9. Ordinances on Second and Final Reading

- a. **2904-25** An Ordinance Amending and Supplementing Chapter 7, Traffic, Subsections 7-11 Parking Time Limited on Certain Streets During Certain Hours, 7-14.2A Parking Prohibited on Certain Streets During Certain Hours of Certain Days, and 7-14.3 Parking Time Limited on Certain Streets During Certain Hours of Certain Days of The Revised General Ordinances of the Township of West Orange (Carballo)
- b. **2907-25** An Ordinance Amending And Supplementing Chapter 2, Section ____ Of The Revised General Ordinances Of The Township Of West Orange To Establish A Citizens Budget Advisory Board (Legal-Gengaro)
This Ordinance will establish the creation of a Citizens Board Advisory Board (the “Board”) by Ordinance. In years past, the Township previously had the Board by Resolution. The purpose of this Ordinance is to codify the rules and regulations of the Board via Ordinance.
- c. **2908-25** An Ordinance Amending Chapter 2, Section 9.4 General Ordinances Of The Township Of West Orange (Special Counsel) (Legal-Gengaro)
The purpose of this ordinance is to modify the provisions of the Township of West Orange Municipal Code governing the Township’s retention of Special Counsel. This ordinance: (i) requires appointment of Special Counsel by advice and consent of the Township Council; and (ii) require that the bills for Special Counsel shall be subject to approval from the Township Council.
- d. **2909-25** An Ordinance Amending And Supplementing Chapter 7, Traffic, Subsection 7-32.2 Restricted Parking Zones Of The Revised General Ordinances Of The Township Of West Orange – Handicapped Spaces (Carballo)
This Ordinance is in response to requests from handicapped residents who reside at 26 Babcock Place, 268 Watchung Avenue, and 39 Washington Street. By adopting this Ordinance, the Township will establish a handicapped parking stall adjacent to each of these addresses. In the case of 39 Washington Street, the stall will be placed on the side of the home on High Street, because the resident’s access if from that side. Such parking stalls are permissible under the laws of New Jersey, and they are designated as Restricted Parking Zones. All other Parking Ordinances under this chapter apply and supersede the use of these restricted spaces. Additionally, two Handicapped Stalls located in Municipal Plaza nearest the Police Building will get limits of 1 hour parking for the convenience of residents that have business there. Two other stalls will be designated Handicapped for use of employees or others that need to park all day.

10. Ordinances on First Reading

- a. **2911-25** Capital Ordinance Appropriating \$1,000,000 to Pay for Various Improvements and Upgrades to the Oskar Schindler Performing Arts Center in the Township of West Orange, in the County of Essex, State of New Jersey (Ditinyak)
- b. **2912-25** An Ordinance Amending Chapter 11, Section 3.4 Of The Revised General Ordinances Of The Township Of West Orange (License Fees; Maximum Number) (Legal-Moon)
The purpose of this ordinance is to revise the municipal code setting for the license fees for liquor licenses issued by the Township of West Orange. The ordinance sets forth an annual increase of 20% until the fees reach \$2,500.
- c. **2913-25** An Ordinance Amending And Supplementing Chapter 7, Traffic, Subsections 7-32.1 Handicapped Parking On Streets, And 7-32.2 Restricted Parking Zones Of The Revised General Ordinances Of The Township Of West Orange (Carballo)
This Ordinance is in response to requests from handicapped residents who reside at 125 Elm Street, 48 Park Terrace, and 42 Wellington Avenue. A Handicapped Parking Space on the Street will be established opposite 125 Elm Street, because there is no opportunity to park legally in front of or on the side of the residence due to other parking regulations. Because this space cannot be restricted to the resident, any person with a handicapped plate or placard may park there. The Township will also

establish handicapped parking spaces adjacent to the other two addresses. Such parking stalls are permissible under the laws of New Jersey, and they are designated as Restricted Parking Zones. All other Parking Ordinances under this chapter apply and supersede the use of these restricted spaces.

AGREEMENT FOR COMMERCIAL REAL ESTATE TAX APPEALS

THIS AGREEMENT made and entered into on this 8th day of April, 2025 by and between the **TOWNSHIP OF WEST ORANGE**, a municipal corporation of the State of New Jersey, located at Town Hall, 66 Main Street, West Orange, County of Essex and State of New Jersey, hereinafter called the “TOWNSHIP,” party of the first part, and **BLAU & BLAU**, Attorneys at Law of the State of New Jersey, located at 223 Mountain Avenue, Springfield, New Jersey 07081, hereinafter referred to as “COUNSEL,” party of the second part.

WITNESSETH THAT:

WHEREAS, the Governing Body of the Township has determined that it is in the best interests of the Township to retain the services of Special Counsel to represent the Township in connection with commercial real estate tax appeals on a flat fee basis;

NOW, THEREFORE, in consideration of the mutual promises, terms and conditions hereinafter set forth, the parties hereto agree as follows:

1. The Township hereby retains the services of Blau & Blau, as Special Counsel to assist the Township in connection with commercial real estate tax appeals for the period January 1, 2025 through December 31, 2025 at a flat rate of \$6,000 per month for the first forty (40) cases filed in 2025 and each additional case at a rate of \$1,500 per case. There will be an hourly rate of \$150 per hour for trials, including pre-trial preparation and post-trial work.
2. COUNSEL will not seek reimbursement for its routine costs and expenses such as postage, copying, mileage, meals, parking, or delivery of documents.
3. COUNSEL may seek reimbursement for extraordinary expenses such as the cost of deposing adverse witnesses, transcripts or hiring experts. Counsel will not incur any such expenses without the approval of the Township Attorney.

4. COUNSEL'S responsibilities shall include all pre-trial preparation, discovery and trial, to the extent necessary, for all commercial real estate tax appeals pending or commenced in the Tax Court of New Jersey against the Township. Counsel's responsibilities do not include preparation or appearance for matters pending or commenced at the County Board of Taxation.

5. COUNSEL shall coordinate all efforts with the Tax Assessor and keep the Tax Assessor and Township Attorney fully apprised concerning all matters.

6. Prosecution of Appeals for the Township (Reverse Appeals).

COUNSEL shall have the right to file tax appeals for the Township on a contingent fee basis of one-third of the money obtained for the Township from cases filed during the term of the contract. COUNSEL will be responsible for all costs associated with filing the affirmative appeals including but not limited to:

- A) Filing fees;
- B) Appraisal fees;
- C) Copying, postage, delivery services, preparation of trial exhibits, etc.

It is contemplated that COUNSEL will recommend appeals on properties and will not be obligated to file an appeal unless it believes the property is substantially under-assessed. It is contemplated that COUNSEL will recommend settlement of the Affirmative Appeals from time to time as COUNSEL may deem appropriate. In the event that the Township refuses to accept COUNSEL's recommendation to settle a matter, the Township shall be responsible for payment of the contingent fee based upon the recommendation and reimbursement of COUNSEL's actual out of pocket expenses related to that Affirmative Appeal.

7. COUNSEL recognizes that any and all approval for engagement of services must come from the Governing Body of the Township, and that no services, work or any efforts

relative to the contract shall be commenced until the Governing Body passes a duly authorized Resolution accompanied by a Certificate of Funds.

8. COUNSEL is hereby placed on notice that the Billing Guidelines of the Township shall apply to this agreement for professional services. COUNSEL is further noticed that no Department Head, individual member of the Governing Body, or any agent, servant or employee of the Township possesses any lawful authority to: (a) engage the rendition of services or the performance of work; (b) authorize the continuation of services or work beyond the amount specifically approved in the Resolution and Certificate of Funds; or to (c) represent that future funds will be available as compensation for current services. Any such acts shall be deemed ultra vires and beyond the scope of any authority that individual may possess. No bills, statement or vouchers for any amount exceeding that originally approved will be honored or paid by the Township, irrespective of whether such services were actually performed.

9. During the term of this agreement, COUNSEL shall maintain professional liability malpractice insurance coverage with an insurance company licensed and authorized to do business in the State of New Jersey with coverage not less than \$1,000,000. COUNSEL shall provide the Township Attorney and Municipal Clerk with proof of a valid certificate of insurance listing the TOWNSHIP as a certificate holder. To the extent that this insurance coverage is scheduled to lapse at any time before the end of the contract, COUNSEL shall provide proof of renewal or new insurance coverage no later than thirty (30) days before the termination of the current coverage.

10. The provisions of this agreement are subject to the limitations of provisions of the New Jersey Tort Claim Act, N.J.S.A. 59:2-1 *et seq.*, and the New Jersey Contractual Liability Act, N.J.S.A. 59:13-1 *et seq.*

11. This agreement shall be governed by the laws of the State of New Jersey without regard to principles of conflict of laws. All contract claims under this agreement shall be subject to and governed by the provisions of the New Jersey Contractual Liability Act (N.J.S.A. 59:13-1 *et seq.*

IN WITNESS WHEREOF, the parties have set their hands and seals the day and year first above written.

Introduced: March 11, 2025

Adopted: March 25, 2025

LEGISLATIVE HISTORY

This Ordinance eliminates the 8AM-10AM One Hour Parking Zones on Colony Drive East, Pitney Street, and Swayze Street and creates new 8AM-10AM No Parking Zones there and at Elliott Place to discourage all-day parking by Seton Hall Prep students, NYC commuters, and Parents/Teachers at Kelly Elementary School during school opening hours, and allow parking at other times for the residents. This change was recommended by the Traffic Division of WOPD, and in response to local residents' requests.

**AN ORDINANCE AMENDING AND SUPPLEMENTING CHAPTER 2, SECTION ____
OF THE REVISED GENERAL ORDINANCES OF THE TOWNSHIP OF WEST
ORANGE TO ESTABLISH A CITIZENS BUDGET ADVISORY BOARD**

BE IT ORDAINED BY THE MUNICIPAL COUNCIL OF THE TOWNSHIP OF WEST ORANGE, NEW JERSEY that Chapter 2 of the Revised General Ordinances of the Township of West Orange be and are hereby amended as follows:

I. PURPOSE

The purpose of this Ordinance is to establish a Citizens Budget Advisory Board via Ordinance.

§ 2-____ : Definitions

Citizens Budget Advisory Board: An advisory board made up of members of the public appointed by both the Township Council and the Mayor charged with reviewing the Township's Budget, its services, programs and expenditures, compiling the Board's collective analysis, input and suggestions and presenting them to the Township Council by regular reports and presentations, as appropriate.

§ 2-____ : Establishment of a Citizens Advisory Board

- A. The Citizens Budget Advisory Board shall be comprised of: (i) one member appointed by the Mayor; (ii) one member appointed by each of the five members of the Township Council; and (iii) one consensus candidate chosen by the majority of the Council.
- B. Candidates for the board shall be Township residents, work in the Township, employed by a company based in the Township, or own or lease property in the Township. The chair shall be selected by a majority vote of the members, as promptly as practicable once appointments are made. The term of each Board member will be one calendar year, starting on January 1 of the year that the members serve, and members may be reappointed in subsequent years. Appointments shall be made before January 1 of the year that members serve. In the case of any newly elected Councilmember, his/her appointment, as well as the appointment of the Council consensus, should be made as soon as practicable once he/she takes the oath of office.
- C. A Board member can resign by sending a letter or email to the Municipal Clerk which shall take effect immediately. Any Board member may be removed with or without cause, at any time, by the person appointing the Board member.
- D. Board members are required to attend all scheduled Board meetings and strongly encouraged to attend all Council meetings that focus on the budget, including review of any video or audio recordings of such meetings. Failure to attend three Board

meetings may be grounds for removal from the Board by a written motion to dismiss that can be offered by any Board member. The Board member at issue may request a public hearing of the cause(s) and present a defense. That hearing shall be followed by deliberation in open session. A majority vote decides the issue, with a tie vote allowing the Board member to continue to serve.

E. The Board shall:

- a. Make all requests for information or materials following a majority vote of the members present.
- b. Have access to all financial and budget documents that it believes are needed to advise the Council that are not otherwise subject to privacy or other non-disclosure limitations. The Board shall make its request in writing to the Council, which will review the request and forward it to the Business Administrator or his/her designee, and the Chief Financial Officer.
- c. Request in writing through the Council to the Business Administrator or his/her designee, and the Chief Financial Officer to meet with the Chief Financial Officer or others as appropriate for presentations and discussions on these financial issues outside of a regular or special Council meeting.
- d. Take minutes of meetings and submit approved Minutes to the Council, Business Administrator and Chief Financial Officer. The Board will also provide the minutes to the Municipal Clerk for public availability in the Clerk's office and for posting to the Township website.
- e. Submit written reports to the Council, Business Administrator and Chief Financial Officer on a regular basis of the Board's findings, questions and recommendations.
- f. Appear as requested by the Town Council at Council meetings to present and/or engage in discussions with Councilmembers and Administration personnel, as appropriate.
- g. Meet at least once a month in the year that members serve, because Budget issues are a year-round responsibility, including year-end account reconciliations and pre-planning for the following calendar year. Meetings may occur more frequently depending on the majority vote of members.

- h. Communicate as appropriate with the Councilmember or Mayor who appointed them on budget matters. Members can also communicate through the Board Chair or his/her designee with county or state agencies as appropriate, as well as other municipalities and other entities that may perform similar advisory duties in other municipalities. When communicating, the Chair or designee shall clearly describe his or her role as a member of the West Orange Citizens Budget Advisory Board, a volunteer body created by Ordinance advising the Township Council to develop the annual budget and related financial areas.

II. REPEAL OF CONFLICTING ORDINANCES

Any Ordinances of the Township which are in conflict with this Ordinance are hereby repealed to the extent of such conflict.

III. SEVERABILITY

If any part of this Ordinance shall be deemed invalid, such determination shall only apply to those specific section(s), paragraph(s), subparagraph(s), clause(s) or provision(s) and those parts shall be severed. The invalidity thereof shall not affect the remaining parts of this Ordinance which shall be deemed valid and effective.

IX. EFFECTIVE DATE

This Ordinance shall take effect upon final passage and publication in accordance with the law.

INTRODUCED: March 25, 2025

ADOPTED: April 8, 2025

Legislative History

This Ordinance will establish the creation of a Citizens Board Advisory Board (the “Board”) by Ordinance. In years past, the Township previously had the Board by Resolution. The purpose of this Ordinance is to codify the rules and regulations of the Board via Ordinance.

**AN ORDINANCE AMENDING CHAPTER 2, SECTION 9.4 GENERAL ORDINANCES
OF THE TOWNSHIP OF WEST ORANGE
(SPECIAL COUNSEL)**

BE IT ORDAINED BY THE MUNICIPAL COUNCIL OF THE TOWNSHIP OF WEST ORANGE, NEW JERSEY that Chapter 2, Sections 9.4 of the Revised General Ordinances of the Township of West Orange be and are hereby amended as follows:

I. PURPOSE

The purpose of this ordinance is to modify the provisions of the Township of West Orange Municipal Code governing the Township's retention of Special Counsel. This ordinance: (i) requires appointment of Special Counsel by advice and consent of the Township Council; and (ii) require that the bills for Special Counsel shall be subject to approval from the Township Council.

II. CHAPTER 2 SECTIONS 9.4 SHALL BE AND HEREBY IS AMENDED AND SUPPLEMENTED TO INCORPORATE THE FOLLOWING:

2-9.4 Special Counsel.

Subject to the advise and consent of the Township Council, the Township Attorney may appoint such Special Counsel as may be required or advisable to handle matters in which a conflict of interest precludes representation by the Township Attorney or Assistant Township Attorney, or which due to its complexity, special nature, time demands or constraints, or for any good reason would benefit from the special experience and/or training of the Special Counsel to be hired. Such Special Counsel need not serve full time and would be expected to serve for the duration of the matter for which he or she was appointed, subject to annual reappointment with the manner and amount of compensation to be approved by the Township Council. Special Counsel would be subject to the supervision of the Township Attorney except for matters involving a conflict of interest precluding representation by the Township Attorney wherein Special Counsel would be subject to the supervision of the Assistant Township Attorney or designated conflict counsel. The bills of all Special Counsel shall be subject to approval by the Township Council. The Township Council must receive written notification from the Administration detailing the reasons for engaging Special Counsel, including the name of the law firm to be engaged, the rate, and a "not to exceed" clause.

III. REPEAL OF CONFLICTING ORDINANCES

Any Ordinances of the Township which are in conflict with this Ordinance are hereby repealed to the extent of such conflict.

IV. SEVERABILITY

If any part of this Ordinance shall be deemed invalid, such parts shall be severed and the invalidity thereof shall not affect the remaining parts of this Ordinance.

V. EFFECTIVE DATE

This Ordinance shall take effect upon final passage and publication in accordance with the law.

Joe Krakoviak, Council President

Karen J. Carnevale, R.M.C., Municipal Clerk

Introduced: March 25, 2025

Adopted: April 8, 2025

LEGISLATIVE HISTORY

This Ordinance is in response to requests from handicapped residents who reside at 26 Babcock Place, 268 Watchung Avenue, and 39 Washington Street.

By adopting this Ordinance, the Township will establish a handicapped parking stall adjacent to each of these addresses. In the case of 39 Washington Street, the stall will be placed on the side of the home on High Street, because the resident's access is from that side. Such parking stalls are permissible under the laws of New Jersey, and they are designated as Restricted Parking Zones. All other Parking Ordinances under this chapter apply and supersede the use of these restricted spaces.

Additionally, two Handicapped Stalls located in Municipal Plaza nearest the Police Building will get limits of 1 hour parking for the convenience of residents that have business there. Two other stalls will be designated Handicapped for use of employees or others that need to park all day.

AN ORDINANCE AMENDING AND SUPPLEMENTING CHAPTER 7, TRAFFIC, SUBSECTIONS 7-32.1 HANDICAPPED PARKING ON STREETS, AND 7-32.2 RESTRICTED PARKING ZONES OF THE REVISED GENERAL ORDINANCES OF THE TOWNSHIP OF WEST ORANGE

BE IT ORDAINED, by the Township Council of the Township of West Orange, in the County of Essex, State of New Jersey as follows:

Section 1. Subsections 7-32.1, Handicapped Parking on Streets of the Revised General Ordinances of the Township of West Orange is hereby supplemented and amended as follows (*italic type denotes deletion, bold type denotes addition*):

7-32.1 Handicapped Parking on Streets. Pursuant to N.J.S.A. 39:4-197(2c) the following on-street location is designated as a handicapped parking place. Such spaces are for use by persons who have been issued special identification cards, plates, or placards by the New Jersey Motor Vehicle Commission, or a temporary placard issued by the Chief of Police. No other person shall be permitted to park in these places.

<u>Residence Address</u>	<u>No. of Spaces</u>	<u>Location</u>
120 Elm Street	1	Beginning 35 feet east of the easterly curb line of Mississippi Avenue extended, and extending 20 feet east.

Section 2. Subsections 7-32.2, Restricted Parking Zones of the Revised General Ordinances of the Township of West Orange is hereby supplemented and amended as follows (*italic type denotes deletion, bold type denotes addition*):

7-32.2 Restricted Parking Zones. Pursuant to N.J.S.A 39:4-197.6, Restricted Parking Zones, as defined in N.J.S.A. 39:4-207.6e, are established in front of the following residences as indicated on the Tax Maps of the Township of West Orange, at the specified locations. Parking within a specific zone is restricted to the motor vehicle issued a permit pursuant to N.J.S.A. 39:4-197.7. In accordance with

N.J.S.A., 39:4-197.6 parking is permitted in the Restricted Parking Zone except when prohibited in front of the residence by other sections of this Chapter.

<u>Residence Address</u>	<u>No. of Spaces</u>	<u>Location</u>

LEGISLATIVE HISTORY

This Ordinance is in response to requests from handicapped residents who reside at 125 Elm Street, 48 Park Terrace, and 42 Wellington Avenue.

A Handicapped Parking Space on the Street will be established opposite 125 Elm Street, because there is no opportunity to park legally in front of or on the side of the residence due to other parking regulations. Because this space cannot be restricted to the resident, any person with a handicapped plate or placard may park there.

The Township will also establish handicapped parking spaces adjacent to the other two addresses. Such parking stalls are permissible under the laws of New Jersey, and they are designated as Restricted Parking Zones. All other Parking Ordinances under this chapter apply and supersede the use of these restricted spaces.

FOLLOWS:**

SECTION 1. The improvements or purposes described in Section 3 of this bond ordinance are hereby authorized as general improvements to be undertaken by the Township of West Orange, in the County of Essex, State of New Jersey (the "Township"). For the said improvements or purposes stated in Section 3 hereof, there is hereby appropriated the amount of \$10,030,000, which sum includes (i) a \$300,000 grant expected to be received from the Community Development Block Grant Program (the "CDBG Grant"), (ii) \$2,966,891 grants expected to be received from the Department of Transportation of the State of New Jersey (the "DOT Grants" and together with the CDBG Grant, the "Grants"), and (iii) down payments in the aggregate amount of \$48,440 (the "Down Payments") for said improvements or purposes as required by the Local Bond Law of the State of New Jersey, as amended and supplemented (N.J.S.A. 40A:2-1 et seq.) (the "Local Bond Law"), which Down Payments are now available from the Township's Capital Improvement Fund by virtue of a provision or provisions in a previously adopted budget or

budgets of the Township for down payment or capital improvement purposes. Pursuant to N.J.S.A. 40A:2-11(c) of the Local Bond Law, no down payment is required for the improvements or purposes set forth in Section 3(a)(ii), (iii), (iv), and (v) hereof, as such projects are being funded by the DOT Grants, which are grants provided by the State of New Jersey.

SECTION 2. For the financing of said improvements or purposes described in Section 3 hereof and to meet part of said \$10,030,000 appropriation not provided for by said Down Payments and the Grants referred to in Section 1 hereof, negotiable bonds of the Township are hereby authorized to be issued in the aggregate principal amount of \$6,714,669 pursuant to, and within the limitations prescribed by, the Local Bond Law. In anticipation of the issuance of said bonds and to temporarily finance said improvements or purposes, negotiable notes of the Township in an aggregate principal amount not exceeding \$6,714,669 are hereby authorized to be issued pursuant to, and within the limitations prescribed by, said Local Bond Law.

SECTION 3. (a) The improvements hereby authorized and purposes for the financing of which said obligations are to be issued include, but are not limited to, as follows:

TOTALS:	<u>\$10,030,000</u>	<u>\$6,714,669</u>	<u>\$ 48,440</u>	

(b) The improvements and purposes set forth in Section 3(a) above shall also include, as applicable, all engineering and design work, surveying, construction management services, construction planning, preparation of plans and specifications, permits, bid documents, construction inspection and contract administration, environmental testing and remediation, and all work, materials, equipment, labor and appurtenances necessary therefor or incidental thereto.

(c) The estimated maximum amount of bonds or notes to be issued by the Township for said improvements and purposes is \$6,714,669.

(d) The estimated cost of said improvements and purposes to the Township is \$10,030,000, the excess amount thereof over the estimated maximum amount of bonds or notes to be issued therefor are the Grants and the Down Payments in the amount of \$48,440 now available for said improvements and purposes from the Township's Capital Improvement Fund and the Grants.

SECTION 4. Except for the Grants, in the event the United States of America, the State of New Jersey, and/or the County of Essex make a contribution or grant in aid to the Township for the improvements and purposes authorized hereby and the same shall be received by the Township prior to the issuance of the bonds or notes authorized in Section 2 hereof, then the amount of such bonds or notes to be issued shall be reduced by the amount so received from the United States of America, the State of New Jersey, and/or the County of Essex. Except for the Grants, in the event that any amount so contributed or granted by the United States of America, the State of New Jersey, and/or the County of Essex shall be received by the Township after the issuance of the bonds or notes authorized in Section 2 hereof, then such funds shall be applied to the payment of the bonds or notes so issued and shall be used for no other purpose. This Section 4 shall not apply, however, with respect to any contribution or grant in aid received by the Township as a result of using funds from this bond ordinance as "matching local funds" to receive such contribution or grant in aid.

SECTION 5. All bond anticipation notes issued hereunder shall mature at such times as may be determined by the Chief Financial Officer of the Township (the "Chief Financial Officer"), provided that no note shall mature later than one (1) year from its date.

The notes shall bear interest at such rate or rates and be in such form as may be determined by the Chief Financial Officer. The Chief Financial Officer shall determine all matters in connection with the notes issued pursuant to this bond ordinance, and the signature of the Chief Financial Officer upon the notes shall be conclusive evidence as to all such determinations. All notes issued hereunder may be renewed from time to time in accordance with the provisions of N.J.S.A. 40A:2-8.1 of the Local Bond Law. The Chief Financial Officer is hereby authorized to sell part or all of the notes from time to time at a public or private sale and to deliver them to the purchaser thereof upon receipt of payment of the purchase price and accrued interest thereon from their dates to the date of delivery thereof. The Chief Financial Officer is directed to report in writing to the governing body at the meeting next succeeding the date when any sale or delivery of the notes pursuant to this bond ordinance is made. Such report must include the principal amount, the description, the interest rate, the maturity schedule of the notes so sold, the price obtained and the name of the purchaser.

SECTION 6. The Township hereby certifies that it has adopted a capital budget or a temporary capital budget of the Township, as applicable. The capital budget or temporary capital budget, as applicable, of the Township is hereby amended to conform with the provisions of this bond ordinance to the extent of any inconsistency herewith. To the extent that the purposes authorized herein are inconsistent with the adopted capital or temporary capital budget, a revised capital or temporary capital budget has been filed with the Division of Local Government Services.

SECTION 7. The following additional matters are hereby determined, declared, recited and stated:

- (a) The improvements and purposes described in Section 3 of this

bond ordinance are not current expenses and are improvements and purposes which the Township may lawfully undertake as general improvements and no part of the cost thereof has been or shall be specially assessed on property specially benefited thereby.

(b) The period of usefulness of said improvements or purposes, computed on the basis of the respective amounts of obligations authorized for each purpose and the reasonable life thereof in accordance with the limitations set forth in the Local Bond Law, is 10 years.

(c) The supplemental debt statement required by the Local Bond Law has been duly made and filed in the Office of the Clerk of the Township and a complete executed duplicate thereof has been filed in the Office of the Director of the Division of Local Government Services in the Department of Community Affairs of the State of New Jersey, and such statement shows that the gross debt of the Township as defined in the Local Bond Law is increased by the authorization of the bonds or notes provided for in this bond ordinance by \$6,714,669. The obligations authorized by this bond ordinance will be within all debt limitations prescribed by said Local Bond Law.

(d) An amount not exceeding \$780,000 for items of expense listed in and permitted under N.J.S.A. 40A:2-20 of the Local Bond Law is included in the estimated cost indicated herein for the purposes and improvements described in Section 3 hereof.

SECTION 8. The full faith and credit of the Township are hereby pledged to the punctual payment of the principal of and the interest on the obligations authorized by this bond ordinance. The obligations shall be direct, unlimited obligations of the Township and, unless paid from other sources, the Township shall be obligated to levy *ad valorem* taxes upon all the taxable property within the Township for the payment of the principal of the obligations and the interest thereon without limitation as to rate or amount.

SECTION 9. The Township reasonably expects to reimburse any expenditures toward the costs of the improvements or purposes described in Section 3 hereof and paid prior to the issuance of any bonds or notes authorized by this bond ordinance with the proceeds of such bonds or notes. This Section 9 is intended to be and hereby is a declaration of the Township's official intent to reimburse any expenditure toward the costs of the improvements or purposes described in Section 3 hereof to be incurred and paid prior to the issuance of bonds or notes authorized herein in accordance with Treasury Regulation Section 1.150-2.

SECTION 10. The Chief Financial Officer is hereby authorized to prepare and to update from time to time as necessary a financial disclosure document to be distributed in connection with the sale of the obligations of the Township authorized herein and to execute such disclosure document on behalf of the Township. The Chief Financial Officer is further authorized to enter into the appropriate undertaking to provide secondary market disclosure on behalf of the Township pursuant to Rule 15c2-12 of the Securities and Exchange Commission (the "Rule") for the benefit of holders and beneficial owners of the obligations of the Township, which are authorized herein, and to amend such undertaking from time to time in connection with any change in law, or interpretation thereof, provided such undertaking is and continues to be, in the opinion of a nationally recognized bond counsel, consistent with the requirements of the Rule. In the event that the Township fails to comply with its undertaking, the Township shall not be liable for any monetary damages, and the remedy shall be limited to specific performance of the undertaking.

SECTION 11. The Township covenants to maintain the exclusion from gross income under Section 103(a) of the Internal Revenue Code of 1986, as amended, of the interest on all bonds and notes issued on a tax-exempt basis under this bond ordinance.

SECTION 12. This bond ordinance shall take effect twenty (20) days after the first publication of the notice of final adoption of this bond ordinance, as provided by the Local Bond Law.

**TOWNSHIP OF WEST ORANGE
COUNTY OF ESSEX, STATE OF NEW JERSEY**

ORDINANCE NUMBER 2916-25

**BOND ORDINANCE PROVIDING FOR BUILDINGS AND
GROUNDS IMPROVEMENTS ALONG ROONEY CIRCLE,
BY AND IN THE TOWNSHIP OF WEST ORANGE, IN THE
COUNTY OF ESSEX, STATE OF NEW JERSEY;
APPROPRIATING \$2,170,000 THEREFOR AND
AUTHORIZING THE ISSUANCE OF \$2,066,840 BONDS OR
NOTES OF THE TOWNSHIP TO FINANCE PART OF THE
COSTS THEREOF**

**BE IT ORDAINED AND ENACTED BY THE TOWNSHIP COUNCIL OF
THE TOWNSHIP OF WEST ORANGE, IN THE COUNTY OF ESSEX, STATE OF NEW
JERSEY (not less than two-thirds of all the members thereof affirmatively concurring), AS
FOLLOWS:**

SECTION 1. The improvements or purposes described in Section 3 of this bond ordinance are hereby authorized as general improvements or purposes to be undertaken by the Township of West Orange, in the County of Essex, State of New Jersey (the "Township"). For the said improvements or purposes stated in Section 3, there is hereby appropriated the amount of \$2,170,000, said amount being inclusive of a down payment in the amount of \$103,160 (the "Down Payments") for said improvements or purposes as required by the Local Bond Law of the State of New Jersey, as amended and supplemented (N.J.S.A. 40A:2-1 et seq.) (the "Local Bond Law"), which Down Payment is now available from the Township's Capital Improvement Fund by virtue of a provision or provisions in a previously adopted budget or budgets of the Township for down payment or capital improvement purposes.

SECTION 2. For the financing of said improvements or purposes described in Section 3 hereof and to meet the part of said \$2,170,000 appropriation not provided for by said Down Payment, negotiable bonds of the Township are hereby authorized to be issued in the principal amount not exceeding \$2,066,840 pursuant to, and within the limitations prescribed by, the Local Bond Law. In anticipation of the issuance of said bonds and to temporarily finance said improvements or purposes, negotiable notes of the Township in the principal amount not exceeding \$2,066,840 are hereby authorized to be issued pursuant to, and within the limitations prescribed by, said Local Bond Law.

SECTION 3. (a) The improvements hereby authorized and purposes for the financing of which said obligations are to be issued are for exterior building and grounds improvements along Rooney Circle. The improvements shall also include, as applicable, all work, materials, equipment, labor and appurtenances as necessary therefor or incidental thereto.

(b) The estimated maximum amount of bonds or notes to be issued for said improvements or purposes is \$2,066,840.

(c) The estimated cost of said improvements or purposes is \$2,170,000, the excess amount thereof over the said estimated maximum amount of bonds or notes to be issued therefor is the amount of \$103,160 appropriated for the down payment for said improvements or purposes from the Township's Capital Improvement Fund.

SECTION 4. In the event the United States of America, the State of New Jersey, and/or the County of Essex make a contribution or grant in aid to the Township for the improvements and purposes authorized hereby and the same shall be received by the Township prior to the issuance of the bonds or notes authorized in Section 2 hereof, then

the amount of such bonds or notes to be issued shall be reduced by the amount so received from the United States of America, the State of New Jersey, and/or the County of Essex. In the event, however, that any amount so contributed or granted by the United States of America, the State of New Jersey, and/or the County of Essex shall be received by the Township after the issuance of the bonds or notes authorized in Section 2 hereof, then such funds shall be applied to the payment of the bonds or notes so issued and shall be used for no other purpose. This Section 4 shall not apply, however, with respect to any contribution or grant in aid received by the Township as a result of using funds from this bond ordinance as "matching local funds" to receive such contribution or grant in aid.

SECTION 5. All bond anticipation notes issued hereunder shall mature at such times as may be determined by the Chief Financial Officer of the Township (the "Chief Financial Officer"), provided that no note shall mature later than one (1) year from its date. The notes shall bear interest at such rate or rates and be in such form as may be determined by the Chief Financial Officer. The Chief Financial Officer shall determine all matters in connection with the notes issued pursuant to this bond ordinance, and the signature of the Chief Financial Officer upon the notes shall be conclusive evidence as to all such determinations. All notes issued hereunder may be renewed from time to time in accordance with the provisions of N.J.S.A. 40A:2-8.1 of the Local Bond Law. The Chief Financial Officer is hereby authorized to sell part or all of the notes from time to time at a public or private sale and to deliver them to the purchaser thereof upon receipt of payment of the purchase price and accrued interest thereon from their dates to the date of delivery thereof. The Chief Financial Officer is directed to report in writing to the governing body at the meeting next succeeding the date when any sale or delivery of the notes pursuant to

this bond ordinance is made. Such report must include the principal amount, the description, the interest rate, the maturity schedule of the notes so sold, the price obtained and the name of the purchaser.

SECTION 6. The Township hereby certifies that it has adopted a capital budget or a temporary capital budget of the Township, as applicable. The capital budget or temporary capital budget, as applicable, of the Township is hereby amended to conform with the provisions of this bond ordinance to the extent of any inconsistency herewith. To the extent that the purposes authorized herein are inconsistent with the adopted capital or temporary capital budget, a revised capital or temporary capital budget has been filed with the Division of Local Government Services.

SECTION 7. The following additional matters are hereby determined, declared, recited and stated:

(a) The improvements and purposes described in Section 3 of this bond ordinance are not current expenses and are improvements and purposes which the Township may lawfully undertake as general improvements and no part of the cost thereof has been or shall be specially assessed on property specially benefited thereby.

(b) The period of usefulness of said improvements or purposes, computed on the basis of the amount of obligations authorized for the improvements set forth herein and the reasonable life thereof in accordance with the limitations set forth in the Local Bond Law, is 15 years.

(c) The supplemental debt statement required by the Local Bond Law has been duly made and filed in the Office of the Clerk of the Township and a complete executed duplicate thereof has been filed in the Office of the Director of the Division of

Local Government Services, Department of Community Affairs, State of New Jersey, and such statement shows that the gross debt of the Township, as defined in the Local Bond Law, is increased by the authorization of the bonds or notes provided for in this bond ordinance by \$2,066,840 and the said obligations authorized by this bond ordinance will be within all debt limitations prescribed by said Local Bond Law.

(d) An amount not exceeding \$170,000 for items of expense listed in and permitted under N.J.S.A. 40A:2-20 of the Local Bond Law is included in the estimated cost indicated herein for the purposes or improvements herein before described.

SECTION 8. The full faith and credit of the Township are hereby pledged to the punctual payment of the principal of and the interest on the bonds or notes authorized by this bond ordinance. The bonds and notes authorized in this bond ordinance shall be direct, unlimited obligations of the Township and, unless paid from other sources, the Township shall be obligated to levy *ad valorem* taxes upon all the taxable property within the Township for the payment of the principal of the bonds or notes and the interest thereon without limitation as to rate or amount.

SECTION 9. The Township reasonably expects to reimburse any expenditures toward the costs of the improvements or purposes described in Section 3 hereof and paid prior to the issuance of any bonds or notes authorized by this bond ordinance with the proceeds of such bonds or notes. This Section 9 is intended to be and hereby is a declaration of the Township's official intent to reimburse any expenditures toward the costs of the improvements or purposes described in Section 3 hereof to be incurred and paid prior to the issuance of bonds or notes authorized herein in accordance with Treasury Regulation Section 1.150-2.

SECTION 10. The Chief Financial Officer is hereby authorized to prepare and to update from time to time as necessary a financial disclosure document to be distributed in connection with the sale of the obligations of the Township authorized herein and to execute such disclosure document on behalf of the Township. The Chief Financial Officer is further authorized to enter into the appropriate undertaking to provide secondary market disclosure on behalf of the Township pursuant to Rule 15c2-12 of the Securities and Exchange Commission (the "Rule") for the benefit of holders and beneficial owners of the obligations of the Township, which are authorized herein, and to amend such undertaking from time to time in connection with any change in law, or interpretation thereof, provided such undertaking is and continues to be, in the opinion of a nationally recognized bond counsel, consistent with the requirements of the Rule. In the event that the Township fails to comply with its undertaking, the Township shall not be liable for any monetary damages, and the remedy shall be limited to specific performance of the undertaking.

SECTION 11. The Township covenants to maintain the exclusion from gross income under Section 103(a) of the Internal Revenue Code of 1986, as amended, of the interest on all bonds and notes issued on a tax-exempt basis under this bond ordinance.

SECTION 12. This bond ordinance shall take effect twenty (20) days after the first publication hereof after final adoption, as provided by the Local Bond Law.

**BE IT ORDAINED AND ENACTED BY THE TOWNSHIP COUNCIL OF THE
TOWNSHIP OF WEST ORANGE, IN THE COUNTY OF ESSEX, STATE OF NEW
JERSEY (not less than two-thirds of all the members thereof affirmatively concurring), AS
FOLLOWS:**

SECTION 1. The improvements or purposes described in Section 3 of this bond ordinance are hereby authorized as general improvements to be undertaken by the Township of West Orange, in the County of Essex, State of New Jersey (the "Township"). For the said improvements or purposes stated in Section 3 hereof, there is hereby appropriated the amount of \$635,000, said amount being inclusive of down payments in the amount of \$29,400 (the "Down Payments") for said improvements or purposes as required by the Local Bond Law of the State of New Jersey, as amended and supplemented (N.J.S.A. 40A:2-1 et seq.) (the "Local Bond Law"), which Down Payments are now available from the Township's Capital Improvement Fund by virtue of a provision or provisions in a previously adopted budget or budgets of the Township for down payment or capital improvement purposes.

SECTION 2. For the financing of said improvements or purposes described in Section 3 hereof and to meet part of said \$635,000 appropriation not provided

for by said Down Payments, negotiable bonds of the Township are hereby authorized to be issued in the aggregate principal amount not exceeding \$605,600 pursuant to, and within the limitations prescribed by, the Local Bond Law. In anticipation of the issuance of said bonds and to temporarily finance said improvements or purposes, negotiable notes of the Township in an aggregate principal amount not exceeding \$605,600 are hereby authorized to be issued pursuant to, and within the limitations prescribed by, said Local Bond Law.

SECTION 3. (a) The improvements hereby authorized and purposes for the financing of which said obligations are to be issued include, but are not limited to, as follows:

<u>Description</u>	<u>Appropriation</u>	<u>Authorization</u>	<u>Down Payment</u>	<u>Useful Life</u>
(i) Improvements and repairs to the Lando Parking Lot, including, but not limited to, milling, paving, line painting, striping, signage, new curbs, base repair and driveway aprons;	\$ 425,000	\$ 405,000	\$ 20,000	10 years
(ii) Purchase and installation of calming measures, including, but not limited to, signs, striping and LED high visibility lights along Kelly Drive;	\$ 75,000	\$ 72,000	\$ 3,000	7 years
(iii) Improvements and repairs to Dogwood Drive at Boland Park including, but not limited to, milling, paving, line painting, striping, signage, new curbs, base repair, and driveway aprons; and	\$ 85,000	\$ 81,000	\$ 4,000	10 years
(iv) Section 20 Expenses.	<u>\$ 50,000</u>	<u>\$ 47,600</u>	<u>\$ 2,400</u>	
TOTALS:	<u>\$ 635,000</u>	<u>\$ 605,600</u>	<u>\$ 29,400</u>	

(b) The improvements and purposes set forth in Section 3(a) above shall also include, as applicable, all engineering and design work, surveying, construction management services, construction planning, preparation of plans and specifications,

permits, bid documents, construction inspection and contract administration, environmental testing and remediation, and all work, materials, equipment, labor and appurtenances necessary therefor or incidental thereto.

(c) The estimated maximum amount of bonds or notes to be issued by the Township for said improvements and purposes is \$605,000.

(d) The estimated cost of said improvements and purposes is \$635,000, the excess amount thereof over the estimated maximum amount of bonds or notes to be issued therefor is the amount of \$29,400 appropriated for the Down Payments for said improvements and purposes from the Township's Capital Improvement Fund.

SECTION 4. In the event the United States of America, the State of New Jersey, and/or the County of Essex make a contribution or grant in aid to the Township for the improvements and purposes authorized hereby and the same shall be received by the Township prior to the issuance of the bonds or notes authorized in Section 2 hereof, then the amount of such bonds or notes to be issued shall be reduced by the amount so received from the United States of America, the State of New Jersey, and/or the County of Essex. In the event that any amount so contributed or granted by the United States of America, the State of New Jersey, and/or the County of Essex shall be received by the Township after the issuance of the bonds or notes authorized in Section 2 hereof, then such funds shall be applied to the payment of the bonds or notes so issued and shall be used for no other purpose. This Section 4 shall not apply, however, with respect to any contribution or grant in aid received by the Township as a result of using funds from this bond ordinance as "matching local funds" to receive such contribution or grant in aid.

SECTION 5. All bond anticipation notes issued hereunder shall mature at such times as may be determined by the Chief Financial Officer of the Township (the "Chief

Financial Officer”), provided that no note shall mature later than one (1) year from its date. The notes shall bear interest at such rate or rates and be in such form as may be determined by the Chief Financial Officer. The Chief Financial Officer shall determine all matters in connection with the notes issued pursuant to this bond ordinance, and the signature of the Chief Financial Officer upon the notes shall be conclusive evidence as to all such determinations. All notes issued hereunder may be renewed from time to time in accordance with the provisions of N.J.S.A. 40A:2-8.1 of the Local Bond Law. The Chief Financial Officer is hereby authorized to sell part or all of the notes from time to time at a public or private sale and to deliver them to the purchaser thereof upon receipt of payment of the purchase price and accrued interest thereon from their dates to the date of delivery thereof. The Chief Financial Officer is directed to report in writing to the governing body at the meeting next succeeding the date when any sale or delivery of the notes pursuant to this bond ordinance is made. Such report must include the principal amount, the description, the interest rate, the maturity schedule of the notes so sold, the price obtained and the name of the purchaser.

SECTION 6. The Township hereby certifies that it has adopted a capital budget or a temporary capital budget of the Township, as applicable. The capital budget or temporary capital budget, as applicable, of the Township is hereby amended to conform with the provisions of this bond ordinance to the extent of any inconsistency herewith. To the extent that the purposes authorized herein are inconsistent with the adopted capital or temporary capital budget, a revised capital or temporary capital budget has been filed with the Division of Local Government Services.

SECTION 7. The following additional matters are hereby determined, declared, recited and stated:

(a) The improvements and purposes described in Section 3 of this bond ordinance are not current expenses and are improvements and purposes which the Township may lawfully undertake as general improvements and no part of the cost thereof has been or shall be specially assessed on property specially benefited thereby.

(b) The average period of usefulness of said improvements or purposes, computed on the basis of the respective amounts of obligations authorized for each purpose and the reasonable life thereof in accordance with the limitations set forth in the Local Bond Law, is 9.61 years.

(c) The supplemental debt statement required by the Local Bond Law has been duly made and filed in the Office of the Clerk of the Township and a complete executed duplicate thereof has been filed in the Office of the Director of the Division of Local Government Services in the Department of Community Affairs of the State of New Jersey, and such statement shows that the gross debt of the Township as defined in the Local Bond Law is increased by the authorization of the bonds or notes provided for in this bond ordinance by \$605,600. The obligations authorized by this bond ordinance will be within all debt limitations prescribed by said Local Bond Law.

(d) An amount not exceeding \$50,000 for items of expense listed in and permitted under N.J.S.A. 40A:2-20 of the Local Bond Law is included in the estimated cost indicated herein for the purposes and improvements described in Section 3 hereof.

SECTION 8. The full faith and credit of the Township are hereby pledged to the punctual payment of the principal of and the interest on the obligations authorized by this bond ordinance. The obligations shall be direct, unlimited obligations of the Township and, unless paid from other sources, the Township shall be obligated to levy *ad valorem*

taxes upon all the taxable property within the Township for the payment of the principal of the obligations and the interest thereon without limitation as to rate or amount.

SECTION 9. The Township reasonably expects to reimburse any expenditures toward the costs of the improvements or purposes described in Section 3 hereof and paid prior to the issuance of any bonds or notes authorized by this bond ordinance with the proceeds of such bonds or notes. This Section 9 is intended to be and hereby is a declaration of the Township's official intent to reimburse any expenditure toward the costs of the improvements or purposes described in Section 3 hereof to be incurred and paid prior to the issuance of bonds or notes authorized herein in accordance with Treasury Regulation Section 1.150-2.

SECTION 10. The Chief Financial Officer is hereby authorized to prepare and to update from time to time as necessary a financial disclosure document to be distributed in connection with the sale of the obligations of the Township authorized herein and to execute such disclosure document on behalf of the Township. The Chief Financial Officer is further authorized to enter into the appropriate undertaking to provide secondary market disclosure on behalf of the Township pursuant to Rule 15c2-12 of the Securities and Exchange Commission (the "Rule") for the benefit of holders and beneficial owners of the obligations of the Township, which are authorized herein, and to amend such undertaking from time to time in connection with any change in law, or interpretation thereof, provided such undertaking is and continues to be, in the opinion of a nationally recognized bond counsel, consistent with the requirements of the Rule. In the event that the Township fails to comply with its undertaking, the Township shall not be liable for any monetary damages, and the remedy shall be limited to specific performance of the undertaking.

SECTION 11. The Township covenants to maintain the exclusion from gross income under Section 103(a) of the Internal Revenue Code of 1986, as amended, of the interest on all bonds and notes issued on a tax-exempt basis under this bond ordinance.

SECTION 12. This bond ordinance shall take effect twenty (20) days after the first publication of the notice of final adoption of this bond ordinance, as provided by the Local Bond Law.

The representations made herein are based upon the records of the Township. I DO HEREBY FURTHER CERTIFY THAT:

(1) Attached hereto is the bond ordinance introduced on April 8, 2025 and finally adopted on April 22, 2025 by the Township Council of the Township and approved by the Mayor on _____, 2025.

(2) After introduction, the bond ordinance was published as required by law on _____ in the (name of newspaper).

(3) Following the passage of the bond ordinance on first reading, and at least seven (7) days prior to the final adoption thereof, I caused to be posted in the principal municipal building of the Township at the place where public notices are customarily posted, a copy of said bond ordinance or a summary thereof and a notice that copies of the bond ordinance would be made available to the members of the general public of the Township who requested copies, up to and including the time of further consideration of the bond ordinance by the governing body of the Township. Copies of the bond ordinance were made available to all who requested same.

(4) After final passage, the bond ordinance was duly approved by the Mayor on _____, 2025 and was duly published as required by law on _____, 2025 in (name of newspaper). No protest signed by any person against making any improvement or incurring the indebtedness authorized therein, nor any petition requesting that a referendum vote be taken on the action proposed in the bond ordinance has been presented to the governing body of the Township or to me or filed in my office within twenty (20) days after said publication or at any other time after the final passage thereof.

(5) The bond ordinance has not been amended, added to, altered or repealed and said bond ordinance is now in full force and effect.

(6) A certified copy of the bond ordinance and a copy of the amended capital or temporary capital budget form have been filed with the Director of the Division of Local Government Services in the New Jersey Department of Community Affairs, as applicable.

(7) The official seal of the Township is affixed, imprinted or reproduced opposite my signature on this Certificate.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed, imprinted or reproduced the official seal of the Township as of this _____ day of _____, 2025.

(SEAL)

KAREN J. CARNEVALE,
Clerk of the Township of West Orange

**TOWNSHIP COUNCIL OF THE TOWNSHIP OF WEST ORANGE
IN THE COUNTY OF ESSEX, NEW JERSEY**

**CERTIFICATE OF SUPPLEMENTAL DEBT STATEMENT
FOR BOND ORDINANCE**

I, the undersigned Clerk of the Township of West Orange, in the County of Essex, State of New Jersey (the "Township"), DO HEREBY CERTIFY, that the attached Supplemental Debt Statement was prepared, executed and sworn to by John Ditinyak, the Chief Financial Officer of the Township, as of April 8, 2025, that such Supplemental Debt Statement was filed in my office on or prior to April 8, 2025 and with the Director of the Division of Local Government Services in the New Jersey Department of Community Affairs on _____, 2025.

**KAREN J. CARNEVALE,
Clerk of the Township of West Orange**

DOWN PAYMENT CERTIFICATE

I, the undersigned Chief Financial Officer of the Township of West Orange, in the County of Essex, State of New Jersey (the "Township"), DO HEREBY CERTIFY that prior to final adoption of the bond ordinance entitled,

"BOND ORDINANCE PROVIDING FOR VARIOUS 2025 CAPITAL ACQUISITIONS AND IMPROVEMENTS, BY AND IN THE TOWNSHIP OF WEST ORANGE, IN THE COUNTY OF ESSEX, STATE OF NEW JERSEY, APPROPRIATING \$635,000 THEREFOR AND AUTHORIZING THE ISSUANCE OF \$605,600 BONDS OR NOTES OF THE TOWNSHIP TO FINANCE PART OF THE COST THEREOF"

there was available down payments for the improvements or purposes authorized by said bond ordinance the aggregate amount of \$29,400 (the "Down Payments"), which Down Payments are now available from the Township's Capital Improvement Fund by virtue of a provision or provisions in a previously adopted budget or budgets of the Township for down payment or capital improvement purposes.

IN WITNESS WHEREOF, I have hereunto set my hand on behalf of the Township as of this _____ day of _____, 2025.

JOHN DITINYAK,
Chief Financial Officer

**AN ORDINANCE AMENDING AND SUPPLEMENTING CHAPTER 25, SECTION 29
OF THE REVISED GENERAL ORDINANCES OF THE TOWNSHIP OF WEST
ORANGE BASED ON RECOMMENDATIONS OF THE NEW JERSEY
STORMWATER BEST MANAGEMENT PRACTICES MANUAL**

BE IT ORDAINED BY THE MUNICIPAL COUNCIL OF THE TOWNSHIP OF WEST ORANGE, NEW JERSEY that Chapter 25, Section 29 *et seq.*, requires amendments based on the recommendations from the New Jersey Stormwater Management Practices Manual as follows:

§ 25-29.1—Scope and Purpose:

A. Policy Statement

Flood control, groundwater recharge, and pollutant reduction shall be achieved using stormwater management measures, including green infrastructure Best Management Practices (GI BMPs) and nonstructural stormwater management strategies, **and preservation of existing mature trees as per §25-27 of the Township Code**. GI BMPs and low impact development (LID) should be utilized to meet the goal of maintaining natural hydrology to reduce stormwater runoff volume, reduce erosion, encourage infiltration and groundwater recharge, and reduce pollution. GI BMPs and LID should be developed based upon physical site conditions and the origin, nature and the anticipated quantity, or amount, of potential pollutants. Multiple stormwater management BMPs may be necessary to achieve the established performance standards for water quality, quantity, and groundwater recharge.

GI BMPs and LID practices not only address stormwater runoff but may also result in multiple benefits, including providing open space and beautifying neighborhoods, cooling and cleansing the air, reducing asthma and heat-related illnesses, and saving on heating and cooling energy costs.

B. Purpose

The purpose of this ordinance is to establish minimum stormwater management requirements and controls for “major development,” and **“minor development”** as defined below in **§ 25-29.2**.

C. Applicability: **This Ordinance shall be applicable to all zones throughout the Township of West Orange.**

1. This ordinance shall be applicable to the following major developments:

- a. Non-residential major developments; and
- b. All residential major developments **that are not pre-empted by the Residential Site Improvement Standards at N.J.A.C. 5:21.**

c. All redevelopment as defined in § 25-29.2

2. This ordinance shall be applicable to minor developments as defined in § 25-29.2.

This ordinance shall also be applicable to all major and minor developments undertaken by Township of West Orange, the State of New Jersey or any political subdivision of the state unless specifically exempt by statute, regulations, rule or ordinance.

3. An application required by ordinance pursuant to C.1 above that has been submitted prior to the adoption of this Ordinance, shall be subject to the stormwater management requirements in effect on one (1) day prior to the adoption date of this ordinance.
4. An application required by ordinance for approval pursuant to C.1 above that has been submitted on or after March 2, 2021, but prior to the adoption of this Ordinance, shall be subject to the stormwater management requirements in effect on one (1) day prior to the adoption date of this ordinance.
5. Notwithstanding any rule to the contrary, a major development for any public roadway or railroad project conducted by a public transportation entity that has determined a preferred alternative or reached an equivalent milestone before July 17, 2023, shall be subject to the stormwater management requirements in effect prior to July 17, 2023.

D. Compatibility with Other Permit and Ordinance Requirements

Development approvals issued pursuant to this ordinance are to be considered an integral part of development approvals and do not relieve the applicant of the responsibility to secure required permits or approvals for activities regulated by any other applicable code, rule, act, or ordinance. In their interpretation and application, the provisions of this ordinance shall be held to be the minimum requirements for the promotion of the public health, safety, and general welfare.

This ordinance is not intended to interfere with, abrogate, or annul any other ordinances, rule or regulation, statute, or other provision of law except that, where any provision of this ordinance imposes restrictions different from those imposed by any other ordinance, rule or regulation, or other provision of law, the more restrictive provisions or higher standards shall control.

§ 25-29.2—Definitions:

For this ordinance, the following terms, phrases, words and their derivations shall have the meanings stated herein unless their use in the text of this Chapter clearly demonstrates a different meaning. When not inconsistent with the context, words used in the present tense include the future, words used in the plural number include the singular number, and words used in the singular number include the plural number. The word "shall" is always mandatory and not merely directory. The definitions below are the same as or based on the corresponding definitions in the Stormwater Management Rules at N.J.A.C. 7:8-1.2.

“CAFRA Centers, Cores or Nodes” means those areas with boundaries incorporated by reference or revised by the Department in accordance with N.J.A.C. 7:7-13.16.

“CAFRA Planning Map” means the map used by the Department to identify the location of Coastal Planning Areas, CAFRA centers, CAFRA cores, and CAFRA nodes. The CAFRA Planning Map is available on the Department's Geographic Information System (GIS).

“Category One Waters (C1)” means waters of the state designated in N.J.A.C. 7:9B-1.15(c) through (h) for purposes of implementing the anti-degradation policies set forth at N.J.A.C. 7:9B-1.5(d) for protection from measurable changes in water quality characteristics because of their clarity, color, scenic setting, other characteristics of aesthetic value, exceptional ecological significance, exceptional recreational significance, exceptional water supply significance, or exceptional fisheries resources(s).

“Community basin” means an infiltration system, sand filter designed to infiltrate, standard constructed wetland, or wet pond, established in accordance with N.J.A.C. 7:8-4.2(c)14, that is designed and constructed in accordance with the New Jersey Stormwater Best Management Practices Manual, or an alternate design, approved in accordance with N.J.A.C. 7:8-5.2(g), for an infiltration system, sand filter designed to infiltrate, standard constructed wetland, or wet pond and that complies with the requirements of this chapter.

“Compaction” means the increase in soil bulk density that reduces the soil's infiltration rate.

“Contributory drainage area” means the area from which stormwater runoff drains to a stormwater management measure, not including the area of the stormwater management measure itself.

“Core” means a pedestrian-oriented area of commercial and civic uses serving the surrounding municipality, generally including housing and access to public transportation.

“Core forest” means any forest as defined below, that has some portion of at least 330 feet from the edges of the total forest area.

“County review agency” means an agency designated by the County Commissioners to review municipal stormwater management plans and implementing ordinance(s). The county review agency may either be:

1. A county planning agency or
2. A county water resource association created under N.J.S.A 58:16A-55.5, if the ordinance or resolution delegates authority to approve, conditionally approve, or disapprove municipal stormwater management plans and implementing ordinances.

“Department” means the Department of Environmental Protection.

“Designated Center” means a State Development and Redevelopment Plan Center as designated by the State Planning Commission such as urban, regional, town, village, or hamlet.

“Design engineer” means a person professionally qualified and duly licensed in New Jersey to perform engineering services that may include, but not necessarily be limited to, development of project requirements, creation and development of project design and preparation of drawings and specifications.

“Development” means the division of a parcel of land into two or more parcels, the construction, reconstruction, conversion, structural alteration, relocation or enlarge-enlargement of any building or structure, any mining excavation or landfill, and any use or change in the use of any building or other structure, or land or extension of use of land, for which permission is required under the Municipal Land Use Law, N.J.S.A. 40:55D-1 *et seq.* For purposes of this ordinance, “development” shall include any redevelopment of a parcel.

In the case of development of agricultural land, development means: any activity that requires a state permit, any activity reviewed by the County Agricultural Board (CAB) and the State Agricultural Development Committee (SADC), and municipal review of any activity not exempted by the Right to Farm Act, N.J.S.A 4:1C-1 *et seq.*

“Disturbance” means the placement or reconstruction of impervious surface or motor vehicle surface, or exposure and/or movement of soil or bedrock or clearing, cutting, or removing of vegetation. Milling and repaving is not considered disturbance for the purposes of this definition.

“Drainage area” means a geographic area within which stormwater, sediments, or dissolved materials drain to a particular receiving waterbody or to a particular point along a receiving waterbody.

“Environmentally constrained area” means the following areas where the physical alteration of the land is in some way restricted, either through regulation, easement, deed restriction or ownership such as: wetlands, floodplains, threatened and endangered species sites or designated habitats, and parks and preserves. Habitats of endangered or threatened species are identified using the Department's Landscape Project as approved by the Department's Endangered and Nongame Species Program.

“Environmentally critical area” means an area or feature which is of significant environmental value, including but not limited to: stream corridors, natural heritage priority sites, habitats of endangered or threatened species, large areas of contiguous open space or upland forest, steep slopes, and well head protection and groundwater recharge areas. Habitats of endangered or threatened species are identified using the Department's Landscape Project as approved by the Department's Endangered and Nongame Species Program.

"Empowerment Neighborhoods" means neighborhoods designated by the Urban Coordinating Council "in consultation and conjunction with" the New Jersey Redevelopment Authority pursuant to N.J.S.A 55:19-69.

"Erosion" means the detachment and movement of soil or rock fragments by water, wind, ice, or gravity.

"Forest" means a wooded area having an ecosystem typically consisting of a thick growth of trees and plants that has occurred through natural succession or reforestation, that exhibits or normally exhibits a contiguous tree canopy of greater than either 200 feet in width in any direction or one acre in area. The term "forest" shall include but not be limited to "core forest" as defined above.

"Green infrastructure" ▼

Deleted: means a stormwater management measure that manages stormwater close to its source by:...

A. Those processes of the land to manage and retain Stormwater. Stormwater management measures that manage stormwater close to its source by:

1. Treating stormwater runoff through infiltration into subsoil;
2. Treating stormwater runoff through filtration by vegetation or soil; or
3. Storing stormwater runoff for reuse.

B. Examples of Green Infrastructure include but are not limited to rain gardens, green roofs, permeable pavement; bio infiltration basins, cisterns, or vegetated swales.

"Groundwater" means a body of water below the surface of the land in a zone of saturation where the spaces between the soil or geological materials are fully saturated with water.

"HUC 14" or "hydrologic unit code 14" means an area within which water drains to a particular receiving surface water body, also known as a sub watershed, which is identified by a 14-digit hydrologic unit boundary designation, delineated within New Jersey by the United States Geological Survey.

"Impaired water" means a surface water listed in the New Jersey Department of Environmental Protection Integrated Water Quality Assessment Report as failing to meet one or more designated uses or not meeting the standards set out in the Surface Water Quality Standards at N.J.A.C. 7:9B et seq.

"Impervious surface" means a surface that has been covered with a layer of material so that it is highly resistant to infiltration by water. Impervious surfaces include and are not limited to roofs, asphalt, concrete, some stone roads, parking lots, driveways, sidewalks, porous asphalt or porous concrete systems, synthetic turf fields, pools, and patios.

"Infiltration" is the process by which water seeps into the soil from precipitation.

"Lead planning agency" means one or more public entities having stormwater management planning authority designated by the regional stormwater management

planning committee pursuant to N.J.A.C. 7:8-3.2, that serves as the primary representative of the committee.

“Low impact development techniques” means Using strategies and measures that manage stormwater runoff quantity and quality in the absence of structural stormwater measures, such as minimizing site disturbance, preserving natural vegetation and other important site features such as forests and especially core forests, reducing and disconnecting impervious cover, minimizing proposed ground slopes, using native vegetation, minimizing turf grass lawns, revegetating areas, increasing time of concentration, and maintaining and enhancing natural drainage features and characteristics.

“Maintenance plan” means a document required for the maintenance of stormwater management measures at all major and minor development projects. A Maintenance Plan shall contain a specific preventive maintenance tasks and schedules; cost estimates, including estimated cost of sediment, debris, or trash removal; and the name, address, and telephone number of the person or persons responsible for preventive and corrective maintenance including replacement.

“Major development” means an individual “development,” including redevelopment, as well as multiple developments that individually or collectively result in:

1. The disturbance of ~~0.5~~ acre of land since February 2, 2004;
2. The creation of ~~5,000 square feet~~ or more of “regulated impervious surface” since February 2, 2004.
3. The creation of ~~5,000 square~~ feet or more of “regulated motor vehicle surface” since March 2, 2021, or
4. A combination of 2 and 3 above that totals an area of ~~5,000 square feet~~ or more. The same surface shall not be counted twice when determining if the combination area equals one-quarter acre or more.

Deleted: of one or more

Deleted: one-quarter acre

Deleted: one-quarter acre

Deleted: one-quarter acre

Major development includes all developments that are part of a common plan of development or sale (for example, phased residential development) that collectively or individually meet any one or more of paragraphs 1, 2, 3, or 4 above. Projects undertaken by any government agency that otherwise meet the definition of “major development,” but which do not require approval under the Municipal Land Use Law, N.J.S.A. 40:55D-1 et seq., are also considered “major development.”

“Minor development” means any development that results in a new dwelling and/or the construction of any site improvements that result in an increase in impervious cover by 400 square feet that results in an increase of stormwater runoff but does not meet the definition of a major development.

“Motor vehicle” means land vehicles propelled other than by muscular power, such as automobiles, motorcycles, autocycles, and low speed vehicles. For the purposes of this definition, motor vehicle does not include farm equipment, snowmobiles, all-

terrain vehicles, motorized wheelchairs, go-carts, gas buggies, golf carts, ski-slope grooming machines, or vehicles that run only on rails or tracks.

“Motor vehicle surface” means any pervious or impervious surface that is intended to be used by “motor vehicles” and/or aircraft, and is directly exposed to precipitation including, but not limited to, driveways, parking areas, parking garages, roads, race-tracks, and runways.

“Municipality” means any city, borough, town, township, or village.

“New Jersey Stormwater Best Management Practices (BMP) Manual” or “BMP Manual” means the manual maintained by the Department providing, in part, design specifications, removal rates, calculation methods, and soil testing procedures approved by the Department as being capable of contributing to the achievement of the stormwater management standards specified in this chapter. The BMP Manual is periodically amended by the Department as necessary to provide design specifications on additional best management practices and new information on already included practices reflecting the best available current information regarding the practice and the Department’s determination as to the ability of that best management practice to contribute to compliance with the standards contained in this chapter. Alternative stormwater management measures, removal rates, or calculation methods may be utilized, subject to any limitations specified in this chapter, provided the design engineer demonstrates to the municipality, in accordance with **§ 25-29.4f.** of this ordinance and N.J.A.C. 7:8-5.2(g), that the proposed measure and its design will contribute to achievement of the design and performance standards established by this chapter.

“Node” means an area designated by the State Planning Commission concentrating facilities and activities which are not organized in a compact form.

“Nutrient” means a chemical element or compound, such as nitrogen or phosphorus, which is essential to and promotes the development of organisms.

“Nutrient load” means the total amount of a nutrient entering a surface or groundwater resource during a given time. Nutrients may enter the water resource from runoff, recharge, point source discharges, or the atmosphere in the form of wet and/or dry deposition.

“Person” means any individual, corporation, company, partnership, firm, association, political subdivision of this State and any state, interstate or Federal agency.

“Pervious surface” means a surface that is capable of transmitting or infiltrating a significant amount of precipitation into underlying material.

“Pollutant” means any dredged spoil, solid waste, incinerator residue, filter backwash, sewage, garbage, refuse, oil, grease, sewage sludge, munitions, chemical wastes, biological materials, medical wastes, radioactive substance (except those regulated under the Atomic Energy Act of 1954, as amended (42 U.S.C. §§ 2011 *et seq.*)), thermal waste, wrecked or discarded equipment, rock, sand, cellar dirt, industrial,

municipal, agricultural, and construction waste or runoff, or other residue discharged directly or indirectly to the land, ground waters or surface waters of the State, or to a domestic treatment works. "Pollutant" includes both hazardous and nonhazardous pollutants.

"Previously Developed" means those portions of a site covered by pavement, gravel, or dirt driveways, streets, roads and parking areas, gravel, pavement, buildings, impervious surfaces, lawns, or structures. Areas that simply have been (or have once been) cleared or vegetation are not considered previously developed if woody vegetation has been reestablished. Only those portions of a site that have been previously developed are exempt from the groundwater recharge requirements.

"Public roadway or railroad" means a pathway for use by motor vehicles or trains that is intended for public use and is constructed by, or on behalf of, a public transportation entity. A public roadway or railroad does not include a roadway or railroad constructed as part of a private development, regardless of whether the roadway or railroad is ultimately to be dedicated to and/or maintained by a governmental entity.

"Public transportation entity" means a Federal, State, county, or municipal government, an independent State authority, or a statutorily authorized public-private partnership program pursuant to P.L. 2018, c. 90 (N.J.S.A. 40A:11-52 et seq.), that performs a public roadway or railroad project that includes new construction, expansion, reconstruction, or improvement of a public roadway or railroad.

"Recharge" means the amount of water from precipitation that infiltrates into the ground and is not evapotranspired.

"Redevelopment" means an activity that results in the creation, addition, or replacement of impervious surface area on an already developed site. Redevelopment includes but is not limited to the expansion of a building footprint; addition or replacement of a structure or a portion of a structure regardless of footprint; and replacement of impervious surface area that is not part of a routine maintenance activity. If a project is a redevelopment project, all new impervious cover, whether created by adding to or replacing impervious cover that was in existence before the redevelopment occurs, shall be considered in calculating the requirements for stormwater management. However, any such new impervious cover that will drain into an existing stormwater best management practice that is to remain after the redevelopment and that meets current stormwater management requirements shall be deducted from the total amount of impervious surface that must be treated by new stormwater best management practices. In the case of a redevelopment project, the pre-developed land cover shall be wooded.

Note: Routine Maintenance includes but is not limited to parking lot or driveway sealing or milling, roof repairs, replacement of a small number of boards on a deck. Routine Maintenance does not include complete replacement of deck boards or patio material.

“Regulated impervious surface” means any of the following, alone or in combination:

1. A net increase of impervious surface;
2. The total area of impervious surface collected by a new stormwater conveyance system (for the purpose of this definition, a “new stormwater conveyance system” is a stormwater conveyance system that is constructed where one did not exist immediately prior to its construction or an existing system for which a new discharge location is created);
3. The total area of impervious surface proposed to be newly collected by an existing stormwater conveyance system; and/or
4. The total area of impervious surface collected by an existing stormwater conveyance system where the capacity of that conveyance system is increased.

“Regulated motor vehicle surface” means any of the following, alone or in combination:

1. The total area of motor vehicle surface that is currently receiving water;
2. A net increase in motor vehicle surface; and/or
quality treatment either by vegetation or soil, by an existing stormwater management measure, or by treatment at a wastewater treatment plant, where the water quality treatment will be modified or removed.

“Retention standard”/ “retention storm” means retaining onsite through green infrastructure or reuse, one-half of the existing 2-year rainfall for Essex County, multiplied by the projected 2-year storm change factor, as defined in Table 6: entitled “Future Precipitation Change Factors”.

“Sediment” means solid material, mineral or organic, that is in suspension, is being transported, or has been moved from its site of origin by air, water or gravity as a product of erosion.

“Site” means the lot or lots upon which a major development is to occur or has occurred.

“Soil” means all unconsolidated mineral and organic material of any origin.

“Solid and floatable materials” means sediment, debris, trash, and other floating, suspended, or settleable solids.

“State Development and Redevelopment Plan Metropolitan Planning Area (PA1)” means an area delineated on the State Plan Policy Map and adopted by the State Planning Commission that is intended to be the focus for much of the State’s future redevelopment and revitalization efforts.

“State Plan Policy Map” is defined as the geographic application of the State Development and Redevelopment Plan’s goals and statewide policies, and the official map of these goals and policies.

“Stormwater” means water resulting from precipitation (including rain and snow) that runs off the land’s surface, is transmitted to the subsurface, or is captured by separate storm sewers or other sewage or drainage facilities or conveyed by snow removal equipment.

“Stormwater management BMP” means an excavation or embankment and related areas designed to retain stormwater runoff. A stormwater management BMP may either be normally dry (that is, a detention basin or infiltration system), retain water in a permanent pool (a retention basin), or be planted mainly with wetland vegetation (most constructed stormwater wetlands).

“Stormwater management measure” means any practice, technology, process, program, or other method intended to control or reduce stormwater runoff and associated pollutants, or to induce or control the infiltration or groundwater recharge of stormwater or to eliminate illicit or illegal non-stormwater discharges into stormwater conveyances.

“Stormwater runoff” means water flow on the surface of the ground or in storm sewers, resulting from precipitation.

“Stormwater management planning agency” means a public body authorized by legislation to prepare stormwater management plans.

“Stormwater management planning area” means the geographic area for which a stormwater management planning agency is authorized to prepare stormwater management plans, or a specific portion of that area identified in a stormwater management plan prepared by that agency.

“TMDL” means Total Maximum Daily Load formally established pursuant to N.J.S.A 58:11A-7 and 33 U.S.C 12512 et seq. A TMDL is the sum of individual waste load allocations for point sources, load allocations for non-point sources of pollution, other sources such as tributaries or adjacent segments, and allocations to a reserve or margin of safety for an individual permit.

“Tidal Flood Hazard Area” means a flood hazard area in which the flood elevation resulting from the two-, 10-, or 100-year storm, as applicable, is governed by tidal flooding from the Atlantic Ocean. Flooding in a tidal flood hazard area may be contributed to, or influenced by, stormwater runoff from inland areas, but the depth of flooding generated by the tidal rise and fall of the Atlantic Ocean is greater than flooding from any fluvial sources. In some situations, depending upon the extent of the storm surge from a particular storm event, a flood hazard area may be tidal in the 100-year storm, but fluvial in more frequent storm events.

“Township” means the Township of West Orange.

“Urban Coordinating Council Empowerment Neighborhood” means a neighborhood given priority access to State resources through the New Jersey Redevelopment Authority.

“Urban Enterprise Zones” means a zone designated by the New Jersey Enterprise Zone Authority pursuant to the New Jersey Urban Enterprise Zones Act, N.J.S.A. 52:27H-60 et. seq.

“Urban Redevelopment Area” is defined as previously developed portions of areas:

1. Delineated on the State Plan Policy Map (SPPM) as the Metropolitan Planning Area (PA1), Designated Centers, Cores or Nodes;
2. Designated as CAFRA Centers, Cores or Nodes;
3. Designated as Urban Enterprise Zones; and
4. Designated as Urban Coordinating Council Empowerment Neighborhoods.

“Water control structure” means a structure within, or adjacent to, a water, which intentionally or coincidentally alters the hydraulic capacity, the flood elevation resulting from the two-, 10-, or 100-year storm, flood hazard area limit, and/or floodway limit of the water. Examples of a water control structure may include a bridge, culvert, dam, embankment, ford (if above grade), retaining wall, and weir.

“Waters of the State” means the ocean and its estuaries, all springs, streams, wetlands, and bodies of surface or groundwater, whether natural or artificial, within the boundaries of the State of New Jersey or subject to its jurisdiction.

“Wetlands” or “wetland” means an area that is inundated or saturated by surface water or ground water at a frequency and duration sufficient to support, and that under normal circumstances does support, a prevalence of vegetation typically adapted for life in saturated soil conditions, commonly known as hydrophytic vegetation.

Note: Wetlands provide significant benefits to the community including its role in protecting and preserving drinking water supplies including groundwater; protection against flood and storm damage by absorbing and storing water. Wetlands also provide essential breeding, spawning, nesting, and wintering habitats for fish and wildlife

“Woody vegetation” means the growth of any combination of perennial plants that include trees, shrubs, and some vines that have woody stems.

§ 25-29.3—Design and Performance Standards for Stormwater Management Measures

- A. Stormwater management measures for major development shall be designed to provide erosion control, groundwater recharge, stormwater runoff quantity control, and stormwater runoff quality treatment as follows:
 1. The minimum standards for erosion control are those established under the Soil and Sediment Control Act, N.J.S.A. 4:24-39 et seq., and implementing rules at N.J.A.C. 2:90.
 2. The minimum standards for groundwater recharge, stormwater quality, and stormwater runoff quantity shall be met by incorporating green infrastructure.

- B. The standards in this ordinance apply to all major and minor development and are intended to minimize the impact of stormwater runoff on water quality and water quantity in receiving water bodies and maintain groundwater recharge. The standards do not apply to new major development to the extent that alternative design and performance standards are applicable under a regional stormwater management plan or Water Quality Management Plan adopted in accordance with Department rules.

C.

Stormwater management measures for minor development shall be designed to provide erosion control, groundwater recharge and stormwater runoff quantity control through the utilization of green infrastructure techniques as follows:

1. Stormwater management facilities shall be designated to manage 6 inches of rainfall on all new impervious surfaces and meet the standards for runoff quantity and green infrastructure.
2. Soil Testing shall be performed in accordance with the current rules at N.J.A.C. 7:8.
3. The minimum standards for erosion control established under the Soil Erosion and Sediment Control Act, N.J.S.A. 4:24-39 et seq., and implementing rules at N.J.A.C. 2:90 shall be met.
4. Regular and effective maintenance shall be performed for all stormwater management facilities and shall be protected by owner.

Note: Alternative standards shall provide at least as much protection from stormwater-related loss of groundwater recharge, stormwater quantity and water quality impacts of major development projects as would be provided under the standards in N.J.A.C. 7:8-5.

§ 25-29.4—Stormwater Management Requirements for Major Development

- A. The development design shall use Low Impact Development Techniques to achieve the minimum of stormwater runoff that must be managed through green infrastructure and other stormwater management measures. Retention of natural landscape features shall be emphasized in the design.
- B. The development shall incorporate a maintenance plan for the stormwater management measures incorporated into the design of a major development in accordance with **§ 25-29.12**.
- C. Stormwater management measures shall avoid adverse impacts of concentrated flow on habitat for threatened and endangered species as documented in the Department's Landscape Project or Natural Heritage Database established under N.J.S.A. 13:1B-15.147 through 15.150, particularly *Helonias bullata* (swamp pink) and/or *Clemmys muhlenbergi* (bog turtle)
- D. The following linear development projects are exempt from the groundwater recharge, stormwater runoff quality, and stormwater runoff quantity requirements of **§ 25-29.4 Q, R and S**:

1. The construction of an underground utility line, for any pipe size diameter, provided that the disturbed areas are revegetated upon completion;
 2. The construction of an aboveground utility line provided that the existing conditions are maintained to the maximum extent practicable; and
 3. The construction of a public pedestrian access, such as a sidewalk or trail with a maximum width of 14 feet, provided that the access is made of permeable material.
- E. A waiver from strict compliance from the green infrastructure, groundwater recharge, stormwater runoff quality, and stormwater runoff quantity requirements of **§ 25-29.4P, Q, R and S** may be obtained for the enlargement of an existing public roadway or railroad; or the construction or enlargement of a public pedestrian access, provided that the following conditions are met:
1. The applicant demonstrates that there is a public need for the project that cannot be accomplished by any other means;
 2. The applicant demonstrates through an alternatives analysis, that using stormwater management measures, the option selected complies with the requirements of **§ 25-29.4P, Q, R and S** to the maximum extent practicable;
 3. The applicant demonstrates that, to meet the requirements of **§ 25-29.4P, Q, R and S**, existing structures currently in use, such as homes and buildings, would need to be condemned; and
 4. The applicant demonstrates that it does not own or have other rights to areas, including the potential to obtain through condemnation lands not falling under **§ 25-29.4d3** above within the upstream drainage area of the receiving stream, that would provide additional opportunities to mitigate the requirements of **§ 25-29.4P, Q, R and S** that were not achievable onsite.
- F. Tables 1 through 3 below summarize the ability of stormwater best management practices identified and described in the New Jersey Stormwater Best Management Practices Manual to satisfy the green infrastructure, groundwater recharge, stormwater runoff quality and stormwater runoff quantity standards specified in **§ 25-29.4P, Q, R and S**. When designed in accordance with the most current version of the New Jersey Stormwater Best Management Practices Manual, the stormwater management measures found at N.J.A.C. 7:8-5.2 (f) Tables 5-1, 5-2 and 5-3 and listed below in Tables 1, 2 and 3 are presumed to be capable of providing stormwater controls for the design and performance standards as outlined in the tables below. Upon amendments of the New Jersey Stormwater Best Management Practices to reflect additions or deletions of BMPs meeting these standards, or changes in the presumed performance of BMPs designed in accordance with the New Jersey Stormwater BMP Manual, the Department shall publish in the New Jersey Registers a notice of administrative change revising the applicable table. The most current version of the BMP Manual can be found on the Department's website at:

<https://dep.nj.gov/stormwater/bmp-manual/>.

- G. Where the BMP tables in the NJ Stormwater Management Rule are different due to updates or amendments with the tables in this ordinance the BMP Tables in the Stormwater Management rule at N.J.A.C. 7:8-5.2(f) shall take precedence.

Notes to Tables 1, 2, and 3:

- (a) subject to the applicable contributory drainage area limitation specified at **§ 25-29.4P2**;
- (b) designed to infiltrate into the subsoil;
- (c) designed with underdrains;
- (d) designed to maintain at least a 10-foot-wide area of native vegetation along at least 50 percent of the shoreline and to include a stormwater runoff retention component designed to capture stormwater runoff for beneficial reuse, such as irrigation;
- (e) designed with a slope of less than two percent;
- (f) designed with a slope of equal to or greater than two percent;
- (g) manufactured treatment devices that meet the definition of green infrastructure at **§ 25-29.2** ;
- (h) manufactured treatment devices that do not meet the definition of green infrastructure at **§ 25-29.2**

- H. An alternative stormwater management measure, alternative removal rate, and/or alternative method to calculate the removal rate may be used if the design engineer demonstrates the capability of the proposed alternative stormwater management measure and/or the validity of the alternative rate or method to the municipality. A copy of any approved alternative stormwater management measure, alternative removal rate, and/or alternative method to calculate the removal rate shall be provided to the Department in accordance with **§ 25-29.6b**. Alternative stormwater management measures may be used to satisfy the requirements at **§ 25-29.4P** only if the measures meet the definition of green infrastructure at **§ 25-29.2**. Alternative stormwater management measures that function in a similar manner to a BMP listed at **§ 25-29.4P2** are subject to the contributory drainage area limitation specified at **§ 25-29.4P2** for that similarly functioning BMP. Alternative stormwater management measures approved in accordance with this subsection that do not function in a similar manner to any BMP listed at **§ 25-29.4P2** shall have a contributory drainage area less than or equal to 2.5 acres, except for alternative stormwater management measures that function similarly to cisterns, grass swales, green roofs, standard constructed wetlands, vegetative filter strips, and wet ponds, which are not subject to a contributory drainage area limitation. Alternative measures that function similarly to standard constructed wetlands or wet ponds shall not be used for compliance with the stormwater runoff quality standard unless a variance in accordance with N.J.A.C. 7:8-4.6 or a waiver from strict compliance in accordance with **§ 25-29.4E** is granted from **§ 25-29.4P**.
- I. Whenever the stormwater management design includes one or more BMPs that will infiltrate stormwater into subsoil, the design engineer shall assess the hydraulic impact on the groundwater table and design the site, to avoid adverse hydraulic impacts. Potential adverse hydraulic impacts include, but are not limited to, exacerbating a naturally or seasonally high-water table, to cause surficial ponding, flooding of basements, or interference with the proper operation of subsurface sewage disposal systems or other subsurface structures within the zone of influence of the groundwater mound, or interference with the proper functioning of the stormwater management measure itself.
- J. Design standards for stormwater management measures are as follows:
- ~~1.~~ Stormwater management measures shall be designed to take into account the existing site conditions, including, but not limited to, environmentally critical areas; wetlands; flood-prone areas; slopes; depth to seasonal high-water table; soil type, permeability **through soil testing described in Chapter 12 of the NJ BMP manual**, and texture; drainage area and drainage patterns; and the presence of solution-prone carbonate rocks (limestone);
 - ~~1.~~ **2. Stormwater management measures shall be designed and demonstrated not to negatively impact wetlands or watercourses on site or adjacent to the property.**
 - ~~2.~~ **3. Stormwater management measures shall be designed to minimize maintenance, facilitate maintenance and repairs, and ensure proper functioning. Trash racks shall be installed at the intake to the outlet structure, as appropriate,**

and shall have parallel bars with one inch spacing between the bars to the elevation of the water quality design storm. For elevations higher than the water quality design storm, the parallel bars at the outlet structure shall be spaced no greater than one-third the width of the diameter of the orifice or one-third the width of the weir, with a minimum spacing between bars of one inch and a maximum spacing between bars of six inches. In addition, the design of trash racks must comply with the requirements of **§ 25-29.8C**.

- ~~3-~~ 4- Stormwater management measures shall be designed, constructed, and installed to be strong, durable, and corrosion resistant. Measures that are consistent with the relevant portions of the Residential Site Improvement Standards at **N.J.A.C. 5:21-7.3, 7.4, and 7.5** shall be deemed to meet this requirement;
 - ~~4-~~ 5- Stormwater management BMPs shall be designed to meet the minimum safety standards for stormwater management BMPs at **§ 25-29.8**; and
 - ~~5-~~ 6- The size of the orifice at the intake to the outlet from the stormwater management BMP shall be a minimum of two and one-half inches in diameter.
- K. Manufactured treatment devices may be used to meet the requirements of this subchapter, provided the pollutant removal rates are verified by the New Jersey Corporation for Advanced Technology and certified by the Department. Manufactured treatment devices that do not meet the definition of green infrastructure at **§ 25-29.2** may be used only under the circumstances described at **§ 25-29.4P4**.
- L. Any application for a new agricultural development that meets the definition of major development at **§ 25-29.2** shall be submitted to the Soil Conservation District for review and approval in accordance with the requirements at **§ 25-29.4P, Q, R and S** and any applicable Soil Conservation District guidelines for stormwater runoff quantity and erosion control. For purposes of this subsection, "agricultural development" means land uses normally associated with the production of food, fiber, and livestock for sale. Such uses do not include the development of land for the processing or sale of food and the manufacture of agriculturally related products.
- M. If there is more than one drainage area, the groundwater recharge, stormwater runoff quality, and stormwater runoff quantity standards at **§ 25-29.4Q, R and S** shall be met in each drainage area, unless the runoff from the drainage areas converge onsite and no adverse environmental impact would occur as a result of compliance with any one or more of the individual standards being determined utilizing a weighted average of the results achieved for that individual standard across the affected drainage areas.
- N. Any stormwater management measure authorized under the municipal stormwater management plan or ordinance shall be reflected in a deed notice recorded in the } (Essex County Register of Deeds and Mortgages, Hall of Records, 465 Martin Luther King Jr. Boulevard #130, Newark, N.J. 07102. A form of deed notice shall be submitted to the municipality for approval prior to filing. The deed notice shall contain a description of the stormwater management measure(s) used to meet the green infrastructure, groundwater recharge, stormwater runoff quality, and stormwater runoff quantity standards at **§ 25-29.4P, Q, R and S** and shall identify the location of the stormwater management measure(s) in NAD 1983 State Plane New Jersey FIPS

2900 US Feet or Latitude and Longitude in decimal degrees. The deed notice shall also reference the maintenance plan required to be recorded upon the deed pursuant to **§ 25-29.12B5**. Prior to the commencement of construction, proof that the above required deed notice has been filed shall be submitted to the municipality. Proof that the required information has been recorded on the deed shall be in the form of either a copy of the complete recorded document or a receipt from the clerk or other proof of recordation provided by the recording office. However, if the initial proof provided to the municipality is not a copy of the complete recorded document, a copy of the complete recorded document shall be provided to the municipality within 180 calendar days of the authorization granted by the municipality.

- O. A stormwater management measure approved under the municipal stormwater management plan or ordinance may be altered or replaced with the approval of the municipality, if the municipality determines that the proposed alteration or replacement meets the design and performance standards pursuant to **§ 25-29.4** of this ordinance and provides the same level of stormwater management as the previously approved stormwater management measure that is being altered or replaced. If an alteration or replacement is approved, a revised deed notice shall be submitted to the municipality for approval and subsequently recorded with the Essex County Register of Deeds and Mortgages, Hall of Records, 465 Martin Luther King Jr. Boulevard #130, Newark, N.J. 07102 and the Township and shall contain a description and location of the stormwater management measure, as well as reference to the maintenance plan, in accordance with N above. Prior to the commencement of construction, proof that the above required deed notice has been filed shall be submitted to the municipality in accordance with N above.

P. Green Infrastructure Standards

1. This subsection specifies the types of green infrastructure BMPs that may be used to satisfy the groundwater recharge, stormwater runoff quality, and stormwater runoff quantity standards.
2. To satisfy the groundwater recharge and stormwater runoff quality standards at **§ 25-29.4Q and R**, the design engineer shall utilize green infrastructure BMPs identified in Table 1 at **§ 25-29.4G** and/or an alternative stormwater management measure approved in accordance with **§ 25-29.4H**. The following green infrastructure BMPs are subject to the following maximum contributory drainage area limitations:

Best Management Practice	Maximum Contributory Drainage Area
Dry Well	1 acre
Manufactured Treatment Device	2.5 acres
Pervious Pavement Systems	Area of additional inflow cannot exceed three times the area occupied by the BMP
Small-scale Bioretention Systems	2.5 acres

Small-scale Infiltration Basin	2.5 acres
Small-scale Sand Filter	2.5 acres

3. To satisfy the stormwater runoff quantity standards at **§ 25-29.4S**, the design engineer shall utilize BMPs from Table 1 or from Table 2 and/or an alternative stormwater management measure approved in accordance with **§ 25-29.4H**.
4. If a variance in accordance with N.J.A.C. 7:8-4.6 or a waiver from strict compliance in accordance with **§ 25-29.4E** is granted from the requirements of this subsection, then BMPs from Table 1, 2, or 3, and/or an alternative stormwater management measure approved in accordance with **§ 25-29.4H** may be used to meet the groundwater recharge, stormwater runoff quality, and stormwater runoff quantity standards at **§ 25-29.4Q, R and S**.
5. For separate or combined storm sewer improvement projects, such as sewer separation, undertaken by a government agency or public utility (for example, a sewerage company), the requirements of this subsection shall only apply to areas owned in fee simple by the government agency or utility, and areas within a right-of-way or easement held or controlled by the government agency or utility; the entity shall not be required to obtain additional property or property rights to fully satisfy the requirements of this subsection. Regardless of the amount of area of a separate or combined storm sewer improvement project subject to the green infrastructure requirements of this subsection, each project shall fully comply with the applicable groundwater recharge, stormwater runoff quality control, and stormwater runoff quantity standards at **§ 25-29.Q, R, and S**, unless the project is granted a waiver from strict compliance in accordance with **§ 25-29.4E**.

Q. Groundwater Recharge Standards

1. This subsection contains the minimum design and performance standards for groundwater recharge as follows:
2. The design engineer shall, using the assumptions and factors for stormwater runoff and groundwater recharge calculations at **§ 25-29.5**, either:
 - i. Demonstrate through hydrologic and hydraulic analysis that the site and its stormwater management measures maintain 100 percent of the average annual pre-construction groundwater recharge volume for the site; or
 - ii. Demonstrate through hydrologic and hydraulic analysis that the increase of stormwater runoff volume from pre-construction to post-construction for the projected 2-year storm, as defined and determined pursuant to **§ 25-29.5D** of this ordinance is infiltrated.
3. This groundwater recharge requirement does not apply to areas of the project that have been previously developed as defined in **§ 25-29.2** or to groundwater subject to projects within the "urban redevelopment area," or to projects subject to **25-29. Q-4** below. However, groundwater that is not subject to 4 below shall be used to achieve the standards of this section to the maximum

extent practicable in locations where it will meet requirements of this ordinance and will not cause damage to infrastructure or structures.

4. The following types of stormwaters shall not be recharged:

- i. Stormwater from areas of high pollutant loading. High pollutant loading areas are areas in industrial and commercial developments where solvents and/or petroleum products are loaded/unloaded, stored, or applied, areas where pesticides are loaded/unloaded or stored; areas where hazardous materials are expected to be present in greater than “reportable quantities” as defined by the United States Environmental Protection Agency (EPA) at 40 CFR 302.4; areas where recharge would be inconsistent with Department approved remedial action work plan approved pursuant to the Administrative Requirements for the Remediation of Contaminated Sites rules, N.J.A.C. 7:26C, or Department landfill closure plan and areas; and areas with high risks for spills of toxic materials, such as gas stations and vehicle maintenance facilities; and
- ii. Industrial stormwater exposed to “source material.” “Source material” means any material(s) or machinery, located at an industrial facility, that is directly or indirectly related to process, manufacturing or other industrial activities, which could be a source of pollutants in any industrial stormwater discharge to groundwater. Source materials include, but are not limited to, raw materials; intermediate products; final products; waste materials; by-products; industrial machinery and fuels, and lubricants, solvents, and detergents that are related to process, manufacturing, or other industrial activities that are exposed to stormwater.

R. Stormwater Runoff Quality Standards

1. This subsection contains the minimum design and performance standards to control stormwater runoff quality impacts of major development. Stormwater runoff quality standards are applicable when the project ~~project meets the definition of a major development according to § 25-29.2.~~
2. Stormwater management measures shall be designed to reduce the post-construction load of total suspended solids (TSS) in stormwater runoff generated from the water quality design storm as follows:
 - i. Eighty percent TSS removal of the anticipated load, expressed as an annual average shall be achieved for the stormwater runoff from the net increase of motor vehicle surface.
 - ii. If the surface is considered ~~any type of regulated motor-vehicle impervious surface~~ **any type of regulated motor-vehicle impervious** surface because the water quality treatment for ~~that area of motor-vehicle impervious~~ **that area of motor-vehicle impervious** surface that is currently receiving water quality treatment either by vegetation or soil, by an existing stormwater management measure, or by treatment at a wastewater treatment plant is to be modified or removed, the project shall maintain or increase the existing TSS removal of the anticipated load expressed as an annual average.

Deleted: major development results in an increase of one-quarter acre or more of regulated motor vehicle surface...

- iii. If the runoff from a project site will drain directly or in indirectly, into a water with a Total Maximum Daily Load (TMDL) for TSS, then the required TSS reduction from the site shall be increased to be consistent with the reductions set forth in the TMDL.
 - iv. If the runoff from a project site will drain, directly or indirectly, into an impaired water that is listed under New Jersey's Integrated Water Quality Assessment Report as impaired for TSS, then TSS shall be removed to the maximum extent practicable.
3. The requirement to reduce TSS does not apply to any stormwater runoff in a discharge regulated under a numeric effluent limitation for TSS imposed under the New Jersey Pollutant Discharge Elimination System (NJPDES) rules, N.J.A.C. 7:14A, or in a discharge specifically exempt under a NJPDES permit from this requirement. Every major development, including any that discharge into a combined sewer system, shall comply with 2 above, unless the major development is itself subject to a NJPDES permit with a numeric effluent limitation for TSS or the NJPDES permit to which the major development is subject exempts the development from a numeric effluent limitation for TSS.
4. The water quality design storm is 1.25 inches of rainfall in two hours. Water quality calculations shall consider the distribution of rain from the water quality design storm, as reflected in Table 4, below. The calculation of the volume of runoff may consider the implementation of stormwater management measures.

5. If more than one BMP in series is necessary to achieve the required 80 percent TSS reduction for a site, the applicant shall utilize the following formula to calculate TSS reduction:

$$R = A + B - (A \times B) / 100,$$

Where

R = total TSS Percent Load Removal from application of both BMPs, and
 A = the TSS Percent Removal Rate applicable to the first BMP
 B = the TSS Percent Removal Rate applicable to the second BMP.

6. Stormwater management measures shall also be designed to reduce, to the maximum extent feasible, the post-construction nutrient load of the anticipated load from the developed site in stormwater runoff generated from the water quality design storm. In achieving reduction of nutrients to the maximum extent feasible, the design of the site shall include green infrastructure BMPs that optimize nutrient removal while still achieving the performance standards in **§ 25-29.4Q, R and S**.
7. In accordance with the definition of FW1 at N.J.A.C. 7:9B-1.4, stormwater management measures shall be designed to prevent any increase in stormwater runoff to waters classified as FW1.
8. The Flood Hazard Area Control Act Rules at N.J.A.C. 7:13-4.1(c)1 establish 300-foot riparian zones along Category One waters, as designated in the Surface Water Quality Standards at N.J.A.C. 7:9B, and certain upstream tributaries to Category One waters. A person shall not undertake a major development that is located within or discharges into a 300-foot riparian zone without prior authorization from the Department under N.J.A.C. 7:13.
9. Pursuant to the Flood Hazard Area Control Act Rules at N.J.A.C. 7:13-11.2(j)3.i, runoff from the water quality design storm that is discharged within a 300-foot riparian zone shall be treated in accordance with this subsection to reduce the post-construction load of total suspended solids by 95 percent of the anticipated load from the developed site, expressed as an annual average.
10. The stormwater runoff quality standards do not apply to the construction of one individual single-family dwelling, if it is not part of a larger development or subdivision that has received preliminary or final site plan approval prior to December 3, 2018, and that the motor vehicle surfaces are made of permeable material(s) such as gravel, dirt, and/or shells.

S. Stormwater Runoff Quantity Standards

1. This subsection contains the minimum design and performance standards to control stormwater runoff quantity impacts of major development.
2. The site shall be designed to manage, through on-site retention, the Retention Storm, (or ½ of the projected 2-year storm per square foot, as reflected in Table 6) at the site or on contiguous properties in common ownership. The management shall be using one or more green infrastructure techniques and shall apply to the total impervious on the site, both retained and proposed.
- 2- 3. To control stormwater runoff quantity impacts, the design engineer shall, using the assumptions and factors for stormwater runoff calculations at **§ 25-29.5**, complete one of the following:

- i. Demonstrate through hydrologic and hydraulic analysis that for stormwater leaving the site, post-construction runoff hydrographs for the current and projected 2-, 10-, and 100-year storm events, as defined and determined in **§ 25-29.5c and 5d** respectively, of this ordinance, do not exceed, at any point in time, the pre-construction runoff hydrographs for the same storm events;
- ii. Demonstrate through hydrologic and hydraulic analysis that there is no increase, as compared to the pre-construction condition, in the peak runoff rates of stormwater leaving the site for the current and projected 2-, 10-, and 100-year storm events, as defined and determined pursuant to **§ 25-29.5c and 5d** respectively, of this ordinance, and that the increased volume or change in timing of stormwater runoff will not increase flood damage at or downstream of the site. This analysis shall include the analysis of impacts of existing land uses and projected land uses assuming full development under existing zoning and land use ordinances in the drainage area;
- iii. Design stormwater management measures so that the post-construction peak runoff rates for the current and projected 2-, 10-, and 100-year storm events, as defined and determined in **§ 25-29.5c and 5d**, respectively, of this ordinance, are 50, 75 and 80 percent, respectively, of the pre-construction peak runoff rates. The percentages apply only to the post-construction stormwater runoff that is attributable to the portion of the site on which the proposed development or project is to be constructed; or
- iv. In tidal flood hazard areas, stormwater runoff quantity analysis in accordance with **§ 25-29.4S3(i), (ii), and (iii)** above is required unless the design engineer demonstrates through hydrologic and hydraulic analysis that the increased volume, change in timing, or increased rate of the stormwater runoff, or any combination of the three will not result in additional flood damage below the point of discharge of the major development. No analysis is required if the stormwater is discharged directly into any ocean, bay, inlet, or the reach of any watercourse between its confluence with an ocean, bay, or inlet and downstream of the first water control structure.

- 3- 4. The stormwater runoff quantity standards shall be applied at the site's boundary to each abutting lot, roadway, watercourse, or receiving storm sewer system.

§ 25-29.4— Calculation of Stormwater Runoff and Groundwater Recharge:

A. Stormwater runoff shall be calculated in accordance with the following:

1. The design engineer shall calculate runoff using the following method:

(a) The USDA Natural Resources Conservation Service (NRCS) methodology, including the NRCS Runoff Equation and Dimensionless Unit Hydrograph, as described in Chapters 7, 9, 10, 15 and 16 *Part 630, Hydrology National Engineering Handbook*, incorporated herein by reference as amended and supplemented. This methodology is additionally described in *Technical Release 55 - Urban Hydrology for Small Watersheds* (TR-55), dated June 1986, incorporated herein by reference as amended and supplemented. Information

regarding the methodology is available from the Natural Resources Conservation Service website at:

<https://directives.sc.egov.usda.gov/viewerFS.aspx?hid=21422>

or at United States Department of Agriculture Natural Resources Conservation Service, New Jersey State Office.

2. For calculating curve numbers and groundwater recharge, there is a presumption that the pre-construction condition of a site or portion thereof is a wooded land use with good hydrologic condition. The term “curve number” applies to the NRCS methodology above at **§ 25-29.5A1(a)**. A curve number or a groundwater recharge land cover for an existing condition may be used on all or a portion of the site if the design engineer verifies that the hydrologic condition has existed on the site or portion of the site for at least five years without interruption prior to the time of application. If more than one land cover has existed on the site during the five years immediately prior to the time of application, the land cover with the lowest runoff potential shall be used for the computations. In addition, there is the presumption that the site is in good hydrologic condition (if the land use type is pasture, lawn, or park), with good cover (if the land use type is woods), or with good hydrologic condition and conservation treatment (if the land use type is cultivation). **To calculate runoff and groundwater recharge, the preconstruction land cover of a site or portion thereof shall be woods, unless the applicant provides sufficient evidence that another land cover (e.g., farmland) had existed for at least five years without interruption prior to development of the site. Furthermore, the pre-construction condition of the site or portion thereof shall be considered to have been in good hydrologic condition. If more than one land use existed on the site during the five years prior to initial development of the site, the land cover with the lowest runoff potential shall be used for the computations.**
3. In computing pre-construction stormwater runoff, the design engineer shall account for all significant land features and structures, such as ponds, wetlands, depressions, hedgerows, or culverts, that may reduce pre-construction stormwater runoff rates and volumes.
4. In computing stormwater runoff from all design storms, the design engineer shall consider the relative stormwater runoff rates and/or volumes of pervious and impervious surfaces separately to accurately compute the rates and volume of stormwater runoff from the site. To calculate runoff from unconnected impervious cover, urban impervious area modifications as described in the NRCS *Technical Release 55 – Urban Hydrology for Small Watersheds* or other methods may be employed.
5. If the invert of the outlet structure of a stormwater management measure is below the flood hazard design flood elevation as defined at N.J.A.C. 7:13, the design engineer shall consider the effects of tailwater in the design of structural stormwater management measures.

- B. Groundwater recharge may be calculated in accordance with the following:

The New Jersey Geological Survey Report GSR-32: A Method for Evaluating Groundwater-Recharge Areas in New Jersey, incorporated herein by reference as amended and supplemented. Information regarding the methodology is available from the New Jersey Stormwater Best Management Practices Manual; at the New Jersey Geological Survey website at:

<https://www.nj.gov/dep/nigs/pricelst/gsreport/gsr32.pdf>

or at New Jersey Geological and Water Survey, 29 Arctic Parkway, PO Box 420 Mail Code 29-01, Trenton, New Jersey 08625-0420.

- C. The precipitation depths of the current two-, 10-, and 100-year storm events shall be determined by multiplying the values determined in accordance with items 1 and 2 below:

1. The applicant shall utilize the National Oceanographic and Atmospheric Administration (NOAA), National Weather Service's Atlas 14 Point Precipitation Frequency Estimates: NJ, in accordance with the location(s) of the drainage area(s) of the site. This data is available at:

https://hdsc.nws.noaa.gov/hdsc/pfds/pfds_map_cont.html?bkmrk=nj; and

2. The applicant shall utilize Table 5: Current Precipitation Adjustment Factors below, which sets forth the applicable multiplier for the drainage area(s) of the site, in accordance with the county or counties where the drainage area(s) of the site is located. Where the major development lies in more than one county, the precipitation values shall be adjusted according to the percentage of the drainage area in each county. Alternately, separate rainfall totals can be developed for each county using the values in the table below.

NOTE: The municipality may instead wish to abbreviate this table along with the text in Item 2 above to reflect only the relevant information, depending on the location of the municipality. The current precipitation adjustment factors added to the ordinance shall be those found in N.J.A.C. 7:8-5.7(c) as Table 5-5.

D. Table 6: Future Precipitation Change Factors provided below sets forth the change factors to be used in determining the projected two-, 10-, and 100-year storm events for use in this chapter, which are organized alphabetically by county. The precipitation depth of the projected two-, 10-, and 100-year storm events of a site shall be determined by multiplying the precipitation depth of the two-, 10-, and 100-year storm events determined from the National Weather Service's Atlas 14 Point Precipitation Frequency Estimates pursuant to (c)1 above, by the change factor in the table below, in accordance with the county or counties where the drainage area(s) of the site is located. Where the major development and/or its drainage area lies in more than one county, the precipitation values shall be adjusted according to the percentage of the drainage area in each county. Alternately, separate rainfall totals can be developed for each county using the values in the table below.

NOTE: The municipality may instead wish to abbreviate this table along with the text in Item D above to reflect only the relevant information, depending on the location of the municipality. The future precipitation change factors added to the ordinance shall be those found in N.J.A.C. 7:8-5.7(d) as Table 5-6.

§ 25-29.6—Sources for Technical Guidance:

- A. Technical guidance for stormwater management measures can be found in the documents listed below, which are available to download from the Department's website at:

<https://dep.nj.gov/stormwater/bmp-manual/>.

1. Guidelines for stormwater management measures are contained in the New Jersey Stormwater Best Management Practices Manual, as amended and supplemented. Information is provided on stormwater management measures such as, but not limited to, those listed in Tables 1, 2, and 3.
2. Additional maintenance guidance is available on the Department's website at:

<https://dep.nj.gov/stormwater/maintenance-guidance/>.

- B. Submissions required for review by the Department should be mailed to:

The Division of Watershed Protection and Restoration, New Jersey Department of Environmental Protection, Mail Code 501-02A, PO Box 420, Trenton, New Jersey 08625-0420.

§ 25-29.7—Solids and Floatable Materials Control Standards:

A. Site design features identified under **§ 25-29.4G** above, or alternative designs in accordance with **§ 25-29.4H** above, to prevent discharge of trash and debris from drainage systems shall comply with the following standard to control passage of solid and floatable materials through storm drain inlets. For purposes of this paragraph, “solid and floatable materials” means sediment, debris, trash, and other floating, suspended, or settleable solids. For exemptions to this standard see **§ 25-29.7A2** below.

1. Design engineers shall use one of the following grates whenever they use a grate in pavement or another ground surface to collect stormwater from that surface into a storm drain or surface water body under that grate:

- i. The New Jersey Department of Transportation (NJDOT) bicycle safe grate, which is described in Chapter 2.4 of the NJDOT Bicycle Compatible Roadways and Bikeways Planning and Design Guidelines; or
- ii. A different grate, if each individual clear space in that grate has an area of no more than seven (7.0) square inches, or is no greater than 0.5 inches across the smallest dimension.

Examples of grates subject to this standard include grates in grate inlets, the grate portion (non-curb-opening portion) of combination inlets, grates on storm sewer manholes, ditch grates, trench grates, and grates of spacer bars in slotted drains. Examples of ground surfaces include surfaces of roads (including bridges), driveways, parking areas, bikeways, plazas, sidewalks, lawns, fields, open channels, and stormwater system floors used to collect stormwater from the surface into a storm drain or surface water body.

- iii. For curb-opening inlets, including curb-opening inlets in combination inlets, the clear space in that curb opening, or each individual clear space if the curb opening has two or more clear spaces, shall have an area of no more than seven (7.0) square inches, or be no greater than two (2.0) inches across the smallest dimension.

2. The standard in A.1. above does not apply:

- i. Where each individual clear space in the curb opening in existing curb-opening inlet does not have an area of more than nine (9.0) square inches;
- ii. Where the municipality agrees that the standards would cause inadequate hydraulic performance that could not practicably be overcome by using additional or larger storm drain inlets;
- iii. Where flows from the water quality design storm as specified in N.J.A.C. 7:8 are conveyed through any device (e.g., end of pipe netting facility,

manufactured treatment device, or a catch basin hood) that is designed, at a minimum, to prevent delivery of all solid and floatable materials that could not pass through one of the following:

- a. A rectangular space four and five-eighths (4.625) inches long and one and one-half (1.5) inches wide (this option does not apply for outfall netting facilities); or
- b. A bar screen having a bar spacing of 0.5 inches.

Note that these exemptions do not authorize any infringement of requirements in the Residential Site Improvement Standards for bicycle safe grates in new residential development (N.J.A.C. 5:21-4.18(b)2 and 7.4(b)1).

- iv. Where flows are conveyed through a trash rack that has parallel bars with one inch (1 inch) spacing between the bars, to the elevation of the Water Quality Design Storm as specified in N.J.A.C. 7:8; or
- v. Where the New Jersey Department of Environmental Protection determines, pursuant to the New Jersey Register of Historic Places Rules at N.J.A.C. 7:4-7.2(c), that action to meet this standard is an undertaking that constitutes an encroachment or will damage or destroy the New Jersey Register listed historic property.

§ 25-29.8—Safety Standards for Stormwater Management Basins:

- A. This section sets forth requirements to protect public safety through the proper design and operation of stormwater management BMPs. This section applies to any new stormwater management BMP.
- B. The provisions of this section are not intended to preempt more stringent municipal or county safety requirements for new or existing stormwater management BMPs. Municipal and county stormwater management plans and ordinances may, pursuant to their authority, require existing stormwater management BMPs to be retrofitted to meet one or more of the safety standards in § 25-29.8C1, C2, and C3 for trash racks, overflow grates, and escape provisions at outlet structures.
- C. Requirements for Trash Racks, Overflow Grates and Escape Provisions
 - 1. A trash rack is a device designed to catch trash and debris and prevent the clogging of outlet structures. Trash racks shall be installed at the intake to the outlet from the Stormwater management BMP to ensure proper functioning of the BMP outlets in accordance with the following:
 - i. The trash rack shall have parallel bars, with no greater than six-inch spacing between the bars;
 - ii. The trash rack shall be designed so as not to adversely affect the hydraulic performance of the outlet pipe or structure;
 - iii. The average velocity of flow through a clean trash rack is not to exceed 2.5 feet per second under the full range of stage and discharge. Velocity is to be computed based on the net area of opening through the rack; and

- iv. The trash rack shall be constructed of rigid, durable, and corrosion resistant material and designed to withstand a perpendicular live loading of 300 pounds per square foot.
- 2. An overflow grate is designed to prevent obstruction of the overflow structure. If an outlet structure has an overflow grate, such grate shall meet the following requirements:
 - i. The overflow grate shall be secured to the outlet structure but removable for emergencies and maintenance.
 - ii. The overflow grate spacing shall be no greater than two inches across the smallest dimension
 - iii. The overflow grate shall be constructed and installed to be rigid, durable, and corrosion resistant, and shall be designed to withstand a perpendicular live loading of 300 pounds per square foot.
- 3. Stormwater management BMPs shall include escape provisions as follows:
 - i. If a stormwater management BMP has an outlet structure, escape provisions shall be incorporated in or on the structure. Escape provisions include the installation of permanent ladders, steps, rungs, or other features that provide easily accessible means of egress from stormwater management BMPs. With the prior approval of the municipality pursuant to **§ 25-29.8C**, a free-standing outlet structure may be exempted from this requirement;
 - ii. Safety ledges shall be constructed on the slopes of all new stormwater management BMPs having a permanent pool of water deeper than two and one-half feet. Safety ledges shall be comprised of two steps. Each step shall be four to six feet in width. One step shall be located approximately two and one-half feet below the permanent water surface, and the second step shall be located one to one and one-half feet above the permanent water surface. See **§ 25-29.8E** for an illustration of safety ledges in a stormwater management BMP; and
 - iii. In new stormwater management BMPs, the maximum interior slope for an earthen dam, embankment, or berm shall not be steeper than three horizontals to one vertical.

D. Variance or Exemption from Safety Standard

A variance or exemption from the safety standards for stormwater management BMPs may be granted only upon a written finding by the municipality that the variance or exemption will not constitute a threat to public safety.

§ 25-29.9—Stormwater Management Requirement for Minor Development

- A. The stormwater runoff requirements applicable to Minor Developments are as follows:
- 1) For each square foot of increased impervious surface, six inches per square foot of stormwater shall be managed using green infrastructure practices set out in **Table 7** below or such other measures as may be required by the municipal engineer of which the retention storm must be retained on site using green infrastructure.
 - 2) All such development shall be subject to review by the municipal engineer to determine that all stormwater runoff created by the development is adequately controlled in accordance with the standards of this ordinance.
 - 3) In such cases where it is determined that the outflow from the stormwater management system will impact an adjacent property, the outflow shall be directed to a storm sewer, swale, or other suitable stormwater runoff conveyance measure.
 - 4) If the municipal engineer determines that the outflow from the stormwater management system may potentially damage an adjoining property and the outflow cannot be safely directed to a storm sewer, swale, or other suitable stormwater runoff conveyance measure, the stormwater runoff from the development shall be retained on-site at a rate of four inches of storage for each square foot of new impervious surface using green infrastructure practices or such other measures as may be required by the municipal engineer.
 - 5) If the applicant cannot comply with **§ 25-29.9A** above, the proposal should be redesigned or reduced in scope so that the stormwater management measures do not damage an adjoining property.

(Source: Rain Garden Manual of New Jersey, Rutgers Water Resource Programs. Rain garden size based on New Jersey's Water Quality Design Storm – 1.25 inches of rain over 2 hours)

- 7) The stormwater management feature shall be protected from future development by conservation easement, deed restriction, or other acceptable measures.
- 8) Waivers. A waiver from strict compliance with **§ 25-29.9** may be granted by the Township Engineer for those projects where an applicant has demonstrated the inability or impracticability of strictest compliance with the stormwater management requirements in that section. No waiver shall be granted if the runoff compliance is less than the 10-year rainfall event.
- 9) The use of a BMP is subject to soil suitability and approval of the Township Engineer.

§ 25-29.10 -Requirements for a Site Development Stormwater Plan: Major Development

A. Submission of Site Development Stormwater Plan

1. Whenever an applicant seeks municipal approval of a development subject to this ordinance, the applicant shall submit all the required components of the Checklist for the Site Development Stormwater Plan at § **25-29.10C** below as part of the submission of the application for approval.
2. The applicant shall demonstrate that the project meets the standards set forth in this ordinance.
3. The applicant shall submit [*specify number*] copies of the materials listed in the checklist for site development stormwater plans in accordance with **§ 25-29.10C** of this ordinance.

B. Site Development Stormwater Plan Approval

The applicant's Site Development project shall be reviewed as a part of the review process by the municipal board or official from which municipal approval is sought. That municipal board or official shall consult the municipality's review engineer to determine if all the checklist requirements have been satisfied and to determine if the project meets the standards set forth in this ordinance.

C. Submission of Site Development Stormwater Plan

The following information shall be required:

1. Topographic Base Map

The reviewing engineer may require upstream tributary drainage system information as necessary. It is recommended that the topographic base map of the site be submitted which extends a minimum of 200 feet beyond the limits of the proposed development, at a scale of 1"=200' or greater, showing 2-foot contour intervals. The map as appropriate may indicate the following: existing surface water drainage, shorelines, steep slopes, soils, erodible soils, perennial or intermittent streams that drain into or upstream of the Category One waters, wetlands and flood plains along with their appropriate buffer strips, marshlands and other wetlands, pervious or vegetative surfaces, existing man-made structures, roads, bearing and distances of property lines, and significant natural and manmade features not otherwise shown.

2. Environmental Site Analysis

A written and graphic description of the natural and man-made features of the site and its surroundings **shall** be submitted. This description **shall** include a discussion of soil conditions, slopes, wetlands, waterways and vegetation on the site. Particular attention should be given to unique, unusual, or environmentally sensitive features and to those that provide particular opportunities or constraints for development. **The map shall indicate the following: existing surface water drainage, shorelines, steep slopes, soils, erodible soils, springs, seeps, intermittent**

or perennial streams, wetlands, and flood plains along with their appropriate buffer strips, marshlands and other wetlands, forests, and core forests, pervious or vegetative surfaces, existing man-made structures, roads, bearing and distances of property lines, and significant natural and manmade features not otherwise shown.

3. Project Description and Site Plans

A map (or maps) at the scale of the topographical base map indicating the location of existing and proposed buildings roads, parking areas, utilities, structural facilities for stormwater management and sediment control, and other permanent structures. The map(s) shall also clearly show areas where alterations will occur in the natural terrain and cover, including lawns and other landscaping, and seasonal high groundwater elevations. A written description of the site plan and justification for proposed changes in natural conditions shall also be provided.

4. Land Use Planning and Source Control Plan

This plan shall provide a demonstration of how the goals and standards of **§ 25-29.3 through § 25-29.5** are being met. The focus of this plan shall be to describe how the site is being developed to meet the objective of controlling groundwater recharge, stormwater quality and stormwater quantity problems at the source by land management and source controls whenever possible.

5. Stormwater Management Facilities Map

The following information, illustrated on a map of the same scale as the topographic base map, shall be included:

- i. Total area to be disturbed, paved or built upon, proposed surface contours, land area to be occupied by the stormwater management facilities and the type of vegetation thereon, and details of the proposed plan to control and dispose of stormwater.
- ii. Details of all stormwater management facility designs, during and after construction, including discharge provisions, discharge capacity for each outlet at different levels of detention and emergency spillway provisions with maximum discharge capacity of each spillway.
- iii. Location and results of all test pits, overlaid with the location of all BMPS. The SHWT, depth of mottling observed, and bottom elevation of the BMP shall be listed in a comprehensive chart.
- iv. Map of predevelopment and post development drainage areas
- v. Map demonstrating the contributory drainage area for each BMP.

6. Calculations

- i. Comprehensive hydrologic and hydraulic design calculations for the pre-development and post-development conditions for the design storms specified in **§ 25-29.4** of this ordinance.
- ii. When the proposed stormwater management control measures depend on the hydrologic properties of soils or require certain separation from the

seasonal high-water table, then a soils report shall be submitted. The soils report shall be based on onsite boring logs or soil pit profiles. The number and location of required soil borings or soil pits shall be determined based on what is needed to determine the suitability and distribution of soils present at the location of the control measure.

7. Maintenance and Repair Plan

The design and planning of the stormwater management facility shall meet the maintenance requirements of **§ 25-29.12**.

8. Waiver from Submission Requirements

The municipal official or board reviewing an application under this ordinance may, in consultation with the municipality's review engineer, waive submission of any of the requirements in **§ 25-29.9c1 through § 25-29.9c6** of this ordinance when it can be demonstrated that the information requested is impossible to obtain or it would create a hardship on the applicant to obtain and its absence will not materially affect the review process.

§ 25-29.11— Requirements for a Site Development Stormwater Plan – Minor Development

A. Submission of Site Development Stormwater Plan

1. Whenever an applicant seeks municipal approval of a minor development subject to this ordinance, the applicant shall submit all the required components of the checklist for the site development stormwater plan at **§25-29.11C** below as part of the submission of the application for approval.
2. The applicant shall demonstrate that the project meets the standards set forth in this ordinance.
3. The applicant shall submit a complete electronic copy, and three hard copies of the materials listed in the checklist for site development stormwater plans in accordance with **§25-29.11C** of this ordinance.

B. Site Development Stormwater Plan Approval. The applicant's Site Development project shall be reviewed as a part of the review process by the municipal board or official from which municipal approval is sought. That municipal board or official shall consult the Township Engineer to determine if all the checklist requirements have been satisfied and to determine if the project meets the standards set forth in this article.

C. Submission of Minor Development Stormwater Plan
The following shall be required:

1. Boundary Survey of the property to scale within 5 years of the proposal;

2. Topographic base map. The design engineer shall provide sufficient topographic and location data that shows existing contours, at a scale of no greater than 1" =30' to allow the Township Engineer to make an appropriate evaluation of the development proposal. The topography and existing conditions must be based on a plan prepared by a NJ licensed surveyor;
3. Project Development Plans. A map at the scale of the topographical base map indicating the location of existing and proposed buildings, proposed contours and other improvements shall be provided;
4. Location of floodplains, wetlands, and water bodies if application is directly within 300 feet of same;
5. Any State Agency Approvals as may be required NJDEP permits, HEPSCD permits;
6. Grading and Drainage/Stormwater Management facilities map illustrated on a map of the same scale as the topographic base map, shall be included:
 - i. Total area to be disturbed, paved, or built upon, proposed surface contours, land area to be occupied by the stormwater management facilities and the type of vegetation thereon, and details of the proposed plan to control and discharge;
 - ii. Existing and proposed contours;
 - iii. Existing and proposed spot elevations at building corners, property corners, street gutter line, top of curb, top of depressed curb, top and bottom of wall and around structures;
 - iv. Existing and proposed utility connections to the existing and proposed structures;
 - v. Finished floor, basement/cellar and garage floor elevations;
 - vi. Location of roof leaders;
 - vii. Design and calculations of the proposed stormwater management facility;
 - viii. Details of all stormwater management facility design, during and after construction;
 - ix. Maintenance manual for stormwater facilities in accordance with NJDEP guidelines and BMP manual;
7. Plan required to be signed and sealed by a NJ Licensed Professional such as an architect, engineer and surveyor.

D. Calculations

Calculations to demonstrate compliance with **§ 25-29.3 and §25-29.9** of this ordinance Stormwater management control measures for all minor developments shall depend on the hydrologic properties of soils or require certain separation from the seasonal high-water table and a soils report shall be submitted. The soils report shall be based on on-site boring logs or soil pit profiles. The number and location of required soil borings or soil pits shall be determined based on what is needed to

evaluate the suitability and distribution of soils present at the location of the control measure. On a case-by-case basis, the Township Engineer may require a soil evaluation to be a condition of any approved plan and be completed prior to or during construction and installation of any stormwater management BMP on the site.

E. Maintenance and Repair Plan

Minor development BMPs shall be operated and maintained in accordance with guidance published and provided by NJDEP Stormwater Best Management Practices.

F. Waiver from Submission Requirements

The municipal official or board reviewing an application under this article may, in consultation with the Township Engineer, waive submission of any of the requirements in § 25-29.11C(1) through (3) of this ordinance when it can be demonstrated that the information requested is impossible to obtain or it would create a hardship on the applicant to obtain and its absence will not materially affect the review process.

§ 25-29.12—Maintenance and Repair:

A. Applicability

Projects subject to review as in § 25-29.1C of this ordinance shall comply with the requirements of § 25-29.12B and 12C.

B. General Maintenance

1. The design engineer shall prepare a maintenance plan for the stormwater management measures incorporated into the design of a major development.
2. The maintenance plan shall contain specific preventative maintenance tasks and schedules; cost estimates, including estimated cost of sediment, debris, or trash removal; and the name, address, and telephone number of the person or persons responsible for preventative and corrective maintenance (including replacement). The plan shall contain information on BMP location, design, ownership, maintenance tasks and frequencies, and other details as specified in Chapter 8 of the NJ BMP Manual, as well as the tasks specific to the type of BMP, as described in the applicable chapter containing design specifics.
3. If the maintenance plan identifies a person other than the property owner (for example, a developer, a public agency or homeowners' association) as having the responsibility for maintenance, the plan shall include documentation of such person's or entity's agreement to assume this responsibility, or of the owner's obligation to dedicate a stormwater management facility to such person under an applicable ordinance or regulation.

4. Responsibility for maintenance shall not be assigned or transferred to the owner or tenant of an individual property in a residential development or project, unless such owner or tenant owns or leases the entire residential development or project. The individual property owner may be assigned incidental tasks, such as weeding of a green infrastructure BMP, provided the individual agrees to assume these tasks; however, the individual cannot be legally responsible for all the maintenance required.
5. If the party responsible for maintenance identified under **§ 25-29.12B3** above is not a public agency, the maintenance plan and any future revisions based on **§ 25-29.12B7** below shall be recorded upon the deed of record for each property on which the maintenance described in the maintenance plan must be undertaken.
6. Preventative and corrective maintenance shall be performed to maintain the functional parameters (storage volume, infiltration rates, inflow/outflow capacity, etc.) of the stormwater management measure, including, but not limited to, repairs or replacement to the structure; removal of sediment, debris, or trash; restoration of eroded areas; snow and ice removal; fence repair or replacement; restoration of vegetation; and repair or replacement of non-vegetated linings.
7. The party responsible for maintenance identified under **§ 25-29.12B3** above shall perform all the following requirements:
 - i. Maintain a detailed log of all preventative and corrective maintenance for the structural stormwater management measures incorporated into the design of the development, including a record of all inspections and copies of all maintenance-related work orders;
 - ii. Evaluate the effectiveness of the maintenance plan at least once per year and adjust the plan and the deed as needed; and
 - iii. Retain and make available, upon request by any public entity with administrative, health, environmental, or safety authority over the site, the maintenance plan and the documentation required by **§ 25-29.12B6 and 12B7** above.
 - iv. Submit to the Township every May 1, an annual maintenance report, including all preventative and corrective maintenance for the structural stormwater management measures incorporated into the design and of the development.
 - v. Post a two-year maintenance guarantee in accordance with N.J.S.A. 49:55D-53. This person must develop a written maintenance and inspection program to be approved by the Township of West Orange.
8. The requirements of **§ 25-29.12B3 and 12B4** do not apply to stormwater management facilities that are dedicated to and accepted by the municipality or another governmental agency, subject to all applicable municipal stormwater general permit conditions, as issued by the Department.

Note: It may be appropriate to delete requirements in the maintenance and repair plan that are not applicable if the ordinance requires the facility to be dedicated to the municipality. If the municipality does not want to take this responsibility, the

ordinance should require the posting of a two-year maintenance guarantee in accordance with N.J.S.A. 40:55D-53. Maintenance and inspection guidance can be found on the Department's website at:

<https://dep.nj.gov/stormwater/maintenance-guidance/>.

9. If the stormwater management facility becomes a danger to public safety or public health, or if it needs maintenance or repair, the municipality shall so notify the responsible person in writing. Upon receipt of that notice, the responsible person shall have fourteen (14) days to effect maintenance and repair of the facility in a manner that is approved by the municipal engineer or his designee. The municipality, in its discretion, may extend the time allowed for effecting maintenance and repair for good cause. If the responsible person fails or refuses to perform such maintenance and repair, the municipality or County may immediately proceed to do so and shall bill the cost thereof to the responsible person. Nonpayment of such bill may result in a lien on the property.
- C. Nothing in this subsection shall preclude the municipality in which the major development is located from requiring the posting of a performance or maintenance guarantee in accordance with N.J.S.A. 40:55D-53

§25-29.13— Stormwater License and Inspection Requirements for Major Developments Only.

- A. All stormwater management facilities are to be maintained by the responsible party or homeowner association in accordance with the approved maintenance plan.
- B. All stormwater management facilities for major developments are required to obtain a Stormwater Maintenance Permit from the Engineering Department after approval from the appropriate land use board has been obtained.
- C. The annual fee for the Stormwater Maintenance Permit shall be listed in the West Orange Fee Resolution
- D. The Stormwater Maintenance Permit shall be renewed each year, no later than January 1st.
- E. A detailed inspection and maintenance report shall be submitted annually no later than January 1st to the Engineering Department. The fee for every review by the engineer shall set by Resolution.
- F. The inspection and maintenance report shall include and not be limited to:
 1. Stormwater inlets and manholes
 2. Detention basin outflow structures
 3. Trash racks and overflow grates
 4. Vegetation
 5. Embankment erosion control
 6. Sediment removal and pond maintenance

7. Mechanical Treatment Devices utilizing filter shall have a record of replacement as per the manufacturer's specifications
 8. Green Infrastructure measures including condition of all plans
- G. The inspection report shall include copies of photographs depicting the conditions of the BMPs.

§25.29.14—Fees:

Major and Minor developments that are part of a Land Use Board application process shall file a stormwater permit application with the associated application fee set by Resolution. All professional reviews shall be paid for through the escrow associated with the stormwater permit application. For projects, both major and minor that are not part of a Land Use Board application, these same fees shall apply according to fees set by Resolution.

§25.29.15—Penalties:

Any person(s) who erects, constructs, alters, repairs, converts, maintains, or uses any building, structure or land in violation of this ordinance shall be subject to the following penalties: § 25-59, Penalties—General

§25.29.16—Severability:

Each section, subsection, sentence, clause and phrase of this Ordinance is declared to be an independent section, subsection, sentence, clause and phrase, and the finding or holding of any such portion of this Ordinance to be unconstitutional, void, or ineffective for any cause, or reason, shall not affect any other portion of this Ordinance.

§25.29.17—Repealer:

All other ordinances or parts of ordinances inconsistent with this section are hereby repealed. If any two or more regulations contained within the Zoning Ordinance appear to or do conflict, the most restrictive regulation shall apply.

§25.29.18—Effective Date:

This Ordinance shall be in full force and effect from and after its adoption and any publication as required by law.
