RESOLUTION AUTHORIZING A REFUND

WHEREAS, on July 23, 2023, an incident occurred within the Township of West Orange which required a response by the West Orange Fire Department (the "WOFD") by way of provision of ambulance services; and

WHEREAS, the 3rd party billing provider for the WOFD, Horizon Blue Cross Blue Shield of New Jersey ("Horizon") intended to pay the Township $888.15 for the services provided by the WOFD; and

WHEREAS, Horizon inadvertently paid the Township in the amount of the amount of $1,776.30 for the ambulance service provided by the WOFD; and

WHEREAS, Horizon is requesting a refund be provided to Blue Cross Blue Shield of New Jersey in the amount of $888.15; and

WHEREAS, the WOFD agrees that a refund in the amount of $888.15 is owed to Horizon.

NOW, THEREFORE, BE IT RESOLVED by the Township Council of the Township of West Orange that the cost of the service billed and paid by Blue Cross Blue Shield of New Jersey be refunded in an amount of $888.15.

Dear Health Care Professional:

In reviewing our records, we recently discovered that Horizon Blue Cross Blue Shield of New Jersey made overpayments to you totaling $888.15. Please see the enclosed claim listing that provides detailed information.

If you agree with the total amount on the enclosed overpayment claim list, please send a check in the amount of $888.15 made payable to Horizon Blue Cross Blue Shield of New Jersey within 45 calendar days. If you agree with some of the claims on the enclosed overpayment claim list, please indicate which claims you agree with by marking an (X) to the left of the claim number.

Please return the overpayment claim list with your check in the enclosed envelope. Due to a ruling by the 8th Circuit Court, we are no longer permitted to offset this overpayment from future claim payments. Therefore, we require the refund to be sent as a check.

If you have already returned this money to us, please disregard this notice.

If you have any questions regarding this request, or want to dispute any items on the overpayment listing, please call Customer Service at **1-888-435-4383**, Monday through Friday, between 8 a.m. and 5 p.m., Eastern Time (ET).

RESOLUTION AUTHORIZING THE COLLECTOR OF TAXES TO EXTEND THE GRACE PERIOD FOR THE 2026 FOURTH QUARTER TAXES

WHEREAS, 2026 Municipal budget is not scheduled to be adopted until on or around October 27, 2026 therefore the certification of the 2026 tax rate has been delayed.

WHEREAS, once the Municipal budget has been adopted, it must be sent to the State of New Jersey before the County can certify the tax rate. At that time the 2026 Final/2027 Preliminary tax bills will be calculated. Therefore per N.J.S.A. 54:4-67 the grace period for the November 1st tax payments must be extended to the twenty fifth calendar day after the date the tax bills are mailed; interest for payments received after the grace period is to be charged back to the due date of November 1st.

STATUTE: "The fourth installment of taxes shall not be subject to interest until the later of November 1, the additional interest free period authorized pursuant to R.S.54:4-67, or the twenty-fifth calendar day after the date that the tax bill or reconciled tax bill for the fourth installment was mailed or otherwise delivered. Any payment received after the later of November 1, the additional interest-free period authorized pursuant to R.S.54:4-67, or the twenty-fifth calendar day after the date that the tax bill or estimated tax bill for the fourth installment was mailed or otherwise delivered may be charged interest back to November 1. The reconciled tax bill shall contain a notice specifying the date on which interest may begin to accrue."

NOW, THEREFORE, BE IT RESOLVED by the Township Council of the Township of West Orange, that the Tax Collector in accordance with the NJ State Statute provided above, will extend the grace period for the fourth quarter of 2026 at least 25 days from the date of mailing.

TOWNSHIP OF WEST ORANGE
NJDOT Transportation Alternatives Set-Aside Program 2025
Pleasantdale Streetscape Project - Pleasant Valley Way

Township of West Orange, Essex County, New Jersey

September 3, 2026

PRELIMINARY ENGINEERING

PROJECT UNDERSTANDING & ASSUMPTIONS

Malick & Scherer, PC (M&S) will provide Preliminary Engineering (PE) services for the Pleasantdale Streetscape Project in the Township of West Orange, Essex County, New Jersey. The project is being advanced under the NJDOT Transportation Alternatives (TA) Set-Aside Design Assistance Program and will follow the NJDOT Capital Project Delivery Process and June 2026 Preliminary Engineering Activity Descriptions. The proposed improvements extend along Pleasant Valley Way (County Route 636) from approximately 250 feet south of Greenwood Avenue to Kenz Terrace.

The project will improve pedestrian safety, accessibility, connectivity, and the visual character of the Pleasantdale commercial corridor. Proposed improvements generally include ADA-compliant pedestrian facilities, decorative crosswalks, RRFBs, pedestrian-scale decorative lighting, landscaping, streetscape furnishings and amenities, bus shelters, and related roadway and pedestrian improvements. Preliminary Engineering will also evaluate potential roadway striping modifications, pedestrian refuge opportunities, and traffic signal improvements.

M&S will coordinate the Preliminary Engineering design with the Township, Essex County, NJDOT Local Aid, NJDOT Bureau of Environmental Program Resources (BEPR), utility owners, regulatory agencies, and project stakeholders. Preliminary Engineering will include the technical studies, environmental documentation, preliminary construction plans, cost estimate, utility coordination, and public/stakeholder involvement necessary to establish an approved design for advancement into Final Design.

Unless otherwise noted within individual activity descriptions, this proposal is based upon the following assumptions:

- PE services will be performed in accordance with the June 2026 NJDOT Preliminary Engineering Activity Descriptions and current NJDOT Local Aid procedures. Final Design and Construction Engineering services are not included.
- Available survey mapping, record plans, GIS information, utility records, and right-of-way information will be obtained from the Township, Essex County, utility owners, and other available sources to supplement field investigations.
- NJDOT BEPR will administer the Certified Categorical Exclusion process. M&S will prepare the technical studies and documentation identified herein to support the environmental document. Cultural resource investigations will be performed by Richard Grubb & Associates (RGA) under subcontract to M&S.
- Public involvement will include one (1) Public Information Center, one (1) meeting with the Downtown West Orange Alliance, two (2) meetings with the Township Historic Preservation Commission, and coordination with the Pedestrian Safety Advisory Board, Township, and Essex County, as necessary.

- The Township will review and approve property-owner notification/right-of-entry letters prior to field survey activities requiring access adjacent to private property.
- Utility impacts will be evaluated based on verified existing facilities and the preliminary design. Up to three (3) minor utility relocations are assumed, including preliminary coordination with affected utility owners. Adjustments to existing utility structures and appurtenances necessary to accommodate proposed improvements are also anticipated.
- Detailed utility relocation design, final relocation plans and agreements, and construction-phase utility coordination are not included in PE. Targeted subsurface utility engineering (SUE) consisting of up to five (5) test holes is included as described under Activity 3080.
- Right-of-way acquisition is not anticipated.
- Species-specific threatened and endangered species surveys, archaeological investigations, mitigation design, geotechnical investigations, and other services not specifically identified herein are not included unless subsequently authorized.

Township Progress Reviews

M&S will provide progress plans, exhibits, and other applicable design materials to the Township for review at key milestones during Preliminary Engineering, including the following:

- following completion of the Survey and Base Mapping, supplemented with applicable SUE information as it becomes available
- following completion of Activity 3130 – *Update preliminary Detour and Construction Staging Plans* and prior to preparation of the construction cost estimate under Activity 3135
- prior to the Public Information Center under Activity 3865. Materials for the Public Information Center will be provided to the Township a minimum of three (3) weeks prior to the meeting to allow for review and comment.

SCOPE OF WORK

UTILITY ENGINEERING

Activity 3035 – Prepare Utility Base Plans

M&S will review base mapping and observed surface utility features within and adjacent to the project limits to establish the base plans for the utility verification request. The plans will be developed from the project survey, field-observed features, and any applicable mark-outs observed in the field. This task also includes a field visit to create a photo log to verify changes to the existing utilities.

Activity 3045 – Send Utility Verification Request Letter

M&S will prepare and distribute Utility Verification Request Letters and Utility Base Plans to seven (7) utility owners licensed to operate within the project limits. Utility owners will be requested to verify existing facilities; provide available record or as-built information; identify abandoned facilities, planned improvements, easements, and known operational constraints; and provide corrections or supplemental information, as applicable.

M&S will review utility-owner responses and coordinate with the utility owners to clarify discrepancies between available records, field-observed facilities, project survey information, and utility-owner information to the extent practical during Preliminary Engineering. Verified information will be incorporated into the Utility Base Plans, as appropriate.

The Utility Base Plans will be used to identify potential conflicts between existing utilities and the proposed roadway, sidewalk, ADA, drainage, traffic, lighting, landscape, and streetscape improvements. Potential conflicts will be advanced for utility verification and coordination under subsequent activities.

Where the precise horizontal and vertical locations of underground utilities cannot be established from available information and additional information is necessary to evaluate a specific potential conflict, targeted SUE investigations may be performed under Activity 3080. Detailed utility relocation design is not included in this activity.

Activity 3055 – Identify and Analyze Utility Risks

M&S will review the preliminary design and verified utility information to identify potential utility conflicts and evaluate risks to project cost, schedule, constructability, and design. M&S will coordinate with affected utility owners to determine whether conflicts can be avoided or minimized through design refinements and, where necessary, establish preliminary utility accommodation requirements for advancement during Final Design.

For purposes of this proposal, up to three (3) utility relocations and up to three (3) utilities with surface features requiring adjustment to accommodate proposed grades and improvements are assumed. M&S will perform preliminary coordination with the affected utility owners to establish the anticipated relocation requirements, including applicable clearances, access and operational constraints, sequencing considerations, and anticipated lead times. M&S will also identify existing manholes, valve boxes, handholes, utility castings, and similar facilities requiring adjustment to accommodate proposed improvements and grades.

M&S Utility Team will assist the Lighting Design Team in coordinating with PSE&G regarding the conceptual pedestrian-scale decorative lighting layout and preliminary service requirements. PSE&G is anticipated to develop the detailed lighting layout based on conceptual fixture locations established during Preliminary Engineering.

It is assumed that five (5) utility coordination meetings will be required for the three (3) utilities with potential conflicts, consisting of three (3) meetings with PSE&G and two (2) meetings with the other affected utilities.

Unresolved utility conflicts and anticipated relocation requirements will be documented for advancement during Final Design. Final utility relocation design, utility-specific construction plans and specifications, utility agreements, and incorporation of final utility relocation designs into the Contract Documents are not included in Preliminary Engineering.

Activity 3080 – Conduct Subsurface Utility Engineering

M&S will perform Subsurface Utility Engineering (SUE) at selected locations to verify the horizontal and vertical location of existing subsurface utilities where necessary to evaluate potential conflicts with the proposed improvements. M&S will identify and prepare a plan depicting the proposed test hole locations and coordinate the SUE investigation with a qualified SUE contractor.

For purposes of this proposal, up to five (5) test holes are assumed. The SUE contractor will perform the test holes and prepare a SUE Test Hole Report documenting the results. M&S will review the results, update the existing utility mapping as appropriate, and incorporate the verified utility information.

Activity 3985 - Update Utility Risk Assessment Plan

M&S will prepare and update the Utility Risk Assessment Plan based on information received from the utility companies, the results of the SUE investigations performed under Activity 3080, and the advancing Preliminary Engineering design. The updated plan will be used to document and address

identified utility risks and support preparation of the preliminary roadway and construction staging plans. M&S will inform the PM of any new project-specific utility risks or changes to previously identified utility risks.

SURVEY & BASE MAPPING

Malick & Scherer, P.C. (M&S) will perform conventional ground survey and base mapping along Pleasant Valley Way. A temporary shadow vehicle and/or local police/flagger may be required to protect the survey crew and maintain traffic. For this proposal, temporary lane interruptions, if required, are assumed to be permitted by the County and Township between 9:00 AM and 3:00 PM, Monday through Friday.

Survey limits will extend along Pleasant Valley Way from 300 feet south of Greenwood Avenue to 100 feet north of Kenz Terrace, up to 10 feet beyond the existing right-of-way, and approximately 100 feet along intersecting side streets from the Pleasant Valley Way centerline. Survey will include topographic, drainage, and sanitary sewer features, including pipe sizes, materials, and invert elevations where accessible.

Activity 3015 – Prepare Control Survey Report
M&S will prepare a Primary Survey Report in accordance with applicable sections of the Procedures Manual and Article 44 of the Consultant Contract, for submission to the County/Township if required. The report will document monuments and benchmarks used and established; NJ State Plane Coordinate System, NAD 1983 and NAVD 1988 references; survey equipment and calibration; survey procedures; software used to process and adjust observations; and data computations and results.

Activity 3020 – Conduct Topographic Survey
M&S will perform conventional field topographic survey and develop English-unit digital base mapping compatible with AutoCAD Civil 3D. Survey data will be processed into a Digital Terrain Model (DTM), and an ASCII point file will be prepared.

Mobilization and Document Research
M&S will mobilize a field crew and request relevant existing plans and documents from the County/Township.

Permit and MPT Coordination
M&S will coordinate roadway permit requirements and Maintenance and Protection of Traffic (MPT) services and/or local police for temporary lane interruptions. Up to three days of MPT/Police are included, as most survey work is anticipated behind the curb.

Primary Control
Horizontal and vertical control will be established within the project limits based on GPS observations and tied to NJ State Plane NAD 83 and NAVD 88 datums. Primary control points will include three swing ties, benchmarks will be established at approximately 500-foot intervals as required, and tie sheets will be prepared.

Ground Survey
Conventional survey methods will be used to obtain roadway cross sections at approximately 50-foot intervals and locate topographic features, including visible utility hardware, pole numbers, overhead wires, hydrants, manholes, catch basins, valves, and similar features. Buildings within the survey limits will be located where possible, including building lines/corners, doorway thresholds, finished floor elevations, landings, and stoops. Sidewalk joints are excluded. Significant grade breaks and curb depressions will be located.

Drainage & Sanitary Sewer Survey

M&S will survey up to 40 drainage/sanitary structures and obtain locations, grate/rim elevations, and invert elevations where accessible.

ADA Curb Ramp Survey

Detailed conventional survey will be performed for up to 10 corner locations on an approximate 5-foot grid extending up to 15 feet beyond the PT of each identified curb ramp.

Activity 3025 – Prepare Base Maps

Base Mapping and DTM

Base mapping will incorporate surveyed planimetrics and topography and be prepared in AutoCAD Civil 3D consistent with 1" = 20' mapping specifications. Features will be assigned appropriate layers and attributes and edited in three dimensions. The DTM will incorporate pertinent field survey information, and 1-foot contours will be generated. Survey work will be subject to M&S QA/QC procedures.

Existing Baseline

The existing roadway baseline will be established from available documents and surveyed features such as ROW markers, curb lines, and other identifiable points. It is assumed the County/Township will provide available alignment plans, parcel plans, and/or as-builts showing existing baseline and geometry.

Deed Mosaic and Research

Current cover deeds for up to 36 lots abutting Pleasant Valley Way will be obtained, reviewed, and plotted. M&S will prepare a deed mosaic and property owner listing. A complete title search will not be performed.

Existing ROW

Although ROW impacts are not anticipated, M&S will develop existing ROW lines using deeds, available County/Township plans, and tax maps under a normal standard of analysis. It is assumed existing ROW plans will be provided by the County/Township. Activities 3110 - Prepare ROW Report, 3115 - Initiate ROW Impact Plan, and 3120 - Hold ROW Kickoff Meeting are excluded.

ENGINEERING DESIGN

Activity 3006 – Prepare & Submit PE Complete Streets Checklist

M&S will prepare the NJDOT Preliminary Engineering Complete Streets Checklist documenting applicable accommodations for pedestrians, bicyclists, transit users, persons with disabilities, and other roadway users. The checklist will be coordinated with the Preliminary Engineering design and submitted to NJDOT Local Aid for review. M&S will address applicable review comments and revise the checklist as necessary to obtain acceptance.

Activity 3012 – Develop Landscape Architectural Design

M&S will develop the Preliminary Engineering landscape and streetscape design, including proposed street trees, plantings, planters, benches, bicycle racks, trash receptacles, bus shelters, and other proposed streetscape amenities. The design will consider existing conditions, pedestrian circulation, visibility, utilities, drainage, maintenance requirements, adjacent development, and input from the Township and project stakeholders. M&S will coordinate with the Township Forester regarding the selection of species and the locations of proposed street trees, plantings, and landscape areas and will incorporate applicable comments into the Preliminary Engineering design.

M&S will develop the landscape and streetscape design to a Preliminary Engineering level sufficient to establish the proposed locations, types, materials, and general character of the improvements for

incorporation into the Preliminary Roadway Plans and Construction Cost Estimate. Detailed planting plans, construction details, final quantities, and final specifications will be developed during Final Design.

Activity 3030 – Prepare Horizontal & Vertical Geometry

M&S will develop the preliminary horizontal and vertical geometry for the proposed streetscape improvements based upon the approved survey base mapping, existing roadway characteristics, field investigations, and the project goals. The preliminary geometry will establish the framework for the proposed roadway, sidewalk, streetscape, and pedestrian improvements while minimizing impacts to existing infrastructure, utilities, adjacent properties, and traffic operations.

The preliminary geometric design will include evaluation of roadway cross sections, sidewalk alignments, curb alignments, curb ramp locations, pedestrian refuge opportunities, driveway transitions, streetscape amenity locations, and ADA-compliant pedestrian facilities. Existing roadway widths will be evaluated to determine whether lane width adjustments can improve pedestrian safety, including opportunities to provide pedestrian refuge areas at the Greenwood Avenue crossing while maintaining acceptable traffic operations.

The proposed geometry will incorporate the conceptual locations of decorative crosswalks, RRFB crossings, pedestrian-scale lighting, landscaping, street furnishings, bus shelters, bicycle racks, and other streetscape elements. Proposed grading will be coordinated with existing drainage patterns to minimize impacts to adjacent properties while maintaining ADA accessibility requirements throughout the project corridor.

The preliminary geometric design will provide the basis for roadway layout, utility coordination, traffic engineering, environmental documentation, drainage design, construction staging, and preparation of the preliminary construction plans.

Activity 3070 – Prepare Preliminary Roadway Plans

M&S will prepare Preliminary Roadway Plans illustrating the proposed improvements necessary to support environmental documentation, utility coordination, stakeholder review, and advancement into Final Design. The plans will be developed utilizing the approved survey base mapping, preliminary roadway geometry, landscape and streetscape design, environmental constraints, traffic engineering recommendations, and utility coordination completed under previous activities.

The Preliminary Roadway Plans will depict the conceptual layout of the proposed streetscape improvements throughout the project corridor, including roadway improvements, sidewalk reconstruction, ADA-compliant curb ramps, decorative crosswalks, pedestrian refuge opportunities, streetscape amenities, landscaping, pedestrian-scale lighting, RRFB crossings, traffic signal improvements, bus shelters, bicycle racks, benches, trash receptacles, and other proposed features. Existing and proposed right-of-way, utility facilities, drainage improvements, and environmental constraints will be incorporated as appropriate to support project development.

Roadway plans will be developed in sufficient detail to evaluate constructability, utility impacts, environmental commitments, maintenance of traffic, stakeholder comments, and preliminary construction quantities. Throughout plan development, M&S will coordinate with the Township, Essex County, NJDOT, and project stakeholders to refine the proposed improvements and incorporate comments received during Preliminary Engineering.

The Preliminary Roadway Plans are anticipated to include the following:

- Title Sheet and Key Map
- Typical Sections
- Construction Plans

- Traffic Control and Staging Plans
- Traffic Striping and Signing Plans
- Electrical Plans
- Landscape Plans
- Construction Details

The Preliminary Roadway Plans will provide the basis for preparation of the Construction Cost Estimate and development of the Final Design scope.

Activity 3085 – Prepare Preliminary Drainage Design
M&S will prepare a preliminary drainage design to accommodate the proposed improvements while generally maintaining existing drainage patterns. The design will evaluate impacts to existing drainage facilities and identify localized modifications, which may include adjustment or relocation of inlets, modification of inlet types, short storm sewer extensions or replacements, and adjustment of structure elevations. Proposed grading will be coordinated with drainage and ADA requirements.

Based on the anticipated improvements, the project is assumed not to constitute a Major Development under the NJDEP Stormwater Management Rules. Applicable NJDEP MS4 requirements will be incorporated into the design, including approved storm drain inlet protection measures where required. Evaluation of the existing storm drainage system for hydraulic capacity, existing flooding conditions, or existing drainage deficiencies is not included.

Activity 3090 – Determine Traffic Engineering Facility Locations
M&S will evaluate the existing traffic control devices, pedestrian facilities, signing, pavement markings, traffic signals, roadway lighting, and pedestrian crossing treatments throughout the project corridor to determine the preliminary locations and conceptual design of proposed traffic engineering improvements.

Traffic engineering services will include collection of existing traffic data, traffic operational analyses, and conceptual design of pedestrian safety improvements. Traffic counts will be collected to support evaluation of pedestrian crossing treatments, RRFB warrants, signal timing refinements, and overall corridor operations.

Data collection will occur as follows:

ATR counts will be recorded for a continuous 24-hour period for 7 days in both travel directions, on a non-holiday week during the school year. ATRs will collect volume, speed and vehicle classification data, provided in 15-minute increments. ATR counts will be collected at the following nine (9) locations:

- Pleasant Valley Way at Greenwood Avenue (3 Legs)
- Pleasant Valley Way at Marmon Terrace (4 Legs)
- Pleasant Valley Way at Eagle Rock Avenue (2 legs – Eagle Rock Avenue)

Intersection turning movement counts (TMCs) will be collected during one weekday (Tuesday, Wednesday or Thursday) and Saturday while school is in session in the Spring or Fall when local traffic generators have the most foot traffic. Data will be collected using MioVision count units. Vehicle and pedestrian data will be processed for the Weekday AM, Midday, PM, and Saturday peak periods. TMC counts will occur at the following locations:

- Pleasant Valley Way at Greenwood Avenue
- Pleasant Valley Way at Marmon Terrace
- Pleasant Valley Way at Eagle Rock Avenue

Traffic analyses will be performed utilizing Synchro traffic engineering software to evaluate existing and future operating conditions associated with the proposed improvements. Future traffic analysis will consider the following peak hour periods:

- Weekday AM Peak Hour
- Weekday Midday Peak Hour
- Weekday PM Peak Hour
- Saturday Peak Hour

Each time period will be analyzed under the following conditions:

- Existing Conditions
- Future No-Build (With No Proposed RRFB crossings and Existing Lane Geometry and Signal Timings)
- Future Build (With Proposed RRFBs and Signal Timing Adjustments (if needed) at Eagle Rock Avenue)

Synchro model simulations (SimTraffic) will be run for one (1) one-hour period. The Synchro and simulation results will be utilized to report existing and future condition Level of Service (LOS), delay, and queues. It is anticipated that two iterations of the Synchro model may need to be evaluated to determine if the proposed traffic signal timings to a level acceptable by the County. M&S will prepare tables to summarize the results of the traffic analysis.

Based upon the results of the traffic analyses and field investigations, M&S will prepare preliminary layouts for the proposed RRFB installations, traffic signal modifications, signing and striping improvements, and pedestrian crossing enhancements. Push button locations will be reviewed for MUTCD compliance. The traffic signal timing directive will be developed for weekday peak, weekday non-peak, and weekend time periods (or as needed based on the existing timing plans). A review of pedestrian clearance intervals will be conducted, and new pedestrian heads may be recommended as needed.

Existing roadway geometry will be evaluated to determine opportunities to improve pedestrian safety, including potential lane width modifications and pedestrian refuge areas near the Greenwood Avenue crossing, while maintaining acceptable traffic operations.

A sign inventory within the project limits will be prepared using street view webpages and field observations. Each sign will be documented based on MUTCD and NJDOT sign designations, size, condition, compliance and photographed. Non-standard signs will also be inventoried. Condition of existing pavement markings will be assessed.

Preliminary Plans showing the existing and proposed layout of roadway signs and pavement markings will be developed in accordance with NJDOT Standard Details and guidance from the FHWA MUTCD.

The existing lane geometry and marking types are anticipated to remain, as appropriate. Lane geometry modifications will be assessed at the Greenwood Ave intersection with the goal of gaining enough space for a center raised median to act as a pedestrian refuge area. This would result in the travel lanes in each direction being shifted toward the outside curb in each direction.

Preliminary lighting design will include evaluation of existing lighting at each of the above-mentioned intersections, conceptual pedestrian-scale decorative lighting, preliminary lighting layouts, lighting warrant evaluations, and coordination with PSE&G regarding proposed lighting infrastructure. Preliminary photometric analyses and lighting calculations will be performed using Visual Lighting Design

Software, as appropriate, to establish conceptual fixture locations and spacing consistent with NJDOT requirements.

Traffic engineering recommendations developed during this activity will be incorporated into the Preliminary Roadway Plans and Construction Cost Estimate.

Assumptions:

- Trip generation or volume distribution for future developments will not be performed.
- No Traffic Control will be required to perform the set-up or takedown of the count equipment.
- A Traffic Impact Report is not required.
- No temporary signal design will be required.
- No geotechnical borings, investigations and reporting will be performed under PE at new traffic signal locations. It is assumed geotechnical activities for signal pole foundations will be performed in FD.
- Volume diagrams will not be prepared. Raw data sheets will be used for the analysis/warrants.
- Business driveway traffic data will not be collected.
- No signal operations or equipment modifications are proposed at Eagle Rock Ave except for potential timing refinements based on current traffic conditions, and installing microwave pedestrian detection devices.
- A County signal plan may be used as the go-by if directed by the Township.
- M&S will coordinate with NJDOT/County to determine preferred luminaire type, manufacturer, and model number.

Activity 3130 – Update Preliminary Detour and Construction Staging Plans

M&S will develop preliminary construction staging and maintenance of traffic concepts to facilitate construction while maintaining safe and efficient access for motorists, pedestrians, transit users, emergency responders, businesses, and adjacent property owners.

Construction staging concepts will evaluate the sequence of proposed improvements, pedestrian detours, temporary sidewalk accommodations, maintenance of access to commercial properties and residences, coordination with utility construction, and opportunities to minimize traffic disruptions throughout construction.

The preliminary staging concepts will identify anticipated construction phases, temporary traffic control requirements, business driveway access needs, and maintenance of pedestrian accessibility during construction. Potential impacts to bus stops, intersections, and pedestrian crossings will also be evaluated. Construction staging assumptions developed during this activity will be reflected in the Preliminary Roadway Plans and Construction Cost Estimate.

Activity 3135 – Prepare Construction Cost Estimate

M&S will prepare and update a Preliminary Engineering Construction Cost Estimate based on the Preliminary Roadway Plans and anticipated construction quantities. Unit prices will be based on current NJDOT bid-price information and other appropriate cost data, as necessary. The estimate will include roadway, pedestrian and ADA improvements, drainage, traffic signal, signing and striping, lighting, landscaping and streetscape amenities, utility-related work, maintenance and protection of traffic, and other anticipated construction items. Appropriate contingencies and allowances will be included for items not fully defined during Preliminary Engineering.

ENVIRONMENTAL STUDIES & PUBLIC INVOLVEMENT

Activity 3300 – Initiate Cultural Resources (Section 106) Process
Richard Grubb & Associates (RGA), as a subconsultant to M&S and under M&S' supervision, will provide cultural resources services necessary to initiate the Section 106 consultation process. RGA will review available information, identify known historic properties and archaeological resources within or adjacent to the project area, assist in establishing the Area of Potential Effects (APE), and prepare applicable cultural resources documentation and recommendations in accordance with NJDOT and Section 106 requirements.

RGA will coordinate its findings with M&S for incorporation into the environmental documentation and Preliminary Engineering design. M&S will manage and coordinate RGA's services and provide available project plans, mapping, and design information necessary to support the cultural resources review.

Activity 3305 – Conduct Cultural Resources Survey
RGA, as a subconsultant to M&S and under M&S' supervision, will conduct a Cultural Resources Survey to comply with Section 106 of the National Historic Preservation Act of 1966, as amended, and will conform to all requirements of the NJDOT and NJHPO for such studies. The initial survey will include an Intensive-level historic architectural survey. Background research will be performed using available and accessible NJHPO files, New Jersey State Library, and local repositories, if feasible. Pertinent planning and regulatory surveys at the NJHPO will be reviewed. Historic atlases and maps will be reviewed. RGA will use the NJHPO's GIS data for information on known historic properties proximate to the project area. RGA will also review internal files for information on prior cultural resources surveys. An archaeological survey is not included.

Intensive-level Historic Architectural Survey

The Intensive-level historic architectural survey will determine if previously identified cultural resources and any unidentified significant buildings, historic districts, and structures of greater than 50 years in age are present within the APE-Architecture and will be impacted by the project. Preliminary background research suggests there are approximately 11 previously unidentified and/or unevaluated historic resources within a probable APE-Architecture, consisting primarily of early to mid-twentieth century dwellings and commercial properties. These resources include Block 176.05, Lot 10; Block 176.03, Lots 16 and 17; Block 152.22, Lots 142.01, 142.02, 142.03, and 142.05; Block 154.06, Lots 13, 14, 15, and 18. RGA does not anticipate that all 11 resources will require Intensive-level survey. Important considerations will be if the architectural resource possesses the requisite historical significance and integrity for listing in the NRHP and whether the proposed undertaking has the potential to impact the resource's ability to meet the NRHP Criteria. Project effects will be assessed on all identified historic properties.

Activity 3310 – Prepare Cultural Resources Survey Report
RGA, as a subconsultant to M&S and under M&S' supervision, will prepare a Cultural Resources Survey Report covering historic architecture. The report will describe the survey and identification/evaluation of resources associated with the project and will follow current guidelines prepared by the NJDOT and the NJHPO. The report will summarize the results of Activity 3305 and will provide the basis for consultation with the NJHPO.

Activity 3320 – Address Comments on Cultural Resources Survey Report
RGA, as a subconsultant to M&S and under M&S' supervision, will incorporate comments received from the NJDOT into a final Cultural Resources Survey report to be submitted to the NJHPO.

Activity 3765 – Conduct Ecology Study

M&S will evaluate the site's existing conditions and potential impacts of the project to natural resources. This includes surface water quality, upland forests, soils, wetlands, waterbodies including aquatic species and habitats, floodplains and flooding, riparian zones, terrestrial species and habitats, and threatened and endangered species. A preliminary review of NJDEP geospatial data on-line mapping indicates that there are no mapped waters or wetlands in the project area. M&S will conduct field reconnaissance to confirm the presence of regulated features (1 day/2 people).

M&S will begin initial coordination with the appropriate regulatory agencies having jurisdiction over resources that will be potentially affected, including US Fish & Wildlife Service and NJDEP Natural Heritage Program (NHP). An Environmental Screening Report will be prepared to identify potential environmental constraints and support the Categorical Exclusion Document (CED). NJDOT BEPR will lead all federal agency consultations with M&S providing the necessary technical support, if required.

Activity 3840 – Conduct Hazardous Waste Study

Several historic and active NJDEP Site Remediation Program cases are present along the project corridor. M&S will evaluate the project's potential involvement with known or suspected contaminated waste sites through the review of available data including an environmental database search (EDR), review of historic aerials and land use, Sanborn maps, and geospatial data. Additionally, M&S will research and inquire from NJDEP any known case files within the vicinity of the project. Site reconnaissance will be performed to visually identify recognized environmental concerns and hazardous materials within the vicinity of the project. The results of the Hazardous Waste Study will be presented in a memorandum for use in completing the CED.

Activity 3865 – Hold Public Information Center

Colliers Engineering & Design (Colliers) will organize, coordinate and facilitate one (1) Public Information Center (PIC) during the Preliminary Engineering phase in accordance with NJDOT public involvement requirements and in coordination with M&S, the Township, and NJDOT.

The Public Information Center will be conducted at a Township-provided venue and will present the proposed conceptual improvements to the public, elected officials, stakeholders, businesses, and adjacent property owners. M&S will provide the applicable preliminary design information and technical exhibits. Colliers will prepare the public presentation materials, meeting handouts, sign-in sheets, and meeting advertisements and coordinate meeting logistics with the Township and NJDOT.

Following the meeting, Colliers will prepare meeting minutes summarizing the public comments received and document responses to comments for incorporation into the environmental documentation and project development process. Public input will be evaluated to determine whether refinements to the preliminary design are warranted.

Activity 3874 – Execute PE Public Involvement Action Plan (PIAP)

Colliers, as a subconsultant to M&S and under M&S' supervision, will coordinate stakeholder outreach during Preliminary Engineering. Stakeholder coordination is anticipated to include:

- One (1) meeting with the Downtown West Orange Alliance.
- Two (2) meetings with the Township Historic Preservation Commission.
- Coordination with the Pedestrian Safety Advisory Board, as appropriate.
- Coordination with Essex County, as appropriate.

Colliers will coordinate with M&S and the Township to schedule the meetings; prepare appropriate meeting materials using technical information provided by M&S; participate in and facilitate the meetings; and document substantive comments, decisions, and action items. Colliers will coordinate

stakeholder comments with M&S for consideration in the Preliminary Engineering design and environmental documentation and will assist the Township in obtaining the anticipated Historic Preservation Commission Resolution of Support.

Activity 3890 – Prepare Certified Categorical Exclusion (CCE) Document
It is anticipated that the project meets the Programmatic Agreement for Approval of Certain Categorical Exclusions between the FHWA and NJDOT. M&S will assist NJDOT BEPR with preparation of the Certified Categorical Exclusion Document (CCED) by preparing Section I. *General Information* and Section II. *Project Description* and environmental constraints mapping to support the CCED.

PRELIMINARY ENGINEERING DOCUMENTATION

Activity 3160 – Prepare Draft Preliminary Engineering Report
M&S will prepare the Draft Preliminary Engineering (PE) Report documenting the engineering, environmental, utility, and public involvement activities completed during Preliminary Engineering and the resulting design decisions and recommendations. The report will be prepared in accordance with NJDOT requirements and will include or reference the applicable environmental documentation, Preliminary Roadway Plans, technical studies and memoranda, Construction Cost Estimate, stakeholder coordination documentation, and other required supporting information for NJDOT review and advancement of the project into Final Design.

Activity 3165 – Finalize Project Plan
Following receipt of Preliminary Engineering review comments, M&S will coordinate with the Township and NJDOT to address applicable comments and revise the Preliminary Roadway Plans and supporting PE documentation, as appropriate. The finalized plans will incorporate accepted design refinements, stakeholder input, environmental commitments, utility coordination requirements, and other applicable revisions and will establish the approved Project Plan for advancement into Final Design.

Activity 3185 – Develop Final Design Public Involvement Action Plan
Colliers, as a subconsultant to M&S and under M&S' supervision, will prepare the Final Design Public Involvement Action Plan (PIAP) based on the public and stakeholder coordination completed during Preliminary Engineering. The PIAP will identify anticipated Final Design outreach activities, stakeholders, communication methods, project milestones, and opportunities for public participation and will address applicable comments and commitments developed during Preliminary Engineering. Colliers will submit the draft PIAP to M&S for review and address comments necessary to finalize the document.

Dear Arif Malick:

Based on our review of Malick & Scherer, P.C.'s Statement of Direct Labor, Fringe Benefits and General Overhead for the Year Ended December 31, 2025, we recommend overhead rates of *91.09* percent be used for construction inspection projects, *99.88* percent be used for home office projects, and *97.95* percent be used for additional work modifications for contracts entered into prior to your firm selecting to use split rates or the time split rates were required on all new contracts and extra work modifications. Additionally, in accordance with current Department policy, if FCCM is specifically identified in the cost proposals relating to the contract under which the cost is to be claimed, the audited FCCM rates of *0.26* percent should be used for construction inspection projects, *0.29* percent should be used for home office projects, and *0.28* percent should be used for additional work modifications for contracts entered into prior to your firm selecting to use split rates or the time split rates were required on all new contracts and extra work modifications. The above rates should be used for funding all new contracts.

In addition, the overhead rates proposed on this overhead letter expire on July 1, 2027.

These rates are subject to audit verification. Our acceptance of these rates does not extend beyond contracts with the New Jersey Department of Transportation. Any other entity contracting with the firm is responsible for determining the acceptability of the overhead statement.

This letter will be provided to other governmental entities upon request, in accordance with 23 U.S.C. § 112(d).

If you have any questions, feel free to contact Timothy Groark at (609)-963-2412 or Timothy.Groark@dot.nj.gov.

CULTURAL RESOURCES

SCOPE OF WORK

CULTURAL RESOURCES SURVEY

2025 TRANSPORTATION ALTERNATIVES SET-ASIDE PROGRAM
PLEASANTDALE STREETSCAPE PROJECT

TOWNSHIP OF WEST ORANGE, ESSEX COUNTY, NEW JERSEY

August 20, 2026

Richard Grubb & Associates, Inc. (RGA) will complete a Cultural Resources Survey in support of the Township of West Orange's proposed streetscape improvements to an approximately 1,250-foot segment of Pleasant Valley Way, between Greenwood Avenue and Marmon/Kenz Terrace. As part of the proposed project, the Township is proposing key improvements designed to elevate safety and accessibility for commuters alongside beautification enhancements. Planned upgrades include, but are not limited to, new brick pavers and stamped concrete crosswalks, ADA-compliant curb ramps, flashing LED pedestrian beacons, decorative lighting fixtures, benches, and trash receptacles, among other work. The proposed project will include the installation of trees, PSEG decorative light poles and fixtures, planters, bus shelters, benches, bike racks, trash receptacles, detectable warning surfaces, and an asphalt-stamped or brick paver crosswalk at various points throughout the project limits. These enhancements are essential for maintaining consistency and accessibility throughout Pleasant Valley Way, as well as improving overall safety for the community.

The Preliminary Engineering (PE) phase will be funded, in part, by a 2025 Transportation Alternatives Set-Aside grant that is administered by the New Jersey Department of Transportation-Bureau of Environmental Program Resources (NJDOT-BEPR) in partnership with the North Jersey Transportation Planning Authority (NJTPA). The Federal Highway Administration (FHWA) is the lead federal agency. Due to the use of federal funding, the proposed project is an undertaking subject to Section 106 of the National Historic Preservation Act of 1966 (NHPA), as amended (Public Law 89-665; 54 USC §; 300101 et seq.), and its implementing regulations (36 CFR § 800), the National Environmental Policy Act (NEPA), and Section 4(f) of the US Department of Transportation Act. The Cultural Resources Survey described herein will be sufficient to complete Section 106 consultation between the NJDOT and New Jersey Historic Preservation Office (NJHPO) through determinations of National Register of Historic Places (NRHP) eligibility and assessments of effects should historic properties be identified. Historic properties are defined as resources listed in or eligible for listing in the NRHP.

A review of the NJ Cultural Resources GIS Online Map Viewer (NJ-GeoWeb) indicates that the project location is not situated within the boundaries of a historic property previously determined eligible for or listed in the NRHP, nor is the project location situated within an archaeological site grid. Preliminary background suggests there are several historic resources lining the project limits that have not been previously identified or evaluated for the NRHP by the NJHPO. As currently proposed, a number of the proposed project elements consist of activities on the NJDOT's current *List of Undertakings Which Have Limited or No Effect on Cultural Resources in New Jersey*, including the installation of trash receptacles, bike racks, and benches.

CULTURAL RESOURCES SURVEY

The goal of the Cultural Resources Survey will be to initiate the Section 106 process, define appropriate Areas of Potential Effects for Archaeology (APE-Archaeology) and Historic Architecture (APE-Architecture), evaluate the eligibility for the NRHP of all historic architectural resources within the APE-Architecture, and to assess effects of the project on historic properties, if any. The proposed effort will comprise an Intensive-level historic architectural survey. Based on the limited extent and nature of the undertaking, a formal archaeological survey is not included. The NJDOT staff will lead the coordination effort with NJHPO.

The results of the Cultural Resources Survey will be presented in a report that meets the Secretary of the Interior's *Standards and Guidelines for Archaeology and Historic Preservation* (1983) and will meet the requirements of the NJHPO's *Guidelines for Architectural Survey* (1999).

The project archaeologist will meet the Secretary of the Interior's Professional Qualifications Standards for Archaeology (36 CFR § 61). The project architectural historian will meet the Secretary of the Interior's Professional Qualifications Standards for Architectural History (36 CFR § 61).

ACTIVITIES

Activity Codes 3300, 3305, 3310, and 3320 will be completed in accordance with the NJ Project Delivery Process for Preliminary Engineering.

Initiate Cultural Resources (Section 106) Process (3300)

RGA will prepare a letter that delineates the APEs to facilitate the NJDOT's initiation of Section 106 consultation with the NJHPO. This will entail a review of project maps to identify the proposed limits of disturbance, which will be used to delineate the APE-Archaeology. The APE-Architecture will encompass the APE-Archaeology. A site visit will be conducted to document existing conditions within the APE-Architecture using digital photography. Representative photographs of the APE-Architecture will be included in the APE letter submitted to the NJHPO. RGA will also prepare a list of potential consulting parties. RGA will check the archaeological site files at the New Jersey State Museum (NJSM) for previously registered archaeological sites within or proximate to the APE-Archaeology. Since it is unlikely that the project will impact archaeological historic properties, it is anticipated that the archaeological effort will end with the Section 106 initiation process. A recommendation for no further archaeological survey is expected within the Section 106 initiation letter. Project mapping is requested to help complete the Section 106 initiation letter.

Estimated duration: 1-2 months.

Conduct Cultural Resources Survey (3305)

A Cultural Resources Survey will be performed to comply with Section 106 of the National Historic Preservation Act of 1966, as amended, and will conform to all requirements of the NJDOT and NJHPO for such studies. The initial survey will include an Intensive-level historic architectural survey. Background research will be performed using available and accessible NJHPO files, New Jersey State Library, and local repositories, if feasible. Pertinent planning and regulatory surveys at the NJHPO will be reviewed. Historic atlases and maps will be reviewed. RGA will use the NJHPO's GIS data for information on known historic properties proximate to the project area. RGA will also review internal files for information on prior cultural resources surveys. An archaeological survey is not included.

Intensive-level Historic Architectural Survey
The Intensive-level historic architectural survey will determine if previously identified cultural resources and any unidentified significant buildings, historic districts, and structures of greater than 50 years in age are present within the APE-Architecture and will be impacted by the project. Preliminary background research suggests there are approximately 11 previously unidentified and/or unevaluated historic resources within a probable APE-Architecture, consisting primarily of early to mid-twentieth century dwellings and commercial properties. These resources include Block 176.05, Lot 10; Block 176.03, Lots 16 and 17; Block 152.22, Lots 142.01, 142.02, 142.03, and 142.05; Block 154.06, Lots 13, 14, 15, and 18. RGA does not anticipate that all 11 resources will require Intensive-level survey. Important considerations will be if the architectural resource possesses the requisite historical significance and integrity for listing in the NRHP and whether the proposed undertaking has the potential to impact the resource's ability to meet the NRHP Criteria. Project effects will be assessed on all identified historic properties.

Estimated duration: 3 months.

Prepare CR Survey Report (3310)

RGA will prepare a Cultural Resources Survey Report covering historic architecture. The report will describe the survey and identification/evaluation of resources associated with the project and will follow current guidelines prepared by the NJDOT and the NJHPO. The report will summarize the results of Activity 3305 and will provide the basis for consultation with the NJHPO.

Estimated duration: 2 months from completion of all fieldwork.

Review CR Survey Report (3315)

To be completed by the NJDOT.

Estimated duration: 2 weeks.

Address NJDOT Comments on CR Survey Report (3320)

RGA will incorporate comments received from the NJDOT into a final Cultural Resources Survey report to be submitted to the NJHPO.

Estimated duration: 2 weeks.

Approve CR Survey Report (3325)

To be completed by the NJDOT.

Estimated duration: To be determined based on report complexity.

ASSUMPTIONS/EXCLUSIONS

This proposal assumes that the contractor and/or NJDOT will facilitate entry onto private properties, if necessary, to enable the completion of the Section 106 initiation letter and fieldwork.

Survey tasks can only commence once mapping depicting the LOD is provided. RGA assumes that the project team will additionally provide the LOD as a GIS shapefile or CAD layer file. In the event project plans change after RGA has commenced survey tasks, a supplemental scope will be necessary.

Phase IA/IB archaeological survey (i.e., shovel test pits, artifact processing and analysis) is not included. Such work, if required by the NJHPO, will require the submission of supplemental scope of work and cost.

As the work does not extend within the boundaries of an NJR-listed historic property, RGA assumes that compliance with the New Jersey Register of Historic Places Act (NJRHPA) and the completion of an Application for Project Authorization (APA) will not be required for this project. Should the NJHPO require the drafting of an APA, a separate scope and cost can be provided for this task.

Road and/or shoulder closure permits are not anticipated and not included in this scope.

Assistance with drafting an MOA and/or Section 4(f) document (Activity Codes 3335 and 3410) and with the preparation and submission of Adverse Effect Documentation to the FHWA and Advisory Council on Historic Preservation (Activity Code 3350) is not included and would require a supplemental scope.

Consultation with Native American tribes and other consulting parties will be performed by the NJDOT-BEPR.

Should the NJHPO require intensive-level survey of additional historic resources, then a supplemental scope and cost would be needed.

Mitigation work, if required, will take place during the Final Design (FD) phase. Archaeological monitoring, if required, would take place during the Construction (CON) phase.

PRELIMINARY ENGINEERING

Colliers Engineering & Design (Colliers) will provide public involvement services as a subconsultant to Malick & Scherer, PC (M&S) during the Preliminary Engineering (PE) phase of the Pleasantdale Streetscape Project in the Township of West Orange, Essex County, New Jersey.

The project is being advanced under the NJDOT Transportation Alternatives (TA) Set-Aside Design Assistance Program. M&S will serve as the prime consultant and will provide overall project management and coordination of Colliers' services with the Township of West Orange, NJDOT Local Aid, Essex County, and the other project disciplines.

Colliers' Preliminary Engineering services will include the following:

Activity 3865 – Hold Public Information Center

Colliers will organize, coordinate, and facilitate one (1) Public Information Center (PIC) during Preliminary Engineering in accordance with applicable NJDOT public involvement requirements and in coordination with M&S, the Township, and NJDOT.

Colliers will coordinate with M&S and the Township regarding the date, location, format, and content of the PIC. The Township will provide the meeting venue.

Colliers' services will include:

- Coordination and preparation for one (1) PIC.
- Preparation of public-facing presentation materials, meeting handouts, sign-in sheets, and meeting advertisements using technical design information and exhibits provided by M&S, and in coordination with the Township and NJDOT.
- Presentation and facilitation support during the PIC.
- Documentation of comments received from the public, elected officials, stakeholders, businesses, and adjacent property owners.
- Preparation of meeting minutes and a summary of public comments.
- Coordination with M&S regarding responses to comments and potential refinements to the Preliminary Engineering design resulting from public input.

M&S will provide Colliers with the applicable preliminary design information, technical exhibits, environmental information, traffic information, and other technical project information necessary for preparation of the meeting materials. Colliers will be responsible for assembling and formatting the information into appropriate public-facing presentation materials.

Activity 3874 – Execute PE Public Involvement Action Plan

Colliers will coordinate stakeholder outreach during the Preliminary Engineering phase in coordination with M&S and the Township.

For purposes of this proposal, stakeholder coordination will include:

- One (1) meeting with the Downtown West Orange Alliance.
- Two (2) meetings with the Township Historic Preservation Commission.
- Coordination with the Pedestrian Safety Advisory Board, as appropriate.
- Coordination with Essex County, as appropriate.

M&S will provide the applicable technical design information and exhibits for the stakeholder meetings. Colliers will prepare and assemble appropriate public-facing meeting materials, which may include project handouts, location maps and aerials, environmental screening information, photographs, and other materials necessary to facilitate review and discussion.

Colliers will coordinate with M&S and the Township in preparing meeting materials and presenting the proposed improvements. Colliers will coordinate with the Township to schedule the identified stakeholder meetings and will prepare meeting minutes documenting discussions, comments, concerns, decisions, and action items, as appropriate.

Colliers will assist the Township in obtaining the anticipated Resolution of Support from the Historic Preservation Commission following completion of the applicable coordination.

Colliers will maintain documentation of stakeholder coordination activities and provide such documentation to M&S for incorporation into the project record and environmental documentation. Colliers will coordinate applicable stakeholder comments with M&S and the project design team for consideration in development of the Preliminary Engineering plans.

Activity 3185 – Develop Final Design Public Involvement Action Plan

Based upon the public outreach and stakeholder coordination completed during Preliminary Engineering, Colliers will prepare a Public Involvement Action Plan (PIAP) for implementation during the Final Design phase.

The PIAP will identify anticipated public involvement activities, stakeholder coordination requirements, communication methods, project milestones, and opportunities for continued public participation during Final Design.

The PIAP will consider the comments and commitments developed during Preliminary Engineering and establish a framework for continued coordination with the Township, NJDOT, Essex County, adjacent property owners, businesses, community organizations, and other applicable stakeholders.

Colliers will submit the draft PIAP to M&S for review and will address comments from M&S and NJDOT necessary to finalize the document.

EVALUATE PROJECT SPECIFICS:

Directions:
Prime Consultant will use Total Project Design Cost (or Task Order Design Cost) for the SIZE criteria
Each Subconsultant will assign points for SIZE, COMPLEXITY, DURATION, & DEGREE OF RISK based on its specific project tasks.

SPECIFICS	CRITERIA	POINTS	RATING
SIZE:	*SMALL* - Total Fee (Project Design Cost) < $1,250,000	15	**15**
	LARGE - Total Fee (Project Design Cost) > $1,250,000	20	
COMPLEXITY:	*SIMPLE* - Limited Scope of Work; Deck Patching, Resurfacing, Restoration, Inspection, Concept Development Services	10	**15**
	STANDARD - Moderate Scope; Rehabilitation, New, or Reconstruction	15	
	COMPLEX - Multi-disciplined, Highly Specialized, or Major Unusual	20	
DURATION:	*STANDARD* - Appropriate Schedule	15	**15**
	AGGRESSIVE - Designers Schedule Reduced > 10 %	20	
DEGREE OF RISK:	*LEVEL 1* - Low Risk of Claims; Studies, Surveys, Landscape, Inspections	20	**30**
	LEVEL 2 - Average Risk of Claims; Standard Complexity or Level 1 with High Public Exposure	30	
	LEVEL 3 - High Risk of Claims; Hazardous, Experimental, or Bonus/Penalty Clauses	40	
		TOTAL RATING =	**75**

CALCULATE FEE:

PROJECT SPECIFICS FACTOR (Total Rating /100) =	**0.75**
FEE FACTOR (Project Specifics Factor x 0.30) =	**0.225**
DIRECT LABOR COSTS	**$ 10,361.52**

LEGISLATIVE HISTORY

This Ordinance amends and supplements Chapter 7 Traffic, Subsection 32.2 Restricted Parking Zones of the Revised General Ordinances. Restricted Parking Stalls will be established in front of 350 Main Street, 82 Harrison Avenue, 15 Ridgehurst Road, 11 Franklin Avenue, and 75 Kirk Street for the exclusive use of the residents who are in possession of a NJMVC Disability ID and Parking Placard. These Stalls were requested by the residents of each location and are permissible under NJ Statutes Annotated (N.J.S.A.) 39:4-197.7. Parking is permitted in the restricted parking zone except when prohibited by other sections of Chapter 7 of the Revised General Ordinances.

ORDINANCE NUMBER 2992-26

BOND ORDINANCE PROVIDING FOR THE PURCHASE OF VARIOUS AFTERMARKET EQUIPMENT FOR VARIOUS TOWNSHIP VEHICLES, BY AND IN THE TOWNSHIP OF WEST ORANGE, IN THE COUNTY OF ESSEX, STATE OF NEW JERSEY; APPROPRIATING $440,000 THEREFOR AND AUTHORIZING THE ISSUANCE OF $419,000 BONDS OR NOTES OF THE TOWNSHIP TO FINANCE PART OF THE COSTS THEREOF

BE IT ORDAINED AND ENACTED BY THE TOWNSHIP COUNCIL OF THE TOWNSHIP OF WEST ORANGE, IN THE COUNTY OF ESSEX, STATE OF NEW JERSEY (not less than two-thirds of all the members thereof affirmatively concurring), **AS FOLLOWS:**

SECTION 1. The improvements or purposes described in Section 3 of this bond ordinance are hereby authorized as general improvements or purposes to be undertaken by the Township of West Orange, in the County of Essex, State of New Jersey (the "Township"). For the said improvements or purposes stated in Section 3, there is hereby appropriated the amount of $440,000, said amount being inclusive of $21,000 as the amount of down payment for said improvements or purposes as required by the Local Bond Law, N.J.S.A. §40A:2-1 et seq. (the "Local Bond Law"). The down payment is now available by virtue of a provision or provisions in a previously adopted budget or budgets of the Township for down payment or for capital improvement purposes.

SECTION 2. For the financing of said improvements or purposes described in Section 3 hereof and to meet the part of said $440,000 appropriation not provided for by application hereunder of said down payment, negotiable bonds of the Township are

hereby authorized to be issued in the principal amount not exceeding $419,000 pursuant to, and within the limitations prescribed by, the Local Bond Law. In anticipation of the issuance of said bonds and to temporarily finance said improvements or purposes, negotiable notes of the Township in the principal amount not exceeding $419,000 are hereby authorized to be issued pursuant to, and within the limitations prescribed by, said Local Bond Law.

SECTION 3. (a) The improvements hereby authorized and purposes for the financing of which said obligations are to be issued are for the purchase of various aftermarket equipment for various Township vehicles, including, but not limited to, lights, sirens, vehicle mounts, computers, radios and graphic packages.

(b) The estimated maximum amount of bonds or notes to be issued for said improvements or purposes is $419,000.

(c) The estimated cost of said improvements or purposes is $440,000, the excess amount thereof over the said estimated maximum amount of bonds or notes to be issued therefor is the amount of $21,000 appropriated for the down payment for said improvements or purposes.

SECTION 4. In the event the United States of America, the State of New Jersey, and/or the County of Essex make a contribution or grant in aid to the Township for the improvements and purposes authorized hereby and the same shall be received by the Township prior to the issuance of the bonds or notes authorized in Section 2 hereof, then the amount of such bonds or notes to be issued shall be reduced by the amount so received from the United States of America, the State of New Jersey, and/or the County of Essex. In the event, however, that any amount so contributed or granted by the United

States of America, the State of New Jersey, and/or the County of Essex shall be received by the Township after the issuance of the bonds or notes authorized in Section 2 hereof, then such funds shall be applied to the payment of the bonds or notes so issued and shall be used for no other purpose. This Section 4 shall not apply, however, with respect to any contribution or grant in aid received by the Township as a result of using funds from this bond ordinance as "matching local funds" to receive such contribution or grant in aid.

SECTION 5. All bond anticipation notes issued hereunder shall mature at such times as may be determined by the Chief Financial Officer of the Township, provided that no note shall mature later than one (1) year from its date. The notes shall bear interest at such rate or rates and be in such form as may be determined by the Chief Financial Officer. The Chief Financial Officer of the Township shall determine all matters in connection with the notes issued pursuant to this bond ordinance, and the signature of the Chief Financial Officer upon the notes shall be conclusive evidence as to all such determinations. All notes issued hereunder may be renewed from time to time in accordance with the provisions of the Local Bond Law. The Chief Financial Officer is hereby authorized to sell part or all of the notes from time to time at a public or private sale and to deliver them to the purchaser thereof upon receipt of payment of the purchase price and accrued interest thereon from their dates to the date of delivery thereof. The Chief Financial Officer is directed to report in writing to the governing body at the meeting next succeeding the date when any sale or delivery of the notes pursuant to this bond ordinance is made. Such report must include the principal amount, the description, the interest rate, the maturity schedule of the notes so sold, the price obtained and the name of the purchaser.

SECTION 6. The Township hereby certifies that it has adopted a capital budget or temporary capital budget, as applicable. The capital budget or temporary capital budget, as applicable, of the Township is hereby amended to conform with the provisions of this bond ordinance, and to the extent of any inconsistency herewith, a resolution in the form promulgated by the Local Finance Board showing full detail of the amended capital budget and capital programs as approved by the Director of the Division of Local Government Services, New Jersey Department of Community Affairs, will be on file in the office of the Clerk and will be available for public inspection.

SECTION 7. The following additional matters are hereby determined, declared, recited and stated:

(a) The purposes described in Section 3 of this bond ordinance are not current expenses and are improvements which the Township may lawfully undertake as general improvements, and no part of the cost thereof has been or shall be specially assessed on property specially benefited thereby.

(b) The period of usefulness of said improvements within the limitations of the Local Bond Law, according to the reasonable life thereof computed from the date of the the bonds authorized by this bond ordinance, is seven (7) years.

(c) The supplemental debt statement required by the Local Bond Law has been duly made and filed in the Office of the Clerk of the Township and a complete executed duplicate thereof has been filed in the Office of the Director of the Division of Local Government Services, Department of Community Affairs, State of New Jersey, and such statement shows that the gross debt of the Township, as defined in the Local Bond Law, is increased by the authorization of the bonds or notes provided for in this bond

ordinance by $419,000 and the said obligations authorized by this bond ordinance will be within all debt limitations prescribed by said Local Bond Law.

(d) There will be no items of expense listed in and permitted under Section 20 of the Local Bond Law included in the estimated cost indicated herein for the improvements hereinbefore described.

SECTION 8. The full faith and credit of the Township are hereby pledged to the punctual payment of the principal of and the interest on the bonds or notes authorized by this bond ordinance. The bonds and notes authorized in this bond ordinance shall be direct, unlimited obligations of the Township and, unless paid from other sources, the Township shall be obligated to levy *ad valorem* taxes upon all the taxable property within the Township for the payment of the principal of the bonds or notes and the interest thereon without limitation as to rate or amount.

SECTION 9. The Township reasonably expects to reimburse any expenditures toward the costs of the improvements or purposes described in Section 3 hereof and paid prior to the issuance of any bonds or notes authorized by this bond ordinance with the proceeds of such bonds or notes. This Section 9 is intended to be and hereby is a declaration of the Township's official intent to reimburse any expenditures toward the costs of the improvements or purposes described in Section 3 hereof to be incurred and paid prior to the issuance of bonds or notes authorized herein in accordance with Treasury Regulations §1.150-2.

SECTION 10. The Township covenants to maintain the exclusion from gross income under Section 103(a) of the Internal Revenue Code of 1986, as amended, of the interest on all tax-exempt bonds and notes issued under this bond ordinance.

SECTION 11. The Chief Financial Officer of the Township is hereby authorized to prepare and to update from time to time as necessary a financial disclosure document to be distributed in connection with the sale of obligations of the Township, which are authorized herein, and to execute such disclosure document on behalf of the Township. The Chief Financial Officer is further authorized to enter into the appropriate undertaking to provide secondary market disclosure on behalf of the Township pursuant to Rule 15c2-12 of the Securities and Exchange Commission (the "Rule") for the benefit of holders and beneficial owners of bonds or notes of the Township, which are authorized herein, and to amend such undertaking from time to time in connection with any change in law, or interpretation thereof, provided such undertaking is and continues to be, in the opinion of a nationally recognized bond counsel, consistent with the requirements of the Rule. In the event that the Township fails to comply with its undertaking, the Township shall not be liable for any monetary damages, and the remedy shall be limited to specific performance of the undertaking.

SECTION 12. This bond ordinance shall take effect twenty (20) days after the first publication of this bond ordinance after final adoption, as provided by the Local Bond Law.

AN ORDINANCE AMENDING CHAPTER 5, ARTICLE II, SECTION 26, OF THE REVISED GENERAL ORDINANCES OF THE TOWNSHIP OF WEST ORANGE TO IMPLEMENT REQUIREMENTS AND PENALTIES FOR LANDSCAPE IRRIGATION CONTRACTORS

WHEREAS, The Mayor and Council of the Township of West Orange (the "Township"), have an interest in the efficient operation and effective administration of government services; and

WHEREAS, pursuant to N.J.S.A. 40:48-1, the governing body of a municipality may make, amend, repeal, and enforce such other ordinances, regulations, rules and by-laws not contrary to the laws of this State or Federal Government, as it may deem necessary and proper for the good of government, order and protection of person and property, and for the preservation of the public health, safety and welfare of the municipality and its inhabitants, and as may be necessary to carry into effect the powers and duties conferred and imposed by this subtitle, or by any law; and

WHEREAS, there has been a significant increase in the number of unlicensed landscape irrigation contractors operating in the State of New Jersey, positing safety and liability risks to those who contract with said individuals; and

WHEREAS, N.J.S.A. 45:5AA-1 et seq. mandates that all individuals advertising, entering into, or engaging in the business of landscape irrigation contracting must obtain a business permit from the Board of Landscape Irrigation Contractors; and

WHEREAS, N.J.S.A. 45:5AA-1 et seq. mandates that any individual, officer, partner or employee who is or will be actively engaged in the business for which a business permit is sought for landscape irrigation contracting has obtained a landscape irrigation contractor certificate from the Board of Landscape Irrigation Contractors; and

WHEREAS, N.J.S.A. 45:5AA-9 now permits municipalities to institute action against any person who violates N.J.S.A. 45:5AA-1 et seq., and seek penalties in accordance with the same; and

WHEREAS, in order for the Township to impose fines, which it may collect under N.J.S.A. 45:5AA-9, the same must be codified in the Municipal Code; and

WHEREAS, the Township desires to amend Chapter 5, Article II, Section 26, of the Revised General Ordinances of the Township of West Orange, to create a section entitled "LANDSCAPE IRRIGATION CONTRACRTORS."

NOW THEREFORE, BE IT ORDAINED, by the Township Council of the Township of West Orange, in the County of Essex, State of New Jersey, as follows:

SECTION 1. RECITALS. The foregoing whereas clauses are incorporated herein by reference and made a part hereof.

SECTION 2. Section 26, of Article II, Chapter 5 of the Revised General Ordinances of the Township of West Orange is hereby supplemented and amended as follows:

§ 5-26 LANDSCAPE IRRIGATION CONTRACRTORS

§ 5-26.1 Purpose.

To ensure that Landscape Irrigation Contractors, operating within the Township, maintain the certifications required by state law, applicable codes, regulations in order to preserve the safety and well-being of the Township and its inhabitants.

§ 5-26.2 Definitions

As used in this Section, the following terms shall have the following meanings:

LANDSCAPE IRRIGATION CONTRACTING

The construction, repair, maintenance, improvement, and alteration of any portion of a landscape irrigation system, which is a system designed, constructed, and installed for controlled dispersion of water.

LANDSCAPE IRRIGATION CONTRACTOR

A natural person, association, corporation, LLC, partnership, or other legal entity engaged in the business of, or who is proficient in Landscape Irrigation Contracting, and maintains a certificate issued by the Landscape Irrigation Contractors Examining Board for the same, pursuant to the provisions of N.J.S.A. 45:5AA-1 et seq.

LANDSCAPE IRRIGATION SYSTEM

Any assemblage of components, materials or special equipment which is designed, constructed and installed for controlled dispersion of water from any safe and suitable source, including properly treated wastewater, for the purpose of irrigating landscape vegetation or the control of dust and erosion on landscaped areas, including integral pumping systems or integral control systems for manual, semiautomatic or automatic control of the operation of these systems.

§ 5-26.3 State Certificate Required

No person shall engage in the business of or otherwise perform Landscape Irrigation Contracting within the Township, unless certified to do so by the Landscape Irrigation Contractors Examining Board in accordance with the provisions of N.J.S.A. 45:5AA-1 et seq.

§ 5-26.4 Violations and Penalties

A Landscape Irrigation Contractor who performs the services referenced herein without a license shall be subject to institution of an action by the Board of Landscape Irrigation Contractors or the Township's Local Enforcement Agency, and assessed an administrative penalty as follows:

1. First Offense: Penalty no greater than $5,000
2. Second Offense: Penalty no greater than $10,000
3. All Subsequent Offenses: Penalty no greater than $15,000

If the violation is of a continuing nature, each day during which it continues shall constitute an additional, separate, and distinct offense.

Should a penalty be assessed pursuant to this Section as a result of an action instituted by the Board of Landscape Irrigation Contractors, 100% of the penalty derived will be made available to the Board of Landscape Irrigation Contractors.

Should a penalty be assessed pursuant to this Section as a result of an action instituted by the Township, 30% of the penalty derived will be made available to the Board of Landscape Irrigation Contractors, and 70% of the penalty derived will be made available to the Township.

SECTION 3. Severability. Each section, subsection, sentence, clause and phrase of this subsection is declared to be an independent section, subsection, sentence, clause and phrase, and the finding or holding of any such portion of this subsection to be unconstitutional, void, or ineffective for any cause, or reason, shall not affect any other portion of this subsection.

SECTION 4. Repealer. All other ordinances or parts of ordinances inconsistent with this subsection are hereby repealed.

SECTION 5. Effective date. This subsection shall be in full force and effect from and after its adoption and any publication as required by law.

NOTICE

NOTICE IS HEREBY GIVEN, that the above Ordinance was introduced and passed on first reading at the regular meeting of the Township Council of the Township of West Orange, County of Essex, State of New Jersey held in the Municipal Building on the 13th day of October, 2026, and the same came up for final passage at the regular meeting of the Township Council held on the 27th day of October, 2026, at which time, after persons interested were given the opportunity to be heard concerning said Ordinance, the same was passed and will be in full force and effect in the Township of West Orange after approval by the Mayor or in accordance with law.

ADOPTED: October 27, 2026

TOWNSHIP OF WEST ORANGE,
IN THE COUNTY OF ESSEX, STATE OF NEW JERSEY
ORDINANCE NUMBER 2994-26

BOND ORDINANCE PROVIDING FOR THE REPLACEMENT OF SANITARY SEWER LINES ALONG STANDISH AVENUE, BY AND IN THE TOWNSHIP OF WEST ORANGE, IN THE COUNTY OF ESSEX, STATE OF NEW JERSEY; APPROPRIATING $1,000,000 THEREFOR AND AUTHORIZING THE ISSUANCE OF $950,000 BONDS OR NOTES OF THE TOWNSHIP TO FINANCE PART OF THE COSTS THEREOF

BE IT ORDAINED AND ENACTED BY THE TOWNSHIP COUNCIL OF THE TOWNSHIP OF WEST ORANGE, IN THE COUNTY OF ESSEX, STATE OF NEW JERSEY (not less than two-thirds of all the members thereof affirmatively concurring), **AS FOLLOWS:**

SECTION 1. The improvements or purposes described in Section 3 of this bond ordinance are hereby authorized as general improvements or purposes to be undertaken by the Township of West Orange, in the County of Essex, State of New Jersey (the "Township"). For the said improvements or purposes stated in Section 3, there is hereby appropriated the amount of $1,000,000, said amount being inclusive of $50,000 as the amount of down payment for said improvements or purposes as required by the Local Bond Law, N.J.S.A. §40A:2-1 et seq. (the "Local Bond Law"). The down payment is now available by virtue of a provision or provisions in a previously adopted budget or budgets of the Township for down payment or for capital improvement purposes.

SECTION 2. For the financing of said improvements or purposes described in Section 3 hereof and to meet the part of said $1,000,000 appropriation not provided for by application hereunder of said down payment, negotiable bonds of the Township are

hereby authorized to be issued in the principal amount not exceeding $950,000 pursuant to, and within the limitations prescribed by, the Local Bond Law. In anticipation of the issuance of said bonds and to temporarily finance said improvements or purposes, negotiable notes of the Township in the principal amount not exceeding $950,000 are hereby authorized to be issued pursuant to, and within the limitations prescribed by, said Local Bond Law.

SECTION 3. (a) The improvements hereby authorized and purposes for the financing of which said obligations are to be issued are for the replacement of sanitary sewer lines along Standish Avenue, including, but not limited to, as applicable, excavating the existing vitrified clay piping and replacing it with polyethylene piping.

(b) The estimated maximum amount of bonds or notes to be issued for said improvements or purposes is $950,000.

(c) The estimated cost of said improvements or purposes is $1,000,000, the excess amount thereof over the said estimated maximum amount of bonds or notes to be issued therefor is the amount of $50,000 appropriated for the down payment for said improvements or purposes.

SECTION 4. In the event the United States of America, the State of New Jersey, and/or the County of Essex make a contribution or grant in aid to the Township for the improvements and purposes authorized hereby and the same shall be received by the Township prior to the issuance of the bonds or notes authorized in Section 2 hereof, then the amount of such bonds or notes to be issued shall be reduced by the amount so received from the United States of America, the State of New Jersey, and/or the County of Essex. In the event, however, that any amount so contributed or granted by the United

States of America, the State of New Jersey, and/or the County of Essex shall be received by the Township after the issuance of the bonds or notes authorized in Section 2 hereof, then such funds shall be applied to the payment of the bonds or notes so issued and shall be used for no other purpose. This Section 4 shall not apply, however, with respect to any contribution or grant in aid received by the Township as a result of using funds from this bond ordinance as "matching local funds" to receive such contribution or grant in aid.

SECTION 5. All bond anticipation notes issued hereunder shall mature at such times as may be determined by the Chief Financial Officer of the Township, provided that no note shall mature later than one (1) year from its date. The notes shall bear interest at such rate or rates and be in such form as may be determined by the Chief Financial Officer. The Chief Financial Officer of the Township shall determine all matters in connection with the notes issued pursuant to this bond ordinance, and the signature of the Chief Financial Officer upon the notes shall be conclusive evidence as to all such determinations. All notes issued hereunder may be renewed from time to time in accordance with the provisions of the Local Bond Law. The Chief Financial Officer is hereby authorized to sell part or all of the notes from time to time at a public or private sale and to deliver them to the purchaser thereof upon receipt of payment of the purchase price and accrued interest thereon from their dates to the date of delivery thereof. The Chief Financial Officer is directed to report in writing to the governing body at the meeting next succeeding the date when any sale or delivery of the notes pursuant to this bond ordinance is made. Such report must include the principal amount, the description, the interest rate, the maturity schedule of the notes so sold, the price obtained and the name of the purchaser.

SECTION 6. The Township hereby certifies that it has adopted a capital budget or temporary capital budget, as applicable. The capital budget or temporary capital budget, as applicable, of the Township is hereby amended to conform with the provisions of this bond ordinance, and to the extent of any inconsistency herewith, a resolution in the form promulgated by the Local Finance Board showing full detail of the amended capital budget and capital programs as approved by the Director of the Division of Local Government Services, New Jersey Department of Community Affairs, will be on file in the office of the Clerk and will be available for public inspection.

SECTION 7. The following additional matters are hereby determined, declared, recited and stated:

(a) The purposes described in Section 3 of this bond ordinance are not current expenses and are improvements which the Township may lawfully undertake as general improvements, and no part of the cost thereof has been or shall be specially assessed on property specially benefited thereby.

(b) The period of usefulness of said improvements within the limitations of the Local Bond Law, according to the reasonable life thereof computed from the date of the the bonds authorized by this bond ordinance, is twenty (20) years.

(c) The supplemental debt statement required by the Local Bond Law has been duly made and filed in the Office of the Clerk of the Township and a complete executed duplicate thereof has been filed in the Office of the Director of the Division of Local Government Services, Department of Community Affairs, State of New Jersey, and such statement shows that the gross debt of the Township, as defined in the Local Bond Law, is increased by the authorization of the bonds or notes provided for in this bond

ordinance by $950,000 and the said obligations authorized by this bond ordinance will be within all debt limitations prescribed by said Local Bond Law.

(d) An aggregate amount not exceeding $100,000 for items of expense listed in and permitted under section 20 of the Local Bond Law is included in the estimated cost indicated herein for the purposes or improvements hereinbefore described.

SECTION 8. The full faith and credit of the Township are hereby pledged to the punctual payment of the principal of and the interest on the bonds or notes authorized by this bond ordinance. The bonds and notes authorized in this bond ordinance shall be direct, unlimited obligations of the Township and, unless paid from other sources, the Township shall be obligated to levy *ad valorem* taxes upon all the taxable property within the Township for the payment of the principal of the bonds or notes and the interest thereon without limitation as to rate or amount.

SECTION 9. The Township reasonably expects to reimburse any expenditures toward the costs of the improvements or purposes described in Section 3 hereof and paid prior to the issuance of any bonds or notes authorized by this bond ordinance with the proceeds of such bonds or notes. This Section 9 is intended to be and hereby is a declaration of the Township's official intent to reimburse any expenditures toward the costs of the improvements or purposes described in Section 3 hereof to be incurred and paid prior to the issuance of bonds or notes authorized herein in accordance with Treasury Regulations §1.150-2.

SECTION 10. The Township covenants to maintain the exclusion from gross income under Section 103(a) of the Internal Revenue Code of 1986, as amended, of the interest on all tax-exempt bonds and notes issued under this bond ordinance.

SECTION 11. The Chief Financial Officer of the Township is hereby authorized to prepare and to update from time to time as necessary a financial disclosure document to be distributed in connection with the sale of obligations of the Township, which are authorized herein, and to execute such disclosure document on behalf of the Township. The Chief Financial Officer is further authorized to enter into the appropriate undertaking to provide secondary market disclosure on behalf of the Township pursuant to Rule 15c2-12 of the Securities and Exchange Commission (the "Rule") for the benefit of holders and beneficial owners of bonds or notes of the Township, which are authorized herein, and to amend such undertaking from time to time in connection with any change in law, or interpretation thereof, provided such undertaking is and continues to be, in the opinion of a nationally recognized bond counsel, consistent with the requirements of the Rule. In the event that the Township fails to comply with its undertaking, the Township shall not be liable for any monetary damages, and the remedy shall be limited to specific performance of the undertaking.

SECTION 12. This bond ordinance shall take effect twenty (20) days after the first publication of this bond ordinance after final adoption, as provided by the Local Bond Law.

CLERK'S CERTIFICATE AS TO ADOPTION OF BOND ORDINANCE

I, KAREN J. CARNEVALE, DO HEREBY CERTIFY that I am the Clerk of the Township of West Orange, in the County of Essex (the "Township"), a municipal corporation organized and existing under the laws of the State of New Jersey, and that as such I am duly authorized to execute and deliver this certificate on behalf of the Township. In such capacity, I have the responsibility to maintain the minutes of the meetings of the governing body of the Township and the records relative to all resolutions and ordinances of the Township. The representations made herein are based upon the records of the Township. I DO HEREBY FURTHER CERTIFY THAT:

(1) Attached hereto is the bond ordinance introduced on October 13, 2026 and finally adopted on October 27, 2026 by the Township Council of the Township and approved by the Mayor (if applicable) on October 28th, 2026.

(2) After introduction, the bond ordinance was published as required by law on October 6, 2026 on the Township's official website.

(3) Following the passage of the bond ordinance on first reading, and at least seven (7) days prior to the final adoption thereof, I caused to be posted in the principal municipal building of the Township at the place where public notices are customarily posted, a copy of said bond ordinance or a summary thereof and a notice that copies of the bond ordinance would be made available to the members of the general public of the Township who requested copies, up to and including the time of further consideration of the bond ordinance by the governing body of the Township. Copies of the bond ordinance were made available to all who requested same.

(4) After final passage, the bond ordinance was duly approved by the Mayor on October 28th, 2026 (if applicable) and was duly published as required by law on October 28th, 2026 on the Township's official website. No protest signed by any person against making any improvement or incurring the indebtedness authorized therein, nor any petition requesting that a referendum vote be taken on the action proposed in the bond ordinance has been presented to the governing body of the Township or to me or filed in my office within twenty (20) days after said publication or at any other time after the final passage thereof.

(5) The bond ordinance has not been amended, added to, altered or repealed and said bond ordinance is now in full force and effect.

(6) A certified copy of the bond ordinance and a copy of the amended capital budget form have been filed with the Director of the Division of Local Government Services in the New Jersey Department of Community Affairs, as applicable.

(7) An impression of the official seal of the Township is affixed opposite my signature on this Certificate.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of the Township as of this 28th day of October, 2026.

BOND ORDINANCE NUMBER 2995-26

BOND ORDINANCE PROVIDING FOR VARIOUS 2026 CAPITAL ACQUISITIONS AND IMPROVEMENTS, BY AND IN THE TOWNSHIP OF WEST ORANGE, IN THE COUNTY OF ESSEX, STATE OF NEW JERSEY, APPROPRIATING $10,318,504 THEREFOR AND AUTHORIZING THE ISSUANCE OF $8,201,086 BONDS OR NOTES OF THE TOWNSHIP TO FINANCE PART OF THE COST THEREOF

BE IT ORDAINED AND ENACTED BY THE TOWNSHIP COUNCIL OF THE TOWNSHIP OF WEST ORANGE, IN THE COUNTY OF ESSEX, STATE OF NEW JERSEY (not less than two-thirds of all the members thereof affirmatively concurring)**, AS FOLLOWS:**

SECTION 1. The improvements or purposes described in Section 3 of this bond ordinance are hereby authorized as general improvements to be undertaken by the Township of West Orange, in the County of Essex, State of New Jersey (the "Township"). For the said improvements or purposes stated in Section 3 hereof, there is hereby appropriated the amount of $10,318,504, which sum includes (i) a $272,179 grant received or expected to be received from the Department of Transportation of the State of New Jersey FY 2022 Safe Routes to Schools – Design Assistance Program (the "DOT Safe Schools Grant"), (ii) a $300,000 grant received or expected to be received from the Community Development Block Grant Program (the "CDBG Grant"), (iii) a $392,489 grant received or expected to be received from the Department of Transportation of the State of New Jersey Fiscal Year 2026 Municipal Aid Program (the "DOT Road Grant"), (iv) a $416,500 grant received or expected to be received from the Department of Transportation of the State of New Jersey (the "DOT Streetscape Grant"), (v) a $390,000 grant received or

expected to be received from the State of New Jersey Clean Fleet Program (the "NJ Clean Fleet Grant" and together with the DOT Safe Schools Grant, the CDBG Grant, the DOT Road Grant and the DOT Streetscape Grant, the "Grants"), and (vi) down payments in the aggregate amount of $346,250 (the "Down Payments") for said improvements or purposes as required by the Local Bond Law of the State of New Jersey, as amended and supplemented (N.J.S.A. §40A:2-1 et seq.) (the "Local Bond Law"), which Down Payments are now available from the Township's Capital Improvement Fund by virtue of a provision or provisions in a previously adopted budget or budgets of the Township for down payment or capital improvement purposes. Pursuant to N.J.S.A. 40A:2-11(c) of the Local Bond Law, no down payment is required for the improvements or purposes set forth in Section 3(a)(x) and (xix) hereof, as such projects are being funded by the DOT Road Grant and the NJ Clean Fleet Grant, which are grants provided by the State of New Jersey.

SECTION 2. For the financing of said improvements or purposes described in Section 3 hereof and to meet part of said $10,318,504 appropriation not provided for by said Down Payments and the Grants referred to in Section 1 hereof, negotiable bonds of the Township are hereby authorized to be issued in the aggregate principal amount of $8,201,086 pursuant to, and within the limitations prescribed by, the Local Bond Law. In anticipation of the issuance of said bonds and to temporarily finance said improvements or purposes, negotiable notes of the Township in an aggregate principal amount not exceeding $8,201,086 are hereby authorized to be issued pursuant to, and within the limitations prescribed by, said Local Bond Law.

(c) The estimated maximum amount of bonds or notes to be issued by the Township for said improvements and purposes is $8,201,086.

(d) The estimated cost of said improvements and purposes to the Township is $10,318,504, the excess amount thereof over the estimated maximum amount of bonds or notes to be issued therefor are the Down Payments in the amount of $346,250

now available for said improvements and purposes from the Township's Capital Improvement Fund and the Grants.

SECTION 4. In the event the United States of America, the State of New Jersey, and/or the County of Essex make a contribution or grant in aid, except for the Grants, to the Township for the improvements and purposes authorized hereby and the same shall be received by the Township prior to the issuance of the bonds or notes authorized in Section 2 hereof, then the amount of such bonds or notes to be issued shall be reduced by the amount so received from the United States of America, the State of New Jersey, and/or the County of Essex. In the event that any amount so contributed or granted by the United States of America, the State of New Jersey, and/or the County of Essex, except for the Grants, shall be received by the Township after the issuance of the bonds or notes authorized in Section 2 hereof, then such funds shall be applied to the payment of the bonds or notes so issued and shall be used for no other purpose. This Section 4 shall not apply, however, with respect to any contribution or grant in aid received by the Township as a result of using funds from this bond ordinance as "matching local funds" to receive such contribution or grant in aid.

SECTION 5. All bond anticipation notes issued hereunder shall mature at such times as may be determined by the Chief Financial Officer of the Township (the "Chief Financial Officer"), provided that no note shall mature later than one (1) year from its date. The notes shall bear interest at such rate or rates and be in such form as may be determined by the Chief Financial Officer. The Chief Financial Officer shall determine all matters in connection with the notes issued pursuant to this bond ordinance, and the signature of the Chief Financial Officer upon the notes shall be conclusive evidence as to all such determinations. All notes issued hereunder may be renewed from time to time in

accordance with the provisions of N.J.S.A. § 40A:2-8.1 of the Local Bond Law. The Chief Financial Officer is hereby authorized to sell part or all of the notes from time to time at a public or private sale and to deliver them to the purchaser thereof upon receipt of payment of the purchase price and accrued interest thereon from their dates to the date of delivery thereof. The Chief Financial Officer is directed to report in writing to the governing body at the meeting next succeeding the date when any sale or delivery of the notes pursuant to this bond ordinance is made. Such report must include the principal amount, the description, the interest rate, the maturity schedule of the notes so sold, the price obtained and the name of the purchaser.

SECTION 6. The Township hereby certifies that it has adopted a capital budget or a temporary capital budget of the Township, as applicable. The capital budget or temporary capital budget, as applicable, of the Township is hereby amended to conform with the provisions of this bond ordinance to the extent of any inconsistency herewith. To the extent that the purposes authorized herein are inconsistent with the adopted capital or temporary capital budget, a revised capital or temporary capital budget has been filed with the Division of Local Government Services.

SECTION 7. The following additional matters are hereby determined, declared, recited and stated:

(a) The improvements and purposes described in Section 3 of this bond ordinance are not current expenses and are improvements and purposes which the Township may lawfully undertake as general improvements and no part of the cost thereof has been or shall be specially assessed on property specially benefited thereby.

(b) The average period of usefulness of said improvements or purposes, computed on the basis of the respective amounts of obligations authorized for

each purpose and the reasonable life thereof in accordance with the limitations set forth in the Local Bond Law, is 11.84 years.

(c) The supplemental debt statement required by the Local Bond Law has been duly made and filed in the Office of the Clerk of the Township and a complete executed duplicate thereof has been filed in the Office of the Director of the Division of Local Government Services in the Department of Community Affairs of the State of New Jersey, and such statement shows that the gross debt of the Township as defined in the Local Bond Law is increased by the authorization of the bonds or notes provided for in this bond ordinance by $8,201,086. The obligations authorized by this bond ordinance will be within all debt limitations prescribed by said Local Bond Law.

(d) An amount not exceeding $384,000 for items of expense listed in and permitted under N.J.S.A. § 40A:2-20 of the Local Bond Law is included in the estimated cost indicated herein for the purposes and improvements described in Section 3 hereof.

SECTION 8. The full faith and credit of the Township are hereby pledged to the punctual payment of the principal of and the interest on the obligations authorized by this bond ordinance. The obligations shall be direct, unlimited obligations of the Township and, unless paid from other sources, the Township shall be obligated to levy *ad valorem* taxes upon all the taxable property within the Township for the payment of the principal of the obligations and the interest thereon without limitation as to rate or amount.

SECTION 9. The Township reasonably expects to reimburse any expenditures toward the costs of the improvements or purposes described in Section 3 hereof and paid prior to the issuance of any bonds or notes authorized by this bond ordinance with the proceeds of such bonds or notes. This Section 9 is intended to be and hereby is a declaration of the Township's official intent to reimburse any expenditure toward

the costs of the improvements or purposes described in Section 3 hereof to be incurred and paid prior to the issuance of bonds or notes authorized herein in accordance with Treasury Regulation Section 1.150-2.

SECTION 10. The Township covenants to maintain the exclusion from gross income under Section 103(a) of the Internal Revenue Code of 1986, as amended, of the interest on all bonds and notes issued on a tax-exempt basis under this bond ordinance.

SECTION 11. The Chief Financial Officer is hereby authorized to prepare and to update from time to time as necessary a financial disclosure document to be distributed in connection with the sale of the obligations of the Township authorized herein and to execute such disclosure document on behalf of the Township. The Chief Financial Officer is further authorized to enter into the appropriate undertaking to provide secondary market disclosure on behalf of the Township pursuant to Rule 15c2-12 of the Securities and Exchange Commission (the "Rule") for the benefit of holders and beneficial owners of the obligations of the Township, which are authorized herein, and to amend such undertaking from time to time in connection with any change in law, or interpretation thereof, provided such undertaking is and continues to be, in the opinion of a nationally recognized bond counsel, consistent with the requirements of the Rule. In the event that the Township fails to comply with its undertaking, the Township shall not be liable for any monetary damages, and the remedy shall be limited to specific performance of the undertaking.

SECTION 12. This bond ordinance shall take effect twenty (20) days after the first publication of the notice of final adoption of this bond ordinance, as provided by the Local Bond Law.

CLERK'S CERTIFICATE AS TO ADOPTION OF BOND ORDINANCE

I, KAREN J. CARNEVALE, DO HEREBY CERTIFY that I am the Clerk of the Township of West Orange, in the County of Essex (the "Township"), a municipal corporation organized and existing under the laws of the State of New Jersey, and that as such I am duly authorized to execute and deliver this certificate on behalf of the Township. In such capacity, I have the responsibility to maintain the minutes of the meetings of the governing body of the Township and the records relative to all resolutions and ordinances of the Township. The representations made herein are based upon the records of the Township. I DO HEREBY FURTHER CERTIFY THAT:

(1) Attached hereto is the bond ordinance introduced on October 13, 2026 and finally adopted on October 27, 2026 by the Township Council of the Township and approved by the Mayor (if applicable) on October 28th, 2026.

(2) After introduction, the bond ordinance was published as required by law on October 6, 2026 on the Township's official website.

(3) Following the passage of the bond ordinance on first reading, and at least seven (7) days prior to the final adoption thereof, I caused to be posted in the principal municipal building of the Township at the place where public notices are customarily posted, a copy of said bond ordinance or a summary thereof and a notice that copies of the bond ordinance would be made available to the members of the general public of the Township who requested copies, up to and including the time of further consideration of the bond ordinance by the governing body of the Township. Copies of the bond ordinance were made available to all who requested same.

(4) After final passage, the bond ordinance was duly approved by the Mayor on October 28th, 2026 (if applicable) and was duly published as required by law on October 28th, 2026 on the Township's official website. No protest signed by any person against making any improvement or incurring the indebtedness authorized therein, nor any petition requesting that a referendum vote be taken on the action proposed in the bond ordinance has been presented to the governing body of the Township or to me or filed in my office within twenty (20) days after said publication or at any other time after the final passage thereof.

(5) The bond ordinance has not been amended, added to, altered or repealed and said bond ordinance is now in full force and effect.

(6) A certified copy of the bond ordinance and a copy of the amended capital budget form have been filed with the Director of the Division of Local Government Services in the New Jersey Department of Community Affairs, as applicable.

(7) An impression of the official seal of the Township is affixed opposite my signature on this Certificate.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of the Township as of this 28th day of October, 2026.

LEGISLATIVE HISTORY

This Ordinance amends and supplements Chapter 7 Traffic, Subsection 14.3 Parking Time Limited on Certain Streets During Certain Hours on Certain Days, and Subsection 50.2 Parking Meters on Streets of the Revised General Ordinances. Harrison Avenue is designated as a street with parking meters by Ordinance #1951-04. There are currently no Parking Meters installed on Harrison Avenue. This amendment is proposed to create limited time parking stalls and encourage parking turn over for local businesses and discourage parking all day in the business district.
