laboratory Data Deliverables Format, along with Electronic Data Submission (N.J.A.C. 7:26E-3.13(c) (3) (v)). The SIR/RAR will also include all backfill receipts, proof of the two USTs disposal, and other pertinent information.

This proposal is submitted solely and exclusively for the use of the Township of West Orange for consideration of the professional services of T&M. Disclosure of this proposal's content to any third party without prior written authorization from T&M is expressly prohibited.

In addition to the specific items as listed herein, the client may be required to demonstrate compliance with certain permit and approval conditions as may be imposed by one or more of the regulatory agencies. These conditions may require revisions to the plans and/or preparation of additional supporting documentation. This proposal does not include these additional items unless specifically outlined within the scope of this proposal.

Please indicate your acceptance of this proposal by signing in the space provided on the last page of this proposal and returning one (1) copy to this office. Alternatively, a resolution and purchase order issued by the Township of West Orange will also indicate acceptance of this proposal. Acceptance of this proposal signifies the Client understands that T&M will not be retained or asked to perform any services unless funding is secured and is available to pay all invoices within thirty (30) days. Receipt of the signed proposal, resolution or purchase order shall be considered authorization to proceed with all items described within this proposal. Any items not intended to be authorized shall be clearly and specifically noted as such within the client's signed and returned proposal.

**Re: Revised Proposal for Professional Services - Groundwater Monitoring, USTs
Closure and Excavation
Fire House No. 4, 280 Pleasant Valley Way
Township of West Orange, Essex County, New Jersey
NJDEP Case # 93-6-29-1721-47 – PI # 014430**

Dear Mr. Lepore:

CME Associates (CME) is pleased to submit this proposal for Professional Environmental and Licensed Site Remediation Professional (LSRP) Services to provide environmental consulting services for groundwater monitoring, USTs closure and excavation of impacted soil at the Fire House No. 4, located at 280 Pleasant Valley Way (Site) in West Orange.

BACKGROUND

Several remediation work activities have been undertaken since the remediation was initiated at the Site.

The proposed scope of work is prepared to satisfy the New Jersey Department of Environmental Protection (NJDEP) requirements stated in the Administrative Requirements for Remediation of Contaminated Sites (ARRCS Rule, N.J.A.C. 26:C) and the Technical Requirements for Site Remediation (Tech Rule, N.J.A.C. 7:26E), in accordance with New Jersey's Site Remediation Reform Act (SRRA).

SCOPE OF SERVICES

Based the review of existing remediation documents, CME has prepared the following scope of work to comply with the NJDEP Technical Requirements for Site Remediation at the Site and provide the consultation and project management necessary to continue to advance the project towards a closure.

Municipal Engineer/Director of Public Works

Task 1: Licensed Site Remediation Professional (LSRP) Project Management/Notice of Intent to Close Regulated Underground Storage Tanks

The LSRP of Record for the Site will manage the two USTs closure/removal operation and associated sampling and reporting. The LSRP will prepare and submit required NJDEP forms at the completion of the two USTs closure operations, if no additional work is required. In order to facilitate the work, the LSRP will provide project management services during the process, provide technical support and consult regulatory authorities, if necessary, to the degree feasible.

It is our understanding that West Orange Township (Client) desires to close/remove one (1) double-wall, 2,500-gallon capacity diesel fuel UST and one (1) Fiberglass-reinforced plastic, 1,000-gallon capacity unleaded gasoline UST installed 3/1/1994.

CME will prepare and submit the two required Closure of a UST System Forms (14-day Notice of Intent) to the NJDEP for approval. A copy of the closure approvals will be provided to the NJDEP-certified UST contractor to obtain local construction permits.

The existing USTs are currently registered with the NJDEP. As such, it is assumed that registration of the existing USTs will not be required. Accordingly, CME has not included any costs to prepare and submit an initial USTs Facility Questionnaires to the NJDEP or any past-due USTs registration fees for the existing USTs. If these items are required, the scope of work presented herein will require revision, and a proposal will be submitted to the Client for approval prior to addressing such items.

Task 2: USTs Removal/Closure Supervision and Soil Sampling

It is our understanding that the Client will be independently selecting a NJDEP-certified UST contractor to perform the two USTs closure, and site restoration services. CME will provide oversight during the removal of the two USTs by the NJDEP-certified UST contractor retained by the Client directly.

CME will provide a Sub-Surface Evaluator to provide on Site supervision inspection during the course of the two USTs removal/closure and backfilling operations to verify that these operations are performed in accordance with the NJDEP regulations, recommended industry procedure and permitting requirements. For the purpose of this proposal and budgeting purposes, CME anticipates two (2) days of field activity and

management to oversee the closure of the two USTs, collection of post-closure/excavation soil sampling and backfilling activities. The on-Site services will include:

- Visual observation of the two UST systems and piping during and subsequent to closure to verify the integrity of these structures in order to evaluate the potential that previous leaks and/or uncontrolled product discharges may have occurred.
- Implement field screening methods in accordance with the protocols detailed in the NJDEP Field Sampling Procedures Manual (August 2005).
- In the absence of obvious petroleum product impacted areas, CME will initiate the post-closure soil sampling and analysis protocols specified in the NJDEP Technical Requirements for Site Remediation (N.J.A.C. 7:26E-3) for the two USTs and piping (one [1] sample required per 15 linear feet of product piping) and conform to NJDEP closure obligations and LSRP direction.

Soil Sampling at 2,500-gallon capacity diesel fuel UST:

Nine (9) soil samples will be collected based on field observation and field screening to document UST/piping closure. Soil samples will be analyzed for Extractable Petroleum Hydrocarbons (EPH) with a contingency for 2- methylnaphthalene and naphthalene for 25% of all soil samples that exhibit EPH impact greater than 1,000 parts per million. Per NJDEP QA/QC requirements, one (1) field blank and one (1) trip blank will also be submitted for laboratory analysis.

Soil Sampling at 1,000-gallon capacity unleaded gasoline UST:

Eight (8) soil samples will be collected based on field observation and field screening to document UST/piping closure. The soil samples will be analyzed for EPA Target Compound List volatile organic compounds (TCL VO+15) with a library search of the fifteen (15) highest Tentatively Identified Compounds (TICs) and tertiary butyl alcohol (TBA).

All soil samples will be submitted to a NJDEP-certified analytical laboratory for analysis to evaluate the potential that discharges from the subject UST systems have impacted the

Site. Upon the closure of the two USTs, CME will prepare and submit two revised UST Facility Certification Questionnaires documenting the closure and requesting the delisting of the two USTs on the NJDEP database.

Task 3: Monitoring Wells Abandonment of (MW-1, MW-4 & MW-11) and Installation of MW-4R and MW-1R

In order to comply with NJDEP regulations, CME will retain a NJDEP licensed well driller to properly abandon monitoring wells MW-1, MW-4 and MW-11, as these wells are located in the vicinity of the excavation area. The wells will be sealed in accordance with the requirements of N.J.A.C. 7:9D with cement-bentonite grout.

After completing the excavation work, CME will retain a New Jersey licensed driller to install replacement for monitoring wells MW-1R and MW-4R. The monitoring wells will be constructed in accordance with the NJDEP Monitoring Well Requirements for Unconsolidated Aquifers.

The monitoring wells will be developed by pumping groundwater into 55-gallon drums until clear and sediment-free water is obtained from the well. The wells cuttings will be containerized in 55-gallon drums on Site for future off-Site disposal at an approved disposal facility. A total of 10 drums will be disposed of and the cost is included in this proposal. A New Jersey licensed land surveyor will survey the newly installed monitoring wells and the NJDEP required certifications (Form A and B) will be prepared and submitted to the NJDEP in accordance with the NJDEP requirements.

Task 4: Scope of Work and Supervision for Impacted Soil Excavation & Post-Excavation Soil Sampling

CME proposes excavating and removal of impacted soil that acts as a source of groundwater contamination at a limited area located between MW-11 and MW-4 in front of the garage doors. The suspected impacted soil area is mainly located closer to MW-4. The Attached Figure presents the approximate extent of suspected impacted soil and proposed excavation.

CME will prepare the scope of work and informal excavation specifications for the Township of West Orange to provide it to the selected contractor. The Township of West

Orange will hire the contractor to excavate, remove, dispose and backfill with certified clean fill material. Approximately, 150 tons of potential contaminated soil located under the existing asphalt surface. The proposed excavation area is approximately 300 square feet and up to a maximum depth of 15 feet below ground surface.

Field screening techniques will be performed in accordance with the NJDEP Technical Requirements for Site Remediation (N.J.A.C. 7:26E) to determine the potential presence of impacted materials. The field screening will include evaluating the extracted materials for the potential presence of volatile organic compounds using a photoionization detector (PID).

If visual observations and/or field screening measurements indicate the presence of contamination, the observed contamination will be removed from the excavation as part of the 150-ton total. The LSRP representative will collect post-excavation soil samples upon removal of the observed contamination in accordance with the NJDEP Technical Requirements for Site Remediation (N.J.A.C. 7:26E).

Post-excavation sample locations will be selected in accordance with the Technical Requirements for Site Remediation (N.J.A.C. 7:26E). Sample locations and frequency will be at a minimum, sufficient to satisfy the requirements of the applicable Technical Requirements for Site Remediation (N.J.A.C. 7:26E). The soil samples will be analyzed for EPA Target Compound List volatile organic compounds (TCL VO+15) with a library search of the 15 highest Tentatively Identified Compounds (TICs) and tertiary butyl alcohol (TBA).

The contractor will have appropriate equipment (e.g., vacuum truck) to remove, store and dispose of any free-phase product and contaminated groundwater encountered in the excavation. The excavated soil will be temporarily stockpiled at the Site, and will be sampled for waste classification, loaded and transported to an approved off-Site facility for disposal.

The excavated soil will be sampled by CME for classification (hazardous/non-hazardous) according to RCRA regulations. For the purpose of this proposal and budgeting purposes, CME anticipates collecting and analyzing one soil sample for classification (hazardous/non-hazardous) according to RCRA regulations. The excavated soil will be disposed of at a licensed facility and the excavation will be backfilled with certified

structural clean fill by the Township's selected contractor and supervised by CME personnel.

For the purpose of this proposal and budgeting purposes, CME anticipates three (3) days of field activity to oversee the excavation of impacted soil, supervision of soil disposal, collection of post-excavation soil sampling and backfilling activities.

It should be noted that the volume of proposed excavation should be sufficient to address the impacted soil in that limited area close to MW-4. However, if additional excavation is needed during the actual field activity and impacted soil will be left in situ; then a Deed Notice and associated Soil Remedial Action Permit will be applied to the Site.

Task 5: Monitoring Well Gauging & Sampling (Semi-annual - Two Rounds – 1 Year)

Perform two semi-annual groundwater sampling events at the Site. Collect samples from the existing monitoring wells (MW-1R through MW-11). Groundwater samples will be obtained using "low flow" procedures in accordance with the NJDEP Field Sampling Procedures Manual (August 2005). Groundwater samples will be analyzed for TCL VO+15, TBA, ABN+20 and lead. A QA/QC plan consisting of field and trip blank samples will be incorporated into the sampling program. Purged groundwater will be containerized in drums and disposed off-site at an approved disposal facility.

All sampling and monitoring will be performed according to the methodology specified in the most current edition of the Department's Field Sampling Procedures Manual. All samples will be analyzed by a New Jersey Certified Laboratory except those field-determined parameters specified in the monitoring program established pursuant to the oversight document.

Task 6: Reporting and Management

The scope of services presented herein will be performed under the LSRP program. CME's LSRP will act as a regulatory liaison between the Township and the NJDEP throughout the entire project duration and provide consultation and project management

to continue to advance the project towards closure. Two Separate Reports will be prepared for the identified scope of work as follows:

Site Investigation Report/Remedial Action Report (SIR/RAR) for USTs Closure:

The results of the two USTs closure operations will be presented in the form of a Site Investigation Report/Remedial Action Report (SIR/RAR) assuming no discharges are confirmed during the closure operations. The SIR/RAR will detail the activities conducted to achieve compliance with the NJDEP Technical Requirements for Site Remediation (NJAC 7:26E-3.3), and the Administrative Requirements for the Remediation of Contaminated Sites (“the ARRCs Rule”).

The report will present a narrative containing the results of our investigation and will present tabulated laboratory test results, quality assurance data, and other pertinent items as specified in the SIR/RAR submission requirements of the NJDEP Technical Requirements for SIR (NJAC 7:26E-3.13). All sampling results will be submitted to the NJDEP with a Reduced Laboratory Data Deliverables Format, along with Electronic Data Submission (N.J.A.C. 7:26E-3.13(c) (3) (v)). The SIR/RAR will also include all backfill receipts, proof of the two USTs disposal, and other pertinent information.

Remedial Action Workplan (RAW):

In the second Report, CME will include the identified scope of work related to the soil and groundwater remediation in a Remedial Action Workplan/Remedial Action Report (RAW/RAR) and submit it to the NJDEP. The RAW will detail the proposed remedial action methodology and compliance monitoring/sampling programs and submitted to the NJDEP with other pertinent items as specified in the RAW submission requirements of the NJDEP Technical Requirements for Site Remediation.

CME will prepare a Safety and Health Plan (SHP) and Quality Assurance Project Plan (QAPP) that are required to be submitted with the RAW.

In no event will the client be billed or work performed in excess of the proposal amount without client's prior approval.

ASSUMPTIONS AND LIMITATIONS

The scope of work is limited to the tasks outlined above. Based on the investigation findings, additional remediation activities may be required to comply with N.J.A.C. 7:26E and close the case. We note that further activities related to site remediation may be required pursuant to N.J.A.C. 7:26C and N.J.A.C. 7:26E, which are not included in this proposal. To complete this project in accordance with regulations, CME Associates will prepare a separate proposal to further assist the Township for any additional work. SPECIAL CONDITIONS FOR LSRP SERVICES

- The enactment of the Site Remediation Reform Act (SRRA; N.J.S.A. 58:10C-1 et seq) on May 7, 2009, and the adoption of the Administrative Requirements for the Remediation of Contaminated Sites (ARRCS; N.J.A.C. 7:26C) on November 4, 2009 require that all new remediation cases follow the provisions of SRRA. A key requirement of these rules is that a Licensed Site Remediation Professional (LSRP) must oversee all new remediation cases.
- The ARRCS requires the person responsible for conducting a remediation to notify the NJDEP of any confirmed discharges of contaminants or condition of Immediate Environmental Concern ("IEC"). Please note that being an LSRP, as a State licensed professional, I will thus have the obligation to report any such conditions to the NJDEP without obtaining any prior approval from the client.
- LSRP will provide the required services in accordance with SRRA and has the obligation to submit, maintain and preserve the relevant documents.
- LSRP is not responsible for client's failure to disclose relevant information, perform SRRA obligations, fund remediation, and follow LSRP's recommended actions. Client's failure to perform these obligations may result in fines/penalties by the NJDEP.
- The issuance of RAO by LSRP is not a guarantee or warranty that the site is free of contamination, or that it will be accepted by the NJDEP.
- NJDEP may audit the RAO within three (3) years after the date the LSRP filed the RAO with the NJDEP. LSRP is not responsible for additional requirements imposed by NJDEP after review/audit, except to the extent they arise out of LSRP's negligence.

Holidays are charged at two times the quoted rate. Expenses incurred for reproduction, postage handling, photographs and for services including subconsultants equipment and facilities not furnished by CME are charged to the Client at cost plus fifteen percent.

Automobile travel may be charged at the current rate per mile allowed by the Internal Revenue Service.

Standard of Care - Services performed by CME under this Agreement will be conducted in a manner consistent with that level of care and skill ordinarily exercised by members of the profession currently practicing under similar conditions. NO OTHER WARRANTY, EXPRESSED OR IMPLIED, IS MADE.

Contaminated Material - It is understood that CME is not, and has no responsibility as a handler, generator, operator, treater or storer, transporter or disposer of hazardous or toxic substances found or identified at any site. Client shall undertake or arrange for, either directly or indirectly through other contractors, the handling, removal, treatment, storage, transportation and disposal of hazardous substances or constituents found or identified at any site.

Utilities - In the execution of the work, CME will take all reasonable precautions to avoid damage or injury to subterranean structures or utilities. The Client agrees to hold CME harmless for any damages to subterranean structures which are not called to CME's attention and/or not correctly shown on the plans furnished.

Right of Entry/Worksite - Client will provide for right of entry for CME personnel and equipment necessary to complete the work. While CME will take all reasonable precautions to minimize any damage to the property it is understood by Client that in the normal course of some damage may occur, the correction of which is not part of this agreement.

Client shall furnish or cause to be furnished to CME all documents and information known to Client that relate to the identity, location, quantity, nature or characteristics of any hazardous or toxic substances at, on or under the site. In addition, Client will furnish or cause to be furnished such other information on surface and subsurface site conditions required by CME for proper performance of its services. CME shall be entitled to rely on Client provided documents and information in performing the services required under this Agreement; however, CME assumes no responsibility or liability for their accuracy or completeness.

CME will not direct, supervise or control the work of contractors or their subcontractors. CME services will not include a review or evaluation of the contractor's (or subcontractor's) safety measures.

CME shall be responsible only for its activities and that of its employees on any site. Neither the professional activities nor the presence of CME or its employees or subcontractors on a site shall imply that CME controls the operations of others, nor shall this be construed to be an acceptance by CME of any responsibility for jobsite safety.

Indemnification - To the full extent permitted by law, Client shall indemnify, defend and hold harmless CME and its subcontractors, consultants, agents, officers, directors and employees (herein collectively referred to as Engineer) from and against all claims, damages, losses and expenses, whether direct, indirect or consequential, including but not limited to fees and charges of attorneys and court and arbitration costs, arising out of or resulting from any claims against Engineer arising from the acts, omissions of work of others, unless it is proven in a court of competent jurisdiction that the Engineer is guilty of negligence or willful misconduct in connection with the services and such negligence or willful misconduct was the sole cause of the damages, claims and liabilities.

Limitations of Liability - In no event shall CME be liable for consequential damages, including, without limitation, loss of use or loss of profits, incurred by Client or their subsidiaries or successors, regardless of whether such claim is based upon alleged breach of contract, willful misconduct, or negligent act or omission.

Professional services rendered for a Client shall be provided for that Client. The Client is responsible for the proper operation and use of the subject facilities and/or report and nothing herein shall provide any rights to any third party. The Client, in authorizing CME to proceed, acknowledges that the professional responsibility is limited.

Termination - This Agreement may be terminated by either party upon fourteen (14) days written notice in the event of substantial failure by the other party to perform in accordance with the terms hereof. Such termination shall not be effective if that substantial failure has been remedied before expiration of the period specified in the written notice. In the event of termination by Client, CME shall be paid for services performed to the termination notice date plus reasonable termination expenses.

Assigns - The Client may not delegate, assign, sublet or transfer his duties or interests in this Agreement without the written consent of CME with respect to unpaid services.
